Teach Yourself English Pronunciation: An Interactive Course for Spanish Speakers Eva Estebas

Vilaplana, 2009-11 ¿Has estado estudiando inglés durante mucho tiempo pero te da la impresión de que todavía no entiendes con claridad a la gente inglesa? O, lo que es peor, ¿no consigues hacer que te entiendan? Se trata de un problema muy común entre los hispanohablantes que han invertido muchos años de su vida en clases de inglés, logrando alcanzar un excelente nivel de vocabulario y gramática, y todavía con grandes dificultades a la hora de comunicarse oralmente. La mayoría de esos problemas podrían resolverse si los hispanohablantes hubiesen prestado más atención al aspecto de la pronunciación, teniendo en cuenta que es el área en la que más difieren el inglés y el español. Este libro está pensado para ayudar a resolver esos problemas de comunicación en inglés, presentando las cuestiones más relevantes de la pronunciación inglesa y comparándolas con aquellas de la pronunciación española. No sólo abarca las vocales y las consonantes, si no también otros aspectos como el ritmo, la entonación, o la colocación del acento. El libro viene acompañado de un CD-ROM con material de audio y ejercicios interactivos.

Ready to Learn Tara Beteille, Namrata Tognatta, Michelle Riboud, Shinsaku Nomura, 2020-03-06 Countries that have sustained rapid growth over decades have typically had a strong public commitment to expanding education as well as to improving learning outcomes. South Asian countries have made considerable progress in expanding access to primary and secondary schooling, with countries having achieved near-universal enrollment of the primary-school-age cohort (ages 6+–11), except for Afghanistan and Pakistan. Secondary enrollment shows an upward trend as well. Beyond school, many more people have access to skilling opportunities and higher education today. Although governments have consistently pursued policies to expand access, a prominent feature of the region has been the role played by nonstate actors—private nonprofit and forprofit entities—in expanding access at every level of education. Though learning levels remain low, countries in the region have shown a strong commitment to improving learning. All countries in South Asia have taken the first step, which is to assess learning outcomes regularly. Since 2010, there has been a rapid increase in the number of large-

scale student learning assessments conducted in the region. But to use the findings of these assessments to improve schooling, countries must build their capacity to design assessments and analyze and use findings to inform policy.

The Social Cure Jolanda Jetten, Catherine Haslam, Alexander, S. Haslam, 2012-01-25 A growing body of research shows that social networks and identities have a profound impact on mental and physical health. With such mounting evidence of the importance of social relationships in protecting health, the challenge we face is explaining why this should be the case. What is it that social groups offer that appears to be just as beneficial as a daily dose of vitamin C or regular exercise? This edited book brings together the latest research on how group memberships, and the social identities associated with them, determine people's health and well-being. The volume provides a variety of perspectives from clinical, social, organisational and applied fields that offer theoretical and empirical insights into these processes and their consequences. The contributions present a rich and novel analysis of core theoretical issues relating to the ways in which social identities, and factors associated with them (such as social support and a sense of community), can bolster individuals' sense of self and contribute to physical and mental health. In this way it is shown how social identities constitute a 'social cure', capable of promoting adjustment, coping and well-being for individuals dealing with a range of illnesses, injuries, trauma and stressors. In addition, these theories provide a platform for practical strategies that can maintain and enhance well-being, particularly among vulnerable populations. Contributors to the book are at the forefront of these developments and the book's strength derives from its analysis of factors that shape the health and well-being of a broad range of groups. It presents powerful insights which have important implications for health, clinical, social and organisational psychology and a range of cognate fields.

Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm, Linda Bradley, Marta Guarda, Sylvie Thouësny, 2015-12-02 The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Environmental and Human Safety of Major Surfactants Sylvia S. Talmage, 2020-04-08 The book summarizes and reviews the environmental and human safety of two classes of nonionic surfactants-alcohol ethoxylates (AE) and alkylphenol

ethoxylates (APE). This unique resource contains critical data from published sources as well as from unpublished studies submitted by Soap and Detergent Association member companies. It reviews information on product chemistry and analysis, biodegradation, environmental levels (including fate and distribution), aquatic toxicity, and human safety. Recently developed analytical techniques for the extraction, separation, detection, and measurement of nonionic surfactants and their metabolites in environmental samples are described. Results of biodegradation studies performed with a variety of test systems are tabulated, as are results of field studies at wastewater treatment plants. Reported comparisons of environmental levels with results of acute and chronic aquatic toxicity tests are provided. The information on the toxicity and irritation potential of AE and APE surfactants includes data from in vitro, mammalian, and human studies.

Discusses differential preparation, negative teacher attitudes, systemic forces, institutional impact, and strategies for achieving success.

Lifelong Technology-Enhanced Learning Viktoria Pammer-Schindler, Mar Pérez-Sanagustín, Hendrik Drachsler, Raymond Elferink, Maren Scheffel, 2018-08-24 This book constitutes the proceedings of the 13th European Conference on Technology Enhanced Learning, EC-TEL 2018, held in Leeds, UK, in September 2018. The 42 full and short papers, 7 demo papers, and 23 poster papers presented in this volume were carefully reviewed and selected from 142 submissions. This year, the European Conference on Technology-Enhanced Learning (EC-TEL) will engage researchers, practitioners, educational developers, entrepreneurs and policy makers in a joint discussion on how to put science, technology and practice at the service of learning to embrace these challenges on the topic: Lifelong technology enhanced learning: Dealing with the complexity of 21st century challenges. /div Chapter is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Human Hand Function Lynette A. Jones, Susan J. Lederman, 2006-04-20 Surveying normal hand function in health individuals, this book presents a conceptual framework for analysing what is known about it. It organises human-hand research on a continuum that ranges from activities that are sensory to those with a strong motor component. It is useful for researchers in neuroscience, cognitive science, and gerontology.

Medicinal Chemistry of Anticancer Drugs Carmen Avendaño, J. Carlos Menéndez, 2015-06-11 Medicinal Chemistry of Anticancer Drugs, Second Edition, provides an updated treatment from the point of view of medicinal chemistry and drug design, focusing on the mechanism of action of antitumor drugs from the molecular level, and on the relationship between chemical structure and chemical and biochemical reactivity of antitumor agents. Antitumor chemotherapy is a very active field of research, and a huge amount of information on the topic is generated every year. Cytotoxic chemotherapy is gradually being supplemented by a new generation of drugs that recognize specific targets on the surface or inside cancer

cells, and resistance to antitumor drugs continues to be investigated. While these therapies are in their infancy, they hold promise of more effective therapies with fewer side effects. Although many books are available that deal with clinical aspects of cancer chemotherapy, this book provides a sorely needed update from the point of view of medicinal chemistry and drug design. - Presents information in a clear and concise way using a large number of figures - Historical background provides insights on how the process of drug discovery in the anticancer field has evolved - Extensive references to primary literature

Reclaiming Marx's Capital Andrew Kliman,2007 Attempts to reclaim Marx's Capital from the myth of inconsistency. This book is intended for non-specialist readers, and shows that the inconsistencies are actually caused by misinterpretation; the temporal single-system interpretation eliminates all of the alleged inconsistencies.

The Science of Citizen Science Katrin Vohland,Anne Land-zandstra,Luigi Ceccaroni,Rob Lemmens,Josep Perelló,Marisa Ponti,Roeland Samson,Katherin Wagenknecht,2021 This open access book discusses how the involvement of citizens into scientific endeavors is expected to contribute to solve the big challenges of our time, such as climate change and the loss of biodiversity, growing inequalities within and between societies, and the sustainability turn. The field of citizen science has been growing in recent decades. Many different stakeholders from scientists to citizens and from policy makers to environmental organisations have been involved in its practice. In addition, many scientists also study citizen science as a research approach and as a way for science and society to interact and collaborate. This book provides a representation of the practices as well as scientific and societal outcomes in different disciplines. It reflects the contribution of citizen science to societal development, education, or innovation and provides an overview of the field of actors as well as on tools and

guidelines. It serves as an introduction for anyone who wants to get involved in and learn more about the science of citizen science.

An Individual Note Daphne Oram,2016 Daphne Oram (1925-2003) was one of the central figures in the development of British experimental electronic music. Having declined a place at the Royal College of Music to become a music balancer at the BBC, she went on to become the co-founder and first director of the BBC Radiophonic Workshop. In 1972, she authored her only book, 'An Individual

The Other Side of Empire Andrew W. Devereux,2020-06-15 Via rigorous study of the legal arguments Spain developed to justify its acts of war and conquest, *The Other Side of Empire* illuminates Spain's expansionary ventures in the Mediterranean in the late fifteenth and early sixteenth centuries. Andrew Devereux proposes and explores an important yet hitherto unstudied connection between the different rationales that Spanish jurists and theologians developed in the Mediterranean and in the Americas. Devereux describes the ways in which Spaniards conceived of these two theatres of imperial ambition as complementary parts of a whole. At precisely the moment that Spain was establishing its first colonies in the Caribbean, the Crown directed a series of Old World conquests that encompassed the Kingdom of Naples, Navarre, and a string of presidios along the coast of North Africa. Projected conquests in the eastern Mediterranean never took place, but the Crown seriously contemplated assaults on Egypt, Greece, Turkey, and Palestine. *The Other Side of Empire* elucidates the relationship between the legal doctrines on which Spain based its expansionary claims in the Old World and the New. *The Other Side of Empire* vastly expands our understanding of the ways in which Spaniards, at the dawn of the early modern era, thought about religious and ethnic difference, and how this informed political thought on just war and empire. While focusing on imperial projects in the Mediterranean, it simultaneously presents a novel contextual background for understanding the origins of European colonialism in the Americas.
