Fresh from the Farm 6pk Rigby,2006

The Flight of A Nightingale Vijayalakshmi Banerjee,2021-01-01 King Solomon's Mines' was published in 1885. It is a popular novel by the Victorian adventure writer and fabulist Sir H. Rider Haggard. It is about a search of an unexplored region of Africa by a group of adventurers led by Allan Quatermain for the missing brother of one of the party. It is the first English adventure novel set in Africa, and is considered to be the genesis of the Lost World literary genre.

An Unlikely Chemistry Subrahmanyam Krishnaswamy,2018 Well, you keep trying and eventually figure ways of making it work. An Unlikely Chemistry is the story of a couple-a scientist and a filmmaker-who battle personal issues and external challenges, and go on to build a life on their own terms. The scientist, Mohana, stands up to a crippled system, determined to discover an Ayurvedic drug for cancer. On the threshold of global recognition, she is compelled to abandon her research due

to the biases of a system plagued by caste-based reservations. The filmmaker, Krishnaswamy, provoked by a distorted American documentary on India, vows to make an authentic film on Indian history, heritage and culture. A vow he fulfils with the release of his four-hour film, Indus Valley to Indira Gandhi, distributed by Warner Bros. Krishnaswamy and Mohana then join hands to weave an illustrious tapestry of over two hundred non-fiction films and a dozen television serials. However, their path is littered with politics, controversies, legal battles and societal prejudices, but their belief in righteousness and spirituality helps them overcome these hurdles. An Unlikely Chemistry is the remarkable autobiography of a couple-their love and their journey of nearly five decades. Within these pages, there's also the veritable magic and nostalgia of a bygone era.

Yvain Chretien de Troyes,1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Kumba Africa Sampson Ejike Odum,2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there

farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

Netaji Subhash Chandra Bose Santanu Banerjee,2018-02-10 The book tells the reader how after Second World War, Netaji Subhas Chandra Bose, the tallest Indian freedom fighter, slowly petered out in captivity in former Soviet Union, while Kremlin, taking full military advantage of Bose's presence in their land created fear in American and British political and military strategists and among the post-Independence Indian politicians. The research has also been an outcome of British and Indian Government documents and long interviews with senior Indian political leaders. The book is extremely sensitive as the stakeholders are not only big global powers, but the unresolved issue involves the Indian Government which puts a lid on the mystery by sticking to the fake air crash story in 1945 in Taiwan. It is bound to stir up a lot of heat with scholars - especially among, the British, Indian and American, besides exposing the role of the Russians, Indian Communists and the Nehru family that still heads the Congress now. What began as a journey into the unknown, has culminated into this book, an attempt which has taken 32 long years for the author. The research also reveals Bose's socio-political ideology about which he spoke during his Tokyo University speech on the Indian Civilization and how India would have 'socialism with a human face.' It also happens to be an issue so far neglected by scholars and historians.

The Roots of American Communism , In his special, prescient way, Theodore Draper himself had the final words on American Communism: It is like a museum of radical politics. In its various stages, it has virtually been all things to all men ... There are many ways of trying to understand such a movement, but the first task is historical. In some respects, there is no other way to understand it, or at least to avoid seriously misunderstanding it. Every other approach tends to be static, one-sided or unbalanced. Draper correctly notes that the formative period of the American Communist movement has remained a largely untold and even unknown story. In part, the reasons for this are that the Communist movement, although a child of the West, grew to power in the Soviet East. But Draper rescues this chapter with deep appreciation for the fact that communism was not something that happened just in Russia, but also in the United States. This is a must read for scholars and laypersons alike.--BOOK JACKET.

Neurosurgical Operative Atlas Philip A. Starr, Nicholas M. Barbaro, Paul S. Larson (MD.), 2009 Part of the second edition of the classic Neurosurgical Operative Atlas series, Functional Neurosurgery provides step-by-step guidance on the innovative and established techniques for managing epilepsy, pain, and movement disorders. This atlas covers the current surgical procedures, providing concise descriptions of indications and surgical approaches, as well as recommendations for how to avoid and manage postoperative complications. The authors describe the underlying physiological principles and state-of-the-art recording techniques that are used for brain localization. This edition addresses topics that are rarely covered in other texts, including motor cortex stimulation for neuropathic pain, novel technical approaches for insertion of deep brain stimulator electrodes, and radiosurgery for movement disorders. Highlights: New chapters on the evolving indications for deep brain stimulation, frameless neuronavigation techniques, and interventional MRI-guided treatments More than 650 high-quality images demonstrating anatomy and surgical steps Consistent format in all chapters to enhance ease of use Ideal for neurosurgeons and residents, this operative atlas is a practical surgical guide that will serve as both a reference and a refresher prior to performing a specific procedure. Series description The American Association of Neurological Surgeons and Thieme have collaborated to produce the second edition of the acclaimed Neurosurgical Operative Atlas series. Edited by leading experts in the field, the series covers the entire spectrum of neurosurgery in five volumes. In addition to Functional Neurosurgery, the series also features: Neuro-Oncology, edited by Behnam Badie Spine and Peripheral Nerves, edited by Christopher Wolfla and Daniel K. Resnick Pediatric Neurosurgery, edited by James Tait Goodrich Vascular Neurosurgery, edited by R. Loch Macdonald
