**Essential Business Vocabulary** The Millionaire's Playbook,2021-03-23 Studies have shown that 90% of all online businesses fail within the first four months of starting. This is a pretty disheartening statistic, right? If you want to do everything in your power to be among the 10% who succeed, keep reading... THIS IS NOT A DICTIONARY. If that's what you're looking for, I urge you to save your money and not buy this book. Now...congratulations. With the click of a finger, you've implanted a thought into your subconscious mind that you won't ever let yourself be part of the majority that fail, part of those stuck in the hamster wheel. You've let yourself know that you're determined to execute your business plans. You've probably heard the saying 'knowledge is power'. Right? Wrong! Applied knowledge is power. Knowledge is only as powerful as the holder, just as a blade is only as dangerous as the one who wields it. Many aspiring entrepreneurs end up spending money on 'educating themselves' buying books, high ticket online courses, and going to seminars but never actually apply what they learn. Some don't even educate themselves at all. This is a disaster waiting to happen. Success will not come. Just like most entrepreneurs, I didn't go to university to study business. During my early years forming my start-up businesses, I

struggled immensely with fully understanding business lingo and key terminology. There's nothing more embarrassing than not knowing key business terminology, not being able to express yourself professionally in business meetings or negotiations, not knowing the correct language to use at crucial turning points and still thinking you're a 'business owner'. I sought understanding and the appropriate knowledge needed to become a professional. I took business very seriously; if I wanted to be successful, I would need all the advantages I could get. I wanted to fix my intellectual blind spots, as I knew this was an advantage my competitors had over me. As an entrepreneur, we are problem solvers, right? So, I slowly built a mind map of all the business phrases that kept creeping up in conversations, meetings, podcasts and online courses. Business Vocabulary will enable you to... Fully understand business lingo and idioms Gain a new perspective on business and how it works through contextual explanations of each term Transform how you converse in business meetings and with professionals, making you more professional Seamlessly apply your newly acquired knowledge into your everyday business Take full advantage of my tips/benefits for the relevant buzzword, as well as the 'BOSSNOTE' which gives honest advice based on key business principles you should follow ( I express why most businesses fail while others succeed, coming from 7 years of experience in the business world) Understand the meaning of commonly misunderstood business terms in digestible language EDUCATION IS KEY - Every Successful Businessman and Woman. If you want to educate yourself and become part of the 10% who know exactly how to apply their knowledge...if you want to gain a deeper understanding of key business terminology... If you want to be able to fully express yourself professionally in the business world, scroll up and click 'Add To Cart'.
