Tom Waits, even with his barnyard growl and urban hipster yawp, may just be what the Daily Telegraph calls him: "the greatest entertainer on Planet Earth." Over a span of almost four decades, he has transformed his music and persona not to suit the times but his whims. But along with Bob Dylan, he stands as one of the last elder statesmen still capable of putting out music that matters. Journalists intent upon cracking the code are more likely to come out of a Waits interview with anecdotes about the weather, insects, or medieval medicine. He is, in essence, the teacher we wished we had, dispensing insights such as: "Vocabulary is my main instrument;" "We all like music, but what we really want is for music to like us;" "Anything you absorb you will ultimately secrete;" "Growth is scary, because you're a seed and you're in the dark and you don't know which way is up, and down might take you down further into a darker place . . .;" and "There is no such thing as nonfiction. . . . People who really know what happened aren't talking. And the people who don't have a clue, you can't shut them up." Tom Waits on Tom Waits is a selection of over fifty interviews from the more than five hundred available. Here Waits delivers prose as crafted, poetic, potent, and haunting as the lyrics of his best songs.

All the facts and informed opinion that you need on the artists who made the history of this decade are contained in this single volume, distilled from The Virgin Encyclopedia of Popular Music, universally acclaimed as the world's leading source of reference on rock and pop history.

Silent Films/Loud Music discusses contemporary scores for silent film as a rich vehicle for experimentation in the relationship between music, image, and narrative. Johnston offers an overview of the early history of music for silent film paired with his own first-hand view of the craft of creating new original scores for historical silent films: a unique form crossing musical boundaries of classical, jazz, rock, electronic, and folk. As the first book completely devoted to the study of contemporary scores for silent film, it tells the story of the historical and creative evolution of this art form and features an extended discussion and analysis of some of the most creative works of contemporary silent film scoring. Johnston draws upon his own career in both contemporary film music (working with directors Paul Mazursky, Henry Bean, Philip Haas and Doris Dörrie, among others) and in creating new scores for silent films by Browning, Méliès, Kinugasa, Murnau & Reiniger. Through this book, Johnston presents a discussion of music for silent films that contradicts long-held assumptions about what silent film music is and must be, with thought-provoking implications for both historical and contemporary film music.

When the heat in Brooklyn climbs to a hundred, there's only one thing worse than being a delivery man for HomeMade Cakes. It's being a delivery woman for Homemade. Because Anna, the feisty heroine of this earthy and irreverent novel, has to put up with things that her male co-workers can't imagine, from a boss who despises women to storekeepers who feel her up when they aren't trying to rip her off for the price of a carton of Chocos. As realized by Susan Jerden, Anna is a true representative of blue-collar, no-glitz New York, a valiant single mother, whose attempts to keep her head above water—and her dignity intact—are both hilarious and uplifting. Let 'Em Eat Cake is a novel for anyone who has ever worked at a demeaning job and dreamed of dancing on the merchandise, a book as real as a corner bodega and as refreshing as an open hydrant in the middle of a scolding summer.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Jim Clark shares his experiences as a highly successful film editor at a time when films were a true collaboration of talented individuals. The legendary "Doctor" Clark was the man who could make sick films healthy again. The role of editor in the collective, collaborative process that is the making of any film is massively important but not one that is generally recognized outside the small

pond that is the filmmaking community. In this wonderfully enjoyable memoir, this point becomes steadily obvious, but it is made with subtlety, discretion, and modesty. The book is also a history of the post-war film industry in England and America as well as an autobiography. As William Boyd wrote in his Introduction, "The trouble with writing an autobiography is that you can't really say what a great guy you are, what fun you are to work with and hang out with, what insight and instinct you have about the art form of cinema, and how much and how many film directors are indebted to you."

Including sharp critical appraisals of a host of films and such talents as Glenda Jackson, John Hurt, Monty Python and many more, 'National Heroes' is a classic work on the British film industry in the seventies and eighties.
