This book provides guidance on recruiting, interviewing, and onboarding practices that will allow employers to successfully hire neurodivergent professionals into inclusive, competitive employment. Today, 35% of 18-year-olds with an autism spectrum diagnosis attend college, yet they have a 75–85% under-employment and unemployment rate after graduation. While organizations are looking to expand their diversity and inclusion hiring efforts to include neurodivergent professionals, current recruiting and interviewing practices in general are not well-suited to this. With over one-third of the US population identifying as neurodivergent, employers need to address how to attract this talent pool to take advantage of a meaningful segment of the workforce. Readers of this book will gain an understanding of how to guide their organizations through the creation of recruiting, interviewing, and onboarding processes tailored to neurodivergent professionals in any field. Written by authors with extensive experience working in the corporate world and consulting with Fortune 1000 companies on autism hiring efforts, this book is targeted at employers, acknowledging their perspective. Structured as a reference guide for busy recruiters, hiring managers, and supervisors, this book can be read in its entirety, in relevant sections as needed, or used as a refresher whenever necessary. This book also provides a background on the thinking styles of autistic individuals, giving the reader a deeper understanding of how to best support neurodivergent jobseekers.

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well -- to help students learn how to frame and reframe a question/issue.
