John Muir was born in Scotland on April 21st, 1838. His Father wanted his children to have a stricter Religious upbringing and therefore moved the family to the United States. John Muir is perhaps known today as the most pre-eminent naturalist and advocate for the preservation of much of the western United States. Today being an environmentalist is laudable but in Muir's days the country was there to be exploited but by hard work and lobbying Muir did much to turn such beautiful areas as Yosemite into protected National Parks. His writing is not only an invaluable guidebook to these unspoilt places but also a hymn to their spirituality. As a keen scientific mind he helped to push the understanding of nature forward by observing and writing upon the glaciers and their actions in eroding and shaping much of the land. Muir helped to also create The Sierra Club, which he led for many years, on projects to preserve these and other areas of outstanding natural beauty. He was equally adept at persuading politicians, from Presidents to local State officials, and the common man to come together in the defence of Nature.

Analyzes California's roller coaster ride over the past decades--going from being a model for its high level of government and public services to more lately becoming an anti-model for its dysfunctional government, deteriorating services, and sometimes regressive public policies--and the importance of forging its diverse population into a successful democracy, tackling key issues such as immigration, globalization, and politics. Jewel used to be content with being a ride or die chick, playing Bonnie while the men in her life played Clyde. But now she realizes that it was her connections and street smarts that helped her man, Calico, rise to the top, and Jewel wants to be the one in control. She's tired of taking orders from men. She's willing to do anything to be queen of the streets, but when a deal she makes with the enemy comes back to haunt her, her dream is turned into a nightmare. Hopeless and struggling to keep her head above water, Jewel meets Misty, who seems to be her savior. They quickly form a bond, but when that bond is broken and the mist turns to rain, Jewel finds herself in the middle of a storm that she might not make it out of.

New York Times Bestseller: An "elegant" mosaic of trenchant observations on the late sixties and seventies from the author of *Slouching Towards Bethlehem* (The New Yorker). In this landmark essay collection, Joan Didion brilliantly interweaves her own "bad dreams" with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the "giddily splendid" Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus's footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—"toy garden cities in which no one lives but everyone consumes"—and exposes the contradictions and compromises of the women's movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in "a voice like no other in contemporary journalism," *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award-winning author of *The Year of Magical Thinking* (The New York Times Book Review). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

The Art of Connection narrates the individual stories of artisans and traders of Kenyan arts and crafts as they overcome the loss of physical access to roadside market space by turning to new digital technologies to make their businesses more mobile and integrated into the global economy. Bringing together the studies of globalization, development, art, and communication, the book illuminates the lived experiences of informal economies and shows how traders and small enterprises balance new risks with the mobility afforded by digital technologies. An array of ethnic and generational politics have led to market burnings and witchcraft accusations as Kenya's crafts industry struggles to adapt to its new connection to the global economy. To mediate the resulting crisis of trust, the Fair Trade sticker and other NGO aesthetics continue to successfully represent a transparent, ethical, and trusting relationship between buyer and producer. Dillon Mahoney shows that by balancing revelation and obfuscation—what is revealed and what is not—Kenyan art traders make their own roles as intermediaries and the exploitative realities of the global economy invisible.

Eleven-year-old Delphine has it together. Even though her mother, Cecile, abandoned her and her younger sisters, Vonetta and Fern, seven years ago. Even though her father and Big Ma will send them from Brooklyn to Oakland, California, to stay with Cecile for the summer. And even though Delphine will have to take care of her sisters, as usual, and learn the truth about the missing pieces of the past. When the girls arrive in Oakland in the summer of 1968, Cecile wants nothing to do with them. She makes them eat Chinese takeout dinners, forbids them to enter her kitchen, and never explains the strange visitors with Afros and black berets who knock on her door. Rather than spend time with them, Cecile sends Delphine, Vonetta, and Fern to a summer camp sponsored by a revolutionary group, the Black Panthers, where the girls get a radical new education. Set during one of the most tumultuous years in recent American history, one crazy summer is the heartbreaking, funny tale of three girls in search of the mother who abandoned them—an unforgettable story told by a distinguished author of books for children and teens, Rita Williams-Garcia.

Memoir of a heart-wrenching life of a little girl who made it through, though adult life got worse, even through six abusive marriages and lots of illnesses.

From the number-one bestselling author of *The Nightingale* and *The Great Alone* comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. "My land tells its story if you listen. The story of our family." Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman's only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa's tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa—like so many of her neighbors—must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. *The Four Winds* is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it—the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, *The Four Winds* is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation.

Eleven-year-old Isabella's blended family is more divided than ever in this "timely but genuine" (*Publishers Weekly*) story about divorce and racial identity from the award-winning and *New York Times* bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood. The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And now that her parents are divorced, it seems their fights are even worse, and they're always about HER. Isabella feels completely stuck in the middle, split and divided between them more than ever. And she is beginning to realize that being split between Mom and Dad involves more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half black? To belong to half mom and half dad? And if you're only seen as half of this and half of that, how can you ever feel whole? It seems like nothing can bring Isabella's family together again—until the worst thing happens. Isabella and Darren are stopped by the police. A cell phone is mistaken for a gun. And shots are fired.

A wide-ranging exploration of the diverse historical connections between Chile and California This groundbreaking history explores the many unrecognized, enduring linkages between the state of California and the country of Chile. The book begins in 1786, when a French expedition brought the potato from Chile to California, and it concludes with Chilean president Michelle Bachelet's diplomatic visit to the Golden State in 2008. During the intervening centuries, new crops, foods, fertilizers, mining technologies, laborers, and ideas from Chile radically altered California's development. In turn, Californian systems of servitude, exotic species, educational programs, and capitalist development strategies dramatically shaped Chilean history. Edward Dallam Melillo develops a new set of historical perspectives--tracing eastward-moving trends in U.S. history, uncovering South American influences on North America's development, and reframing the Western Hemisphere from a Pacific vantage point. His innovative approach yields transnational insights and recovers long-forgotten connections between the peoples and ecosystems of Chile and California.

The Pulitzer Prize-winning epic of the Great Depression, a book that galvanized—and sometimes outraged—millions of readers. First published in 1939, Steinbeck's Pulitzer Prize-winning epic of the Great Depression chronicles the Dust Bowl migration of the 1930s and tells the story of one Oklahoma farm family, the Joads—driven from their homestead and forced to travel west to the promised land of California. Out of their trials and their repeated collisions against the hard realities of an America divided into Haves and Have-Nots evolves a drama that is intensely human yet majestic in its scale and moral vision, elemental yet plainspoken, tragic but ultimately stirring in its human dignity. A portrait of the conflict between the powerful and the powerless, of one man's fierce reaction to injustice, and of one woman's stoical strength, the novel captures the horrors of the Great Depression and probes into the very nature of equality and justice in America. At once a naturalistic epic, captivity narrative, road novel, and transcendental gospel, Steinbeck's powerful landmark novel is perhaps the most American of American Classics. This Centennial edition, specially designed to commemorate one hundred years of Steinbeck, features french flaps and deckle-edged pages. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. NEW YORK TIMES BESTSELLER • From the bestselling author of Before We Were Yours comes a dramatic historical novel of three young women searching for family amid the destruction of the post-Civil War South, and of a modern-day teacher who learns of their story and its vital connection to her students' lives. “An absorbing historical . . . enthralling.”—Library Journal Bestselling author Lisa Wingate brings to life startling stories from actual “Lost Friends” advertisements that appeared in Southern newspapers after the Civil War, as newly freed slaves desperately searched for loved ones who had been sold away. Louisiana, 1875: In the tumultuous era of Reconstruction, three young women set off as unwilling companions on a perilous quest: Hannie, a freed slave; Lavinia, the pampered heir to a now destitute plantation; and Juneau Jane, Lavinia's Creole half sister. Each carries private wounds and powerful secrets as they head for Texas, following roads rife with vigilantes and soldiers still fighting a war lost a decade before. For Lavinia and Juneau Jane, the journey is one of stolen inheritance and financial desperation, but for Hannie, torn from her mother and siblings before slavery's end, the pilgrimage west reignites an agonizing question: Could her long-lost family still be out there? Beyond the swamps lie the limitless frontiers of Texas and, improbably, hope. Louisiana, 1987: For first-year teacher Benedetta Silva, a subsidized job at a poor rural school seems like the ticket to canceling her hefty student debt—until she lands in a tiny, out-of-step Mississippi River town. Augustine, Louisiana, is suspicious of new ideas and new people, and Benny can scarcely comprehend the lives of her poverty-stricken students. But amid the gnarled live oaks and run-down plantation homes lie the century-old history of three young women, a long-ago journey, and a hidden book that could change everything.

"Flicker is a memoir in verse of a life well lived. Lynn Hansen rightly names the collection for her favorite bird, and for the flickers, or moments, of happenings caught in words, illustrating phases and interests of a lifetime. She carries us through childhood's joys of "forest humus, thick moss / and a bouquet of wild orchids" and woes, "the word move was profane because it frees the rat of anxiety that gnaws on the tight knot in my gut." She rejoices when she declares, "When I retire I'm going to write poetry." Then for a decade or more, that's precisely what she has done. Lynn was determined to be a scientist in a time it was regarded as impossible for women; her thirty-three-year career of teaching biological sciences at the college level has proven her right. Her keen naturalist's eye, her awareness and love of all life on this planet, and beyond, show in her poems. She even celebrates the lowly zucchini and rutabaga, though she does sigh toward the end of summer, "Zucchini manna again?" These observations are woven into the sum of time, the treasure of relationships, "just as our lives gathered out of jumble, then cemented with a matrix of mutual respect." Lynn's lone robin "lifts his bugle beak to call up morning," and so lifts us all." -Patricia Wellingham-Jones, Los Molinos, California "This collection by Lynn M. Hansen is an excellent read. While each poem is intensely personal, moving from childhood experiences to motherhood to traveling the world to growing older, Hansen generously takes us along on all her journeys, creating poems that welcome all comers. Her close observations of the natural world, of lands both distant and close to home, create a landscape at once scientifically clear and poetically imagined, and her poems about growing up and getting older and the joys and losses that come with those parts of our lives, will make readers laugh and cry, sometimes all at once. In reading this book, I grew to even more deeply appreciate our world, our Great Central Valley, and Lynn Hansen's poetry, and I suspect the same will be true for all who read this celebratory work." -Gillian Wegener, Poet Laureate of Modesto, California. "Lynn Hansen's gorgeous book of poems is a testament to a writer who loves life and fully embraces living every day. It's rare that a trained scientist will turn to poetry to reflect on the natural world and even rarer that those written poems would be this wonderfully lucid, evocative, and heartfelt. Filled with keen-eyed wonder and amusement, these poems will teach readers about life and how to live." -Sam Pierstorff, Editor, Quercus Review Press

"Motherload's core arguments are that security-seeking is the driving force of intensive mothering and that high expectation of security in the mother-child relationship--i.e. the motherload--is what makes mothering so difficult today. It further argues that the motherload, carried with every good intention to produce security through this one uniquely powerful relationship, can unintentionally undermine families' security. Strategies of producing security vary fundamentally along two dimensions. First, some strategies use mother-child connection as the primary security-producing tool whereas others use independence. Second, some strategies are intended to provide security to the child while others are aimed primarily at the mother's security. So, for example, one mother may use independence to create security for her child, and another may use connection to create security for herself. Motherload explores this variety of security strategies and argues against a one-size-fits-all understanding of intensive mothering. For each of these different strategies, I include a chapter to explore the various factors that predispose women toward mothering in that particular way, the family dynamics that security strategy

tends to foster, and the early 'outcomes' associated with that strategy, including how the mother-child relationship itself tends to fare when a woman uses that strategy as versus another"--Provided by publisher.

John Sutter, who left Switzerland to escape debtor's prison, came to California and built a giant land monopoly. Again, he became heavily in debt and died destitute. The entire Sacramento and San Joaquin valleys were inundated for 300 miles long and 20 miles wide by the flood of 1862. The cholera epidemic killed more than 1,000 citizens, including doctors and others who were caring for the patients. The Old City Cemetery is an exciting place. As docents are quick to remind, "People are dying to get in here." The docents know their job. It's almost as though they are trying to bring the city's cemeteries back to life. We love the epitaph on one headstone that simply reads: "See ya later."

Not since the early nineteenth century, when California was still part of Mexico, have there been such close ties between Mexico and its former northern territory. Today, one Californian in five is of Mexican heritage, compared with fewer than one in ten in 1970. California is Mexico's second-largest trading partner (after Texas) and Mexico is California's second-largest trading partner (after Japan). This book is the first in any language to explore the nature, scope, and effects of the California-Mexico connection. It analyses the movements of people, goods, money, politics, and culture across the California-Mexico border, and explores its implications for both parties.
