This is the 17th UCC Edition (and the twenty-second overall edition) of a business law text that first appeared in 1935. Throughout its 80 years of existence, this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976, this textbook was the first to inject regulatory materials into a business law textbook, defining the "legal environment" approach to business law. Over the years, this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues, and e-commerce law. The 17th Edition continues to emphasize change by integrating these four areas into its pedagogy. Corporations have a social responsibility to assist in the overall well-being of their communities through the compliance of moral business standards and practices. However, many societies still face serious issues related to unethical business practices. Business Ethics and Diversity in the Modern Workplace investigates the ethical frameworks within modern corporations and their impact on the communities they serve. With a focus on autonomous decision making in complex quandaries, this book is an all-inclusive reference source for students, researchers, practitioners, and managers who are concerned with the various ethical dilemmas within businesses, as well as evaluating moral issues impacting societal welfare.

The Student Study Guide contains additional test questions for students so they can review and study the main concepts for each chapter. It also contains the UCC code.

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law.

Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second.

They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.
