From Reconstruction to Integration Brian Brivati, Harriet Jones, 1993 Selected from the 1992 summer school of the Institute of Contemporary British History, 20 essays delve into why Britain, so quickly off the mark after World War II, has turned out to be among the last to join a unified Europe, and still remains a semi-detached member. They are arranged in sections on Britain's early vision of a united Europe, her search for a role from 1956 to 1973, and the awkward and often tense marriage since then. Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year “Impressive . . . Mr. Judt writes with enormous authority.” —The Wall Street Journal “Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history.” —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. *Postwar* is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, *Postwar* is a rare joy. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

Britain and Europe Since 1945 Oliver J. Daddow, 2004-04-15 This important book offers a refreshing and challenging perspective on the nature of history by analyzing the character, role, functioning and wider uses of historiography. Taking British policies toward European integration since the Second World War as a case study, the author demonstrates how its interpretation and reportage over time is subject to changing trends. Seeking to explain these trends in terms of the different

conceptions of the past which are maintained by different schools of writing, it forces us to confront the fundamental difficulties we encounter in undertaking studies in history. It draws attention to the impact on historical interpretation of changing times, political discourse, the opening of archives, and of subjects being brought to the fore by professional historians.

Europe Since 1945 Mary Fulbrook, 2001 Mary Fulbrook's Introduction to this splendid concluding volume in The Short Oxford History of Europe begins with a vivid contrast, setting the struggle for survival in a devastated rubble-strewn street of East Berlin in 1945 against the same location in the reunited city at the end of the century, unrecognizable in its gleaming, confident, cosmopolitan affluence. The book brings home the extraordinary waves of transformation that have washed across Europe in the second half of the twentieth century, sketching out the major general patterns of this change, and exploring some of the local themes and variations in different parts of Europe. The result is both illuminating and engrossing: a must for students of contemporary history, politics, and European studies, it also offers immense rewards to any reader interested in the roots, and fruits, of the post-war European renaissance.

Britain and Norway in Europe Since 1945 Geir K. Almlid,2020-12-01 This book examines Britain and Norway in Europe from 1945 through to the former's departure from the European Union in 2020. It compares their European relations and investigates their bilateral relationship within the contexts of security, trade and, above all, European integration. Britain and Norway are outsiders in Europe, and they have both been sceptical of the continental federalist approach to European integration. The question of membership itself has been highly controversial in both countries: the public has been divided on the issue; it has plagued political parties and governments; and prime ministers have resigned over European issues. This book explores why these countries have struggled so deeply with the idea of Europe since 1945, and looks ahead to how the relationship between Britain and Norway might develop after Brexit.
