Give to Get Jonathan Green,2020-12-06 Around 90% of small businesses fail every year.However, if you adopt this one simple mindset... you'll have a business built to thrive during the hardest times.; A business built to survive anything life throws at you. A business people love to support, and in turn, a profitable business that supports you. Most businesses operate, unintentionally, by treating their customers with apathy or garbage until they start spending money. Tell me, would you be more interested in someone who charges you \$1,000 from the get go to learn their secrets to make your first thousand dollars... Or would you be more interested in the person who first GIVES you their secrets to your first thousand dollars... free of charge? When someone starts a relationship with you by giving, you're automatically going to be more receptive, more open to what they have to say, more likely to give them something in return. This one simple mindset is called Extreme Giving. It's the backbone of my business, and the reason we have thrived through severe adversity. My Extreme Giving business is prepared for the unexpected.; It has multiple streams of income so if something happens, I can still feed my family. It can adapt when threatened. After over a decade of experience, I've finally stumbled upon the 'holy grail' of business strategy. And I want to give it to you. By the end of this book you'll discover: *The Power Of The Triangle Foundation: Using these three 'phases' you'll be able to attract strangers to your business, develop a meaningful relationship with them and*

make 'getting the sale' easy. Why The More You Give The More You Get: Most people are afraid to give things away because they believe it diminishes value, but it couldn't be farther from the truth. Let me prove to you that giving first can actually be MORE profitable. How To Find The Diamonds In The Rough: There are people out there who would love to be your customers, but do you know how to find them? Let me show you. The One 'Magical' Likeability Factor: Want to know how you can get complete strangers to be instantly warmed up to you? This one thing will do the trick. You're Far From Alone: While most other business strategies thrive on competition, this strategy thrives on collaboration. Learn how to turn your competitors into lifelong allies and help everyone get to the top! This is not a difficult concept. Give, to get. If you don't grab the book and you walk away building with just that notion, you can do great things. However, if you want to fully understand the intricacies of this model and how to best leverage it to your advantage and build a bulletproof business that's right for you, this is the book to read. Business Planning Therese H. Maynard,Dana M. Warren,Shannon Trevino,2018-02-28 Business Planning: Financing the Start-Up Business and Venture Capital Financing, Third Edition uses a simulated deal format that is drawn from the “deal-files” of real world practicing lawyers. It integrates the teaching of transactional lawyering skills with the presentation of new substantive law that is critical to the success of a junior corporate lawyer practicing in a transactional setting. The book gives students an overview of the range of substantive law that lawyers representing new businesses need to be versed in. To bridge the gap between law school and practice, the authors integrate excerpts from sources authored by experienced practitioners, thus bringing practical and real-world insights to students. Shannon Treviño joins as co-author on the new edition. Key Features: Integrated teaching of transactional lawyering skills with the presentation of substantive law that is critical to the success of a junior corporate lawyer practicing in a transactional setting. Analysis of both the legal issues and the business considerations that must be taken in to account in planning the structure and negotiating the terms of a capital raising transaction for an early stage company. A simulated deal format to provide a real-world appreciation of the “life cycle of a deal,” with a new simulated client whose business is focused on addressing a need in the autonomous vehicle industry, which presents a timely topic for faculty to engage with students on at every juncture of the course. Graded memo assignments that are representative of the work assignments expected of a junior corporate lawyer practicing in a transactional setting and that relate directly to the substantive material that is part of the casebook reading assignments. A thoroughly revised Chapter 4 regarding federal securities laws, incorporating numerous legislative changes that have been adopted or have become effective since the publication of the second edition. Significant additions to Chapter 8, including an updated overview of venture capital and a broader discussion of the capital formation process prior to venture capital financing.

The Next Step Luni Libes,2016-09-02 Nine out of every ten startups will fail. Want to avoid their mistakes and become part of the 10% that succeed? THE NEXT STEP is the first series to take entrepreneurs step-by-step through the process

from raw idea to operational startup. Each step includes a set of key questions designed to help you build a business plan and pitches for potential investors and customers. Book 6: A Guide to Dividing Equity covers the process of splitting equity with your co-founders and initial team members. This book is for anyone getting ready to launch a business with a team of two or more people. Every startup with more than one founder needs to have the difficult conversation of how to split up the initial pie of equity. Equal is almost always the wrong answer. Every other answer is harder to agree upon. This book explains a long set of factors that will help make this decision easier to bear for all participants. And it will explain how to protect all parties in case anyone leaves early, which happens far too often too. Whether you're a seasoned professional looking to make a change, a new college graduate with a big idea, or a small business owner in need of more structure, this must-read series from serial entrepreneur Luni Libes will help make your idea a profitable reality.

The Next Step for Investors Luni Libes, 2017-09 It seems crazy and presumptuous to say that the multi-hundred billion dollar startup investing industry does business all wrong, but it is nonetheless true. Not that the idea of investing in startups is crazy, as history has clearly shown there is value in that effort for both entrepreneurs and investors. Rather, it is crazy in the manner of the emperor parading around town wearing an invisible suit, with his nobles and all the press touting how wonderful and splendid his clothing. If you are an Angel investor or operating a small venture capital fund, you are likely blindly following the models set by the emperors. Meanwhile, you don't notice that it is you and not them who are naked. **THE NEXT STEP for INVESTORS: Revenue-based investing** explains an alternative style of investing, one that doesn't need the exceedingly rare 10x return to make money for investors, introducing a set of structures for investing in revenues rather than exits. Structures that span debt, equity, and forms in-between. Structures that benefit both entrepreneurs and investors alike. Structures that don't follow the historic norms, but which work for entrepreneurs and investors alike.
