

Business English The Writing Skills You Need For Today's

Language in its different forms and means is, essentially, used to communicate a message and to achieve an end; the written form is one of the means used to achieve such an end of conveying messages. Business, by its nature as we know, is competitive and is becoming more competitive globally, which means that such competition exists between companies worldwide and amongst employees of the company itself as they try to better themselves in their careers. It follows that performance objectives take priority over other objectives within the company. For example, a German company in Korea has a long-term objective of establishing good long-term trading relations with the Koreans, thus their representative's use of English is geared to that end. Similarly, a French company's manager in India needs the language to communicate with his Indian workers. In speaking and writing we judge the success of the person inasmuch as he or she succeeds in expressing his or her ideas precisely enough and appropriately sufficiently for the target situation. A user of the language, particularly, a writer is usually judged on the basis of his or her grammatical accuracy and the range and appropriateness of the vocabulary used. This Skills in Business Writing Workbook is not intended for teaching the long process of what to learn or how to learn a language but is specifically targeted to helping business people who use writing in communicating their business needs to their employees, but more importantly, to outsiders. The Workbook is designed to help you improve the writing you do on the job. By working on your own or with a facilitator who can guide you through the Workbook, you will explore means that are prepared to help you improve your writing by exploring how to accomplish different purposes when you write. For example, if your purpose in writing a particular memo is to order a piece of machinery, state a problem and suggest a solution to the problem or inform someone of his or her promotion you will learn an effective way to accomplish that purpose. You will also learn how to explain processes and how to make and support generalizations. These are only examples. You will learn to accomplish many different purposes through your writing. Corporates may consider that this Business English Writing Skills Workbook can be administered in a 2-week workshop which would be designed to cover the various objectives in order to help the user improve and have hands-on experience in the writing for the various objectives he or she may write about or may have to write about on the job. A user will improve writing by studying how to accomplish different purposes when writing. For example, if the purpose in writing a particular memo is to state a problem and suggest a solution to the problem, a user will learn an effective way to accomplish that purpose. A user will also learn how to explain processes and how to make and support generalizations. These are only examples of what he or she will learn to accomplish many different purposes through writing. In the Workshop, a user will focus on formats for memos, e-mail, and internal letters. Participants will also learn how to organize their documents so that they are attractive to the reader. In addition, they will work with a set of grammar rules that can greatly reduce the number of errors in their writing. English for Specific Purpose to English Business is an integrated book for adult language learning. It is intended to make easier for adult learning to understand English Business very well. English for Specific Purpose to English Business supports the approach that the learners are able to learn writing, reading and speaking and vice versa. The reading skills are taught implicitly throughout each unit. For example, the predicting, identifying main ideas and details, skimming and scanning. Writing skills are taught implicitly through the readings: The readings serve as models of good writing. In the key vocabulary section, writing skills are taught explicitly through analysis, explanation, and guided practice. Reading and writing skills—including strategies for improving vocabulary, comprehension, and grammar—are cultivated in every section in every unit. Also, vocabulary practice is taught both directly and indirectly. Specific vocabulary exercises focus on meaning, usage and word forms. In many of the other exercises (grammar, style, speaking/writing topics, research) the vocabulary reappears but is not the focus of the exercise. We hope this book will stimulate the students' thinking, which

in turn stimulates their language learning, and that they will have many opportunities to reflect on the viewpoints of journalists, commentators, researcher or other students and people in the community. Further, we hope this book guides the students to develop their own points of view on the many and varied themes encompassed by this book also.
