Learn to tie a bowtie, fight cancer (consume green tea and tomatoes, but not necessarily at the same time), and organize a poker game. Determine how exactly to become a sex object, how to talk lingerie, and how to make love like a pro. There is material on baking brownies, cooking geese, and even hunting down your own venison. The book is an inspirational journey with verses taken from the Bible and a simpler meaning or application of the passage affirmations to attain the recommendations of the Bible verse.

There are more than 4000 miles of navigable waterways in Great Britain, with more in Ireland and Europe. Peaceful canals, bustling rivers, glorious lakes - there is something for everyone. This book will tell the reader all they need to know about how to get afloat - which boat to choose, whether to hire or buy, how much it will cost, and where they can go. Boat handling and manoeuvring are covered in detail, along with maintenance and repair. And there is a section on trailer boating for those who want to keep their boat at home, advice on living aboard for long periods, night-time navigation and training. This is the only book novices will need to take their first steps afloat, and it is the one they will keep by them throughout their boating years. 'This is the book to read from cover to cover' *Cruising* 'The perfect introductory guide to those new to the waterways' *Maritime Journal* ON 8 MARCH 2014, MALAYSIA AIRLINES FLIGHT 370 TOOK OFF FROM KUALA LUMPUR INTERNATIONAL AIRPORT BOUND FOR BEIJING. LESS THAN AN HOUR AFTER TAKEOFF, SOMEWHERE OVER THE SOUTH CHINA SEA, THE PLANE SIMPLY VANISHED. ONE EYEWITNESS SAW A BURNING PLANE CRASH INTO THE SEA. But confusing radar signals tracked an aircraft taking an erratic course across the Malaysian peninsula, then on to the Andaman Sea. Did it crash there? Or did it fly on to land safely in disputed lands of Central Asia, or the top-secret CIA 'black site' on Diego Garcia? Data from the Rolls-Royce engines tracked by Inmarsat was said to indicate that it might have ditched in the furthest reaches of the South Indian Ocean. We know more about the surface of the moon than the bottom of the sea there. And the weather and currents are so bad, it may never be found. Convenient? Two years later, the Australians are still searching - at the cost of billions - and have found nothing. But was the search in such a remote place part of a cover-up to distract the world's attention because the US Navy had, in fact, shot the plane down? A huge plane, along with 227 passengers and 12 crew, cannot simply have vanished. The Worldwide Web is a-buzz with conspiracy theories. Was the disappearance of MH370 related to the downing of MH17 over the Ukraine four months later? Some have suggested that it was the same plane... Or is the loss of MH370 more akin to the crash of Germanwings Flight 9525, after deranged pilot Andreas Lubitz deliberately flew the plane into the side of a mountain in the Alps, killing all on board... Since the invention of radio, radar, satellite navigation and the internet, the world has become a smaller place. The answer must be out there. Or, perhaps, hidden within the pages of the secret files...

'A witty, sometimes heart-stopping, and always engrossing path from "boy pilot" to elite aviator.' – Jaundiced Eye columnist, William Saunderson-Meyer Robert Schapiro always wanted to fly. Challenging anti-Semitic bullying, mockery and fierce rivalry, he realised his dream by earning his wings in the South African Air Force and going on to command C-47 Dakotas in the Border War. He joined South African Airways (SAA) in 1979, soon learning it was a time when SAA crews were dominated by the 'Royal Family' – captains who thought themselves above the rules and who spent time overseas on drinking binges or coaxing air hostesses to be their 'airline wives'. When sanctions forced SAA to cut back on its routes, he was seconded to Japan's Nippon Cargo Airlines, routinely flying between New York and Tokyo and grappling with often-hilarious cultural misunderstandings as he adapted to a Japanese style of operations. Schapiro is disarmingly frank about life as an international pilot. He divulges near misses, emergency landings, navigation errors, passenger shenanigans (seat sex, anyone?), how pilots control rowdy travellers and absorbing detail about the technique of flying different aircraft types. Uplifting and humorous, his memoir offers a rare slice of aviation history.
