News Professor Cheng-Few Lee ranks #1 based on his publications in the 26 core finance journals, and #163 based on publications in the 7 leading finance journals (Source: *Most Prolific Authors in the Finance Literature: 1959–2008* by Jean L Heck and Philip L Cooley (Saint Joseph's University and Trinity University)). This is an extensively revised edition of a popular statistics textbook for business and economics students. The first edition has been adopted by universities and colleges worldwide, including New York University, Carnegie Mellon University and UCLA. Designed for upper-level undergraduates, MBA and other graduate students, this book closely integrates various statistical techniques with concepts from business, economics and finance and clearly demonstrates the power of statistical methods in the real world of business. While maintaining the essence of the first edition, the new edition places more emphasis on finance, economics and accounting concepts with updated sample data. Students will find this book very accessible with its straightforward language, ample cases, examples, illustrations and real-life applications. The book is also useful for financial analysts and portfolio managers.

Business Voyages is not a business fairy tale. Much of it really happened. Don't read this book if you are looking for simple answers and magic formulas. Although the book includes some concepts and techniques anyone should know about people and business, it does not promise success. Business Voyages is problem-oriented, presenting some of the problems encountered by the author and others on their business voyages, while explaining tools and processes anyone can use for analyzing and dealing with inevitable problems that will be encountered in any business world. Business Voyages is also opportunity-oriented, showing the reader how one might embark on a business venture at the right time and place and enjoy the winnings of a successful voyage.

Staffing is today's Talent Agenda! A culture in which staff can work without encumbrances and to attract and retain top talent is the one that works. Policies and programs, vision and values, strategies and goals, risks and reward, demand and supply, pain and gain, love and hate, all have to singularly focus on managing talent. Enterprises have lost their ability to command and control talent. It's all about Supply versus demand! Today talent rules! In a good way! The book deals with the concept of Business of Staffing, keeping Talent Agenda as its core purpose.

Based on an empirical research spread over 10 years the analysis brings to bear the changed nature of talent management as they impact corporate organizations and goes beyond competencies, testing or talent issues. With a focus on building sustainable talent stars the book covers a wide variety of case examples, expert opinions, consulting experience, leading practices in corporate organizations and global examples of trends and innovations.

"The chapters in this book attempt to state the main facts about tests, test methods, and test accomplishments, in the field of business. The aim throughout is to present a simple and impartial picture which will enable the reader to arrive at sound conclusions regarding the actual usefulness of tests in the business world, and the possibilities of future development. It is hoped that the

material included will prove useful to anyone interested in the problem of more adequately adjusting men to jobs. The book is written for students of personnel practice and of applied psychology, and for all business executives who have been hearing the clamor about tests and who want to form a critical opinion on the basis of facts. At present it is important to emphasize the limitations and shortcomings of tests as to speak in glowing terms of their possibilities. Tests are scientific instruments. Test work should be supervised by someone with thorough training in applied psychology"--Preface. (PsycINFO Database Record (c) 2010 APA, all rights reserved).
