This indispensable volume is a lucid and faithful account of the Buddha's teachings. "For years," says the Journal of the Buddhist Society, "the newcomer to Buddhism has lacked a simple and reliable introduction to the complexities of the subject. Dr. Rahula's What the Buddha Taught fills the need as only could be done by one having a firm grasp of the vast material to be sifted. It is a model of what a book should be that is addressed first of all to 'the educated and intelligent reader.' Authoritative and clear, logical and sober, this study is as comprehensive as it is masterly." This edition contains a selection of illustrative texts from the Suttas and the Dhammapada (specially translated by the author), sixteen illustrations, and a bibliography, glossary, and index.

What is the philosophy of religion? How can we distinguish it from theology on the one hand and the psychology/sociology of religious belief on the other? What does it mean to describe God as "eternal"? And should religious people want there to be good arguments for the existence of God, or is religious belief only authentic in the absence of these good arguments? In this Very Short Introduction Tim Bayne introduces the field of philosophy of religion, and engages with some of the most burning questions that philosophers discuss. Considering how "religion" should be defined, and whether we even need to be able to define it in order to engage in the philosophy of religion, he goes on to discuss whether the existence of God matters. Exploring the problem of evil, Bayne also debates the connection between faith and reason, and the related question of what role reason should play in religious contexts. Shedding light on the relationship between science and religion, Bayne finishes by considering the topics of reincarnation and the afterlife. This volume presents the first book-length study in English of the concept of Buddha nature as discussed in the Buddha Nature Treatise (Fo Xing Lun), attributed to Vasubandhu and translated into Chinese by Paramartha in the sixth century. The author provides a detailed discussion of one of the most important concepts in East Asian Buddhism, a topic little addressed in Western studies of Buddhism until now, and places the Buddha nature concept in the context of Buddhist intellectual history. King then carefully explains the traditional Buddhist language in the text, and embeds Buddha nature in a family of concepts and values which as a group are foundational to the development of the major indigenous schools of Chinese Buddhism. In addition, she refutes the accusations that the idea of Buddha nature introduces a crypto-Atman into Buddhist thought, and that it represents a form of monism akin to the Brahmanism of the Upanisads. In doing this, King defends Buddha nature in terms of purely Buddhist philosophical principles. Finally, the author engages the Buddha nature concept in dialogue with Western

Religious Education in the Secondary School is a comprehensive, straightforward introduction to the effective teaching of Religious Education in the secondary classroom. Acknowledging the highly valuable yet often misunderstood contribution of RE, this text shows how the subject can be taught in a way that explores the impact of religion on the lives of people and society, engaging pupils and preparing them to become individuals who celebrate and respect diversity. It is illustrated throughout with ideas for teaching at different key stages and offers expert chapters introducing you to both the World Religions and the core aspects of effective teaching and learning. With an emphasis on developing an understanding of the importance - and different ways - of meeting the learning needs of all pupils, key chapters cover: -Understanding different pedagogies of RE -Spirituality and RE -Tips on effective planning and assessment -An approach to teaching across the Key Stages -Core subject knowledge in Buddhism, Christianity, Hinduism, Islam, Judaism

and Sikhism Written by an experienced teacher, teacher educator and examiner, Religious Education in the Secondary School is a succinct compendium and has a real classroom applicability offering all trainee RE teachers, as well as those teaching Religious Education as specialists or non-specialists a wealth of support and inspiration.

The Buddha's teachings center around two basic principles. One is the Four Noble Truths, in which the Buddha diagnoses the problem of suffering and indicates the treatment necessary to remedy this problem. The other is the Noble Eightfold Path, the practical discipline he prescribes to uproot and eliminate the deep underlying causes of suffering. The present book offers, in simple and clear language, a concise yet thorough explanation of the Eightfold Path. Basing himself solidly upon the Buddha's own words, the author examines each factor of the path to determine exactly what it implies in the way of practical training. Finally, in the concluding chapter, he shows how all eight factors of the path function in unison to bring about the realization of the Buddhist goal: enlightenment and liberation.

In this short masterpiece, eminent scientist and theologian John Polkinghorne offers an accessible, yet authoritative, introduction to the stimulating field of science and theology. After surveying their volatile historical relationship, he leads the reader through the whole array of questions at the nexus of the scientific and religious quests. A lucid and lively

writer, Polkinghorne provides a marvelously clear overview of the major elements of current science (including quantum theory, chaos theory, time, and cosmology). He then offers a concise outline of the character of religion and shows the joint potential of science of religion to illumine some of the thorniest issues in theology today: creation, the nature of knowledge, human and divine identity and agency. Polkinghorne aptly demonstrates that a sturdy faith has nothing to fear and much to gain from an intellectually honest appraisal of the new horizons of contemporary science.

Learning to Teach Religious Education in the Secondary School provides insights from current educational theory and the best contemporary classroom teaching and learning, and suggests tasks, activities and further reading that are designed to enhance the quality of initial school experience for the student teacher. examine the evidence behind what makes great teaching and explore how to implement this in the classroom to make a difference to learning. They distil teaching and learning down into six core principles - challenge, explanation, modelling, practice, feedback and questioning - and show how these can inspire an ethos of excellence and growth, not only in individual classrooms but across a whole school too. Combining robust evidence from a range of fields with the practical wisdom of experienced, effective classroom teachers, the book is a complete toolkit of strategies that teachers can use every lesson to make that lesson count. There are no gimmicky ideas here - just high impact, focused teaching that results in great learning, every lesson, every day. To demonstrate how attainable this is, the book contains a number of case studies from a number of professionals who are successfully embedding a culture of excellence and growth in their schools. Making Every Lesson Count offers an evidence-informed alternative to restrictive Ofsted-driven definitions of great teaching, empowering teachers to deliver great lessons and celebrate high-quality practice. Suitable for all teachers - including trainee teachers, NQTs, and experienced teachers - who want quick and easy ways to enhance their practice and make every lesson count. This new textbook provides a clear, informative and rigorous guide for students taking Religious Studies GCSE with all the major exam boards. Islam. Throughout the book, emphasis is placed on the scriptural basis of each religious view and on other sources of authority in each religious tradition. The development of core ethical and doctrinal questions is explored, and key thinkers and theologians are introduced to give a sound understanding of complex issues. Chapter by chapter, the book covers such topics as religious texts and sources of authority; the existence and nature of God; revelation and religious experience; the problem of evil; science and religion; death and life after death; human nature and personal relationships; human rights, conflict and crime; and global issues. There is also a dedicated chapter on study skills and exam techniques, and each chapter includes student-friendly features such as revision summaries, questions and activities. While the book has been designed with the new GCSE specifications and reforms in mind, it encourages students to see the full significance of these issues by going beyond the narrow confines of their own specification. As such, Religious Studies for GCSE will be the ideal companion for investigating this rich and fascinating area of human life.

Old Path White Clouds presents the life and teachings of Gautama Buddha. Drawn directly from 24 Pali, Sanskrit, and Chinese sources, and retold by Thich Nhat Hanh in his inimitably beautiful style, this book traces the Buddha's life slowly and gently over the course of 80 years, partly through the eyes of Svasti, the buffalo boy, and partly through the eyes of the Buddha himself. Old Path White Clouds is destined to become a classic of religious literature. "I have not avoided including the various difficulties the Buddha encountered, both from his own disciples and in relation to the wider society. If the Buddha appears in this book as a man close to us, it is partly due to recounting such difficulties." - from the author's Afterword.

of low religious literacy and rising extremism, to protect communities from the consequences of hatred and misunderstanding. This book promotes a public discussion of what exactly is needed from a new model of RE within our education system to benefit wider society. In this edited collection, the chapters are diverse and future-facing, informed by theory and practice and written by a variety of key leading practitioners and emerging national leaders in RE. It covers the most pressing and urgent issues for RE such as hate speech, educational reform, and the weakening of moderate religious institutions. Linking the chapters together with recurring themes and joining passages, the editors create a flowing and coherent discussion about the state of RE and offer choices and routes for readers to consider in terms of its future course.
