Drawing comes with several benefits. One of these is the development of fine motor skills that will aid in the completion of tasks involving object manipulation by hand. As your child draws, he/she begins to express what he/she imagines. Objects are given careful details so features are learned. This way, you can understand what your child creates. How are your child's drawing skills now?

In this revised and expanded edition of Bloodball, J. G. Van Tine probes the mind-set that dominates media sport. By uncovering covert games, tactics and payoffs, he redefines the hero worship that vaunts a tiny minority while luring the majority into conflicted passivity. As the sporting audience rarely glimpses those who run the corporations and own the teams, Bloodball attempts to ease this relation by revealing how and why the media disguise corporate control and power plays, among them the History Fob, Getting Wa-Wa, Branding, and Your Heart Belongs to Daddy.

How To Develop The Leadership Characteristic Already Within You Leaders change the world. Leaders inspire others. Leaders live their passion Vision Knowing what you want and where you are going is vital. The next step is picturing, in your mind, exactly what you want down to the smallest detail. However, the most important piece of the puzzle is your WHY - the reason you want whatever it is you want. Without that it's game over. Courage You may have your

purpose, but do you possess the guts to tell the world and follow it through. Courage needn't be loud and aggressive, more often it's a voice in your mind which compels you to keep trying.

**Integrity** Are you honest? Do you speak what you believe? Do you set the example for others to emulate? Are you a person of their word? Are you committed to becoming more than what you already are? Did you answer yes to all the above? Integrity is built upon these questions, leadership is built upon integrity.

**Humility** The initial response to leadership and humility brings up images of oil and water - they cannot go together. On a second look you will find humility running through every great modern day leader. The role of a leader is to serve the people following them. Can you think less of yourself and more of others, to best meet their needs? It's not as easy as it sounds.

**Self Discipline** If you cannot control yourself you will NEVER have the control of others. You will never be able to keep a team around you who complement your strengths and enhance your weakness. Without those people the dream is just that, a dream, and will never become reality.

**Planning** The first words that come to mind are usually -not again- accompanied with an eye roll. Many great people have said what I'm about to say - if you fail to plan you plan to fail. A plan is like the foundations when building a house. Without them all the work that's supposed to be carried out on top, will eventually collapse on itself.

**Influence** The number one skill needed to be a great salesman and one of the 12 pillars of leadership. Influence is the ability to help people see what you see, to paint them the picture of how you see the future and for them to say -I want that too!-

**Decision** My parents can't make a decision and it's frustrating as hell, especially when we go out for a meal. I ask them where they would like to go, I always get the same response -I'm easy-. As mad as this makes me I realised - people will not follow a leader who cannot decide what to do.

**Listening** Sorry to

break your bubble, but you are not going to have all the great ideas. you are one mind among billions, someone else will have the same motives as you and will be able to help. Listen to them and by listen I don't mean hear what they say, actually listen with the intent to understand. Responsibility Can you handle it? The pressure, the weight of the dream on top of your shoulders. If you can't, would you turn down a new opportunity? Many people do! Communication You have the vision, the courage and the best plan since Steve Jobs released the iPhone, but can you tell me so they fully understand it without it taking a long time? It's not easy, but if it was everybody would be able to do it. Mentoring Help the people who follow you by sharing what you know. Not only do they learn, every time you share an idea you get to hear it again and again and again - repetition is the mother of skill.

The vision is that our young children will grow to become productive, respectful, responsible, patient, accountable, thoughtful and safe.
