**Handbook of Corporate University Development** Dr Scott Taylor, Professor Geoff Peters, Professor John Storey, Professor Rob Paton, 2012-09-01 The emphasis on corporate universities has been a driving force in moving companies beyond a restricted approach to training, to a central vision for learning within the organization. However, there have been failures and many corporate universities have struggled to bring a business rigour to learning or to align their development with the key business and financial drivers of the organization. It is time for the Corporate University to demonstrate how business rigour, handled deftly and with strong and perceptive leadership, can revolutionize learning both inside and outside the organization. The Handbook of Corporate University Development is an important catalyst towards this process. It draws on experience from around the world, to provide anyone responsible for strategy and learning at senior levels in government, education and business with a picture of current best practice.

**Exit Rich** Michelle Seiler Tucker, Sharon Lechter, 2021-06-22 Too many entrepreneurs push off planning for the sale of their business until the last moment. But for a business to sell for what it's really worth—or even more—owners need to

prepare for the sale from the very start. In *Exit Rich*, author and mergers and acquisitions authority Michelle Seiler Tucker joins forces with Sharon Lechter, finance expert and author of *Rich Dad Poor Dad*, to create a must-have guide for all business owners—whether they’re gearing up to sell a business now or just getting started building out their company into something to sell for a profit in the future. Seiler Tucker’s twofold approach to selling your business for maximum profit combines two of the most powerful elements of her mergers and acquisitions toolkit: the “ST GPS Exit Model” to help business owners set goals for the sale before their business hit the market, and the “6 P Method” to help them objectively evaluate their business’s worth, before their potential buyers do. Combined, these tools provide invaluable insight into the process of preparing a business for sale, finding the right buyers, and staging the sale itself. Throughout the book, Sharon Lechter’s wisdom peppers each chapter in the “Mentoring Corner” section, providing forward-thinking entrepreneurs with the perspective that they need to take control of their business’s future and exit rich. This book is a rich resource for any business owner looking to:

- Objectively evaluate their business before a sale
- Improve their chances of finding the right buyer
- Sell their business for maximum profit

**Blue Ocean Leadership (Harvard Business Review Classics)** W. Chan Kim, Renée A. Mauborgne, 2017-05-30 Ten years ago, world-renowned professors W. Chan Kim and Renee Mauborgne broke ground by introducing blue ocean strategy, a new model for discovering uncontested markets that are ripe for growth. In this bound version of their bestselling Harvard Business Review classic article, they apply their concepts and tools to what is perhaps the greatest challenge of leadership: closing the gulf between the potential and the realized talent and energy of employees. Research indicates that this gulf is vast: According to Gallup, 70% of workers are disengaged from their jobs. If companies could find a way to convert them into

engaged employees, the results could be transformative. The trouble is, managers lack a clear understanding of what changes they could make to bring out the best in everyone. In this article, Kim and Mauborgne offer a solution to that problem: a systematic approach to uncovering, at each level of the organization, which leadership acts and activities will inspire employees to give their all, and a process for getting managers throughout the company to start doing them. Blue ocean leadership works because the managers' customers--that is, the people managers oversee and report to--are involved in identifying what's effective and what isn't. Moreover, the approach doesn't require leaders to alter who they are, just to undertake a different set of tasks. And that kind of change is much easier to implement and track than changes to values and mind-sets. The Harvard Business Review Classics series offers you the opportunity to make seminal Harvard Business Review articles a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world--and will have a direct impact on you today and for years to come.

**Ace the GMAT** Brandon Royal,2016-01-01 ACE THE GMAT is based on a simple but powerful observation: Test-takers who score high on the GMAT exam do so primarily by understanding how to solve a finite number of the most important, recurring problems that appear on the GMAT. What are these important, recurring problems? The answer to this question is the basis of this book. This manual provides in-depth analysis of over 200 all-star problems that are key to mastering the seven major GMAT problem types including Problem Solving, Data Sufficiency, Sentence Correction, Critical Reasoning,

Reading Comprehension, Analytical Writing, and Integrated Reasoning. Apart from providing readers with answers and full explanations, a special feature of this book is that each problem is categorized by type ("classification"), rated by difficulty level ("chili rating"), and supplemented with a problem-solving strategy ("snapshot"). "Chance favors the prepared mind." Whether you're a candidate already enrolled in a test-prep course or are undertaking self-study, this guidebook will serve as a rigorous skill-building study guide to help you conquer the math, verbal, analytical writing, and integrated reasoning sections of the exam. Studying for the math and verbal sections of the GMAT exam requires some 100 hours of study time. This book's content is conveniently divided into topics, which require two to three hours of study time per day. Total study time will vary between 80 to 120 hours for the entire 40 days.
