“While Catherine Cox and I were writing Apollo, Jerry Bostick was one of a handful of people who became our go-to sources—the men who made the Apollo days come alive again. What great news that Jerry is now telling his story in all the detail that it deserves. It will be an indispensable source for future generations who want to understand that historic era.” Charles Murray, co-author, Apollo

When author Jerry Bostick was eight years old, his family had indoor plumbing installed in their home. He thought they were living in the lap of luxury. In *The Kid from Golden*, Bostick shares his life story beginning with his birth in June of 1939 in that house in Golden, Mississippi. This memoir narrates a chronological rendering of Bostick’s family and memories and tells about his many accomplishments. *The Kid from Golden* discusses his early years growing up in rural Mississippi; to

Plain Tales from Antarctica are short stories based on real incidents that occurred during the author's two-year stay as a meteorologist at Halley 3, a British Research base in Antarctica located about 500 miles from the South Pole. In 1973 to 1975, Graham Chambers was part of an eighteen-man (no women) research group that lived in this fascinating yet unforgiving landscape. He writes: "It was a unique experience and one with sights, sounds and smells which are not forgotten after forty years. "Each story is based on real events and essentially is a true recollection, barring a strictly limited amount of literary licence and the limitations of human recollection. It is worth mentioning in this respect the 'witness' phenomenon, whereby 12 people can witness the very same event and produce at least half a dozen unique recollections of it."Thanks are due to the characters who inadvertently animated the stories. Some names have been changed and others not."

Bridges to the Past is an anthology of short stories involving Appalachian Mountain humor and serious events that profoundly affected the life of a boy and influenced him prodigiously as an adult. Chapter I, "The Whimper Carter Tales" portrays, in a vivid manner, the art of storytelling. It brings the reader vis-a-vis with Winfrey "Whimper" Carter who epitomized Appalachian storytelling and imagination. Imagine a preacher re-learning profanity because a lawnmower will not start. Alternatively, a teenager thinking a snake bites him when he was actually shot. Humor is to life what blood is to the heart, and Chapter I contains a huge dose of humor. In

addition, it's interspersed with historical facts which provide interesting reading. Chapter II, "A Lad's Heroes" is a poignant true story of a small boy who develops a her worship for two older cousins who served with Airborne units in World War II. This hero worship leads the lad into the United States Army and the Airborne. He, too, becomes a paratrooper as a memorial to his relatives, one who was killed in action at the Battle of the Bulge. It is a story that any combat veteran or those interested in military history will enjoy. Chapter III, "A Towheaded Boy and a Fifty-Dollar Rooster" is an equally emotional story that contains some levity. This chapter describes the love and devotion that can develop between a boy and his pets. it further denotes how experiences in childhood may affect a person for life. Chapter IV, "The Day of the Sermon" is a fictional account of a historical episode that shows the suffering of slaves in the ante-bellum South without being academic. It also deals with a devout preacher having the courage to challenge the slave holders in his congregation to determine a way to free those in bondage. Chapter IV invites people to examine the memories of slavery and its effect on this nation. Chapter V, "The Taking of a Deer" is a serious historical fiction account based on a true story of an underdog who was defended in court, gratis, by a wealthy and influential lawyer who once served as a Governor of Tennessee. It demonstrates that the laws of God and commonsense can prevail over laws and justice can be served to the underprivileged. Chapter VI, "The Uncle Cad Tales" depicts humans as they actually exist. This entire chapter consists of humorous tales spoken by a real character who has never received any attention other than through those who have known him. Overall, Bridges is a book that will be enjoyable to people of both sexes and all ages. Everyone, regardless of social status, will find something in Bridges that is fulfilling. It is down-to-earth and

This new book is more than a simple engine repair manual. Designed for the beginner with little or no mechanical experience, *Small Engines & Outdoor Power Equipment* is a graphically appealing, step-by-step guide that covers all of the most important engine maintenance and repair skills you'll need to keep your equipment running at peak performance. It also shows exactly how to perform mechanical upkeep and repairs on the most common outdoor power implements, including lawn mowers, snow blowers, chain saws, power washers, generators, leaf blowers, rototillers, wood splitters, lawn edgers, and weed whips. With clear 'how-to' photos and detailed diagrams, you'll see exactly what needs to be done. A comprehensive troubleshooting guide helps you define problems and enact solutions. With *Small Engines & Outdoor Power Equipment* in your library, you won't need to haul the lawn mower off to the repair center and wait a few weeks just because a filter is plugged or the old gas needs to be replaced. Among the many skills you'll learn are seasonal tune-ups, changing oil, servicing spark plugs, cleaning filters, replacing muffler, servicing the fuel tank, overhauling the carburetor, servicing brakes, inspecting flywheels, replacing the fuel pump, and replacing a rewind cord.

COMBINATION LOCK is the autobiography of C. Wayne Parker. His story begins in 1962 with him as a short, skinny, shy, fatherless, high school kid with a pet dog and hope. He grew up in the small, lower-middle-class Burlington community of east Knoxville, Tennessee. He was a simple boy living in a simple time. Throughout his early life he

struggled to find the right combination of qualities that would ensure for him a satisfying, meaningful life. He flunked out of engineering college, and the military draft board wanted him for duty in Vietnam, yet he still carried his dream in his heart. He did not give up; he did not quit. Along the way, his path took him on a journey of hurt, happiness, disaster and deliverance. There were times for both tears and smiles—as there are in his book. But as he matured and made some changes, his life was transformed into one of love, contentment and peace. What were the qualities that made up his combination and unlocked for him a path to secure his dream? Walk the path with him.

This newly up-to-date edition of the best-selling DIY reference *Small Engines and Outdoor Power Equipment* offers them same great comprehensive and illustrated instruction but with new and improved content for today's motorized equipment. Dyson has become a byword for high-performing products, technology, design, and invention. Now, James Dyson, the inventor and entrepreneur who made it all happen, tells his remarkable and inspirational story in *Invention: A Life*. Famously, over a four-year period, James Dyson made 5,127 prototypes of the cyclonic vacuum cleaner that would transform the way houses are cleaned around the world. In devoting all his resources to iteratively developing the technology, he risked it all, but out of many failures and setbacks came hard-fought success. His products—including vacuum cleaners, hair dryers and hair stylers, and fans and purifiers—are not only revolutionary technologies, but design classics. This was a legacy of his time studying at the Royal College of Art in the 1960s, when he was inspired by some of the most famous artists, designers, and inventors of the era, as well as his engineering heroes such as Frank Whittle and Alex Issigonis. In *Invention: A Life*, Dyson reveals how he came to set up his own company and led it to become one of

the most inventive technology companies in the world. It is a compelling and dramatic tale, with many obstacles overcome. Dyson has always looked to the future, even setting up his own university to help provide the next generation of engineers and designers. For, as he says, “everything changes all the time, so experience is of little use.” Whether you are someone who has an idea for a better product, an aspiring entrepreneur, whether you appreciate great design or a page-turning read, *Invention: A Life* offers you inspiration, hope, and much more.

Called "today's hottest financial idea and getting hotter" by fortune magazine, Economic Value Added (EVA) is the topic of conversation in financial circles around the world, from Germany and Japan to Singapore and South Africa. A revolutionary strategy for creating corporate and shareholder wealth that measures a company's real profitability, it has been adopted by such prominent corporations as Coca-Cola, Eli Lilly, and Siemens AG-with spectacular financial results. Yet, despite its increasing visibility, most executives still only have a vague notion of what EVA is and what it can do for their company. This groundbreaking book explains and clarifies all. Written by Al Ehrbar, a leading business journalist and senior vice president at EVA inventor Stern Stewart & Co., *EVA: The Real Key to Creating Wealth* provides a complete, accessible overview that examines how exactly EVA works, how it is measured, what it can do to structure incentives for employees, and why it is as potent as it is. At its most basic, Economic Value Added is a measure of corporate performance that differs from most others by charging profit for the cost of all the capital a company employs, including equity. To help translate principle into real-world practice, Ehrbar presents revealing case histories of EVA success stories, including those of Briggs & Stratton, the U.S. Postal Service, and Coca-Cola, which was catapulted from mediocrity to the number one wealth creator in the world with the addition of EVA. An in-depth look at a breakthrough idea whose impact is being felt from corporate boardrooms to Wall
