Twentieth-Century Metapoetry and the Lyric Tradition reveals the unique value of metapoems for exploring twentieth-century poetry. By placing these texts into a hitherto barely investigated literary-historical perspective, it demonstrates that modern metapoetry is steeped in the lyric tradition to a much greater extent than previously acknowledged. Since these literary continuities that cut across epochal boundaries can be traced across all major poetic movements, they challenge established accounts of the history of twentieth-century poetry that postulate a radical break with the (immediate) past. Moreover, the finding that metapoems perpetuate traditional forms and topoi distinguishes metapoetry historically and systematically from metafiction and metadrama. After highlighting the most important differences as regards to the function of metareference in poetry on the one side, and in fiction and drama on the other, the book concludes with a discussion of how to account for these generic differences theoretically. With its "extraordinarily subtle and perceptive" (Ronald Bush, St. John's College, Oxford) interpretive readings of over one hundred metapoems by canonical anglophone authors, it offers the first representative selection of twentieth-century poems about poetry in English.

Military Thought of Asia challenges the assertion that the generation of rational secular ideas about the conduct of warfare is the preserve of the West, by analysing the history of ideas of warfare in Asia from the ancient period to the present. The volume takes a transcontinental and comparative approach to provide a broad overview of the evolution of military thought in Asia. The military traditions and theories which have emerged in different parts of Eurasia throughout history are products of geopolitics and unique to the different regions. The book considers the systematic and tight representation of ideas by famous figures including Kautlya and Sun Tzu. At the same time, it also highlights publications on military affairs by small men like mid-ranking officers and scattered ideas regarding the origin, nature and societal impact of organised violence present in miscellaneous sources like coins, inscriptions, paintings and fictional literature. In so doing, the book fills a historiographical gap in scholarship on military thought, which marginalises Asia to the part of cameo, and historicises the evolution of theory and the praxis of warfare. The volume shows that the 'East' has a long unbroken tradition of conceptualising war and its place in society from the Classical Era to the Information Age. It is essential reading for those interested in the evolution of military thought throughout history, particularly in Asia.

This important book addresses critical themes in the development of archaeology as a reflexive, self-critical discipline in the modern world. It explores the ethical, political and cultural tensions and responsibilities which need to be addressed by archaeologists when working within networks of global ecologies and communities, examining how authoritarian traditions can exacerbate the divide between expert and public knowledge. Moreover, it analyses how localized acts of archaeology relate to changing conceptions of risk, heritage, culture, identity, and conflict. Bringing insights from Alain Schnapp, Michael Shanks, Isabelle Stengers, Bruno Latour, Ulrich Beck, John Urry and others to cross-disciplinary discussions of these themes, *Unquiet Past* shows how archaeological discourse can contribute towards engaging and understanding current dilemmas. It also shows how archaeology, as a localized and responsibly exercised practice, can play a part in building our commonly shared and experienced world.

Well, what is in no doubt is that Loonyology is 200% Bronson and will transport the reader on the dizziest no-holds-barred roller-coaster ride of their lives, from suspense and shock to laughter and tears, and from Bronson the 'Solitary King' to Bronson the Philosopher, the Poet, the Artist, the Author, the Joker, the Walking Scar and the Freedom Fighter. Now 55 years old, and having spent most of his last 34 years as a maximum security 'Bronco Zoo' inmate, he's a much wiser man as he looks back on his crazy journey of unpredictable behaviour, his ever-alert mind darting from reminiscences of his teenage years to memories of fellow-cons, the screws, the cranks, letters and news reports, prison life and procedures, and the overall madness ('loonyology') of the legal and penal systems, peppering his stories with diary entries, true gems of information, sound advice and hilarious one-liners. Together with his many supporters and with the aid of a top lawyer, Charlie is campaigning for the parole board to finally allow him his freedom, but begging is not his style: he calls a spade a spade and is determined to win with dignity, fighting with his pen and his brain to achieve his aim of a life outside 'the cage'. In his words: "I chose to be a villain. I'm not proud of it, nor am I ashamed of it. I have paid my debt to society and it's time to go home."
