

California Dreaming Flute Solo

Winner of the Oregon Book Award for General Nonfiction and Los Angeles Times bestseller "It makes good music sound better."-Janet Maslin in The New York Times "A fascinating look into the West Coast recording studio scene of the '60s and the inside story of the music you heard on the radio. If you always assumed the musicians you listened to were the same people you saw onstage, you are in for a big surprise!"-Dusty Street, host of Classic Vinyl on Sirius XM Satellite Radio If you were a fan of popular music in the 1960s and early '70s, you were a fan of the Wrecking Crew-whether you knew it or not. On hit record after hit record by everyone from the Byrds, the Beach Boys, and the Monkees to the Grass Roots, the 5th Dimension, Sonny & Cher, and Simon & Garfunkel, this collection of West Coast studio musicians from diverse backgrounds established themselves in Los Angeles, California as the driving sound of pop music-sometimes over the objection of actual band members forced to make way for Wrecking Crew members. Industry insider Kent Hartman tells the dramatic, definitive story of the musicians who forged a reputation throughout the business as the secret weapons behind the top recording stars. Mining invaluable interviews, the author follows the careers of such session masters as drummer Hal Blaine and keyboardist Larry Knechtel, as well as trailblazing bassist Carol Kaye-the only female in the bunch-who went on to play in thousands of recording sessions in this rock history. Readers will discover the Wrecking Crew members who would forge careers in their own right, including Glen Campbell and Leon Russell, and learn of the relationship between the Crew and such legends as Phil Spector and Jimmy Webb. Hartman also takes us inside the studio for the legendary sessions that gave us Pet Sounds, Bridge Over Troubled Water, and the rock classic "Layla," which Wrecking Crew drummer Jim Gordon cowrote with Eric Clapton for Derek and the Dominos. And the author recounts priceless scenes such as Mike Nesmith of the Monkees facing off with studio head Don Kirshner, Grass Roots lead guitarist (and future star of The Office) Creed Bratton getting fired from the group, and Michel Rubini unseating Frank Sinatra's pianist for the session in which the iconic singer improvised the hit-making ending to "Strangers in the Night." The Wrecking Crew tells the collective, behind-the-scenes stories of the artists who dominated Top 40 radio during the most exciting time in American popular culture. (Instrumental Folio). Now the subject of the movie Love & Mercy, starring John Cusack! Brian, Carl, and Dennis Wilson, along with Mike Love and Al Jardine--better known as the Beach Boys--rocketed out of a working-class Los Angeles suburb in the early sixties, and their sun-and-surf sound captured the imagination of kids across the world. In a few short years, they rode the wave all the way to the top, standing with the Beatles as one of the world's biggest bands. Despite their utopian visions, infectious hooks, and stunning harmonies, the Beach Boys were beset by drug abuse, jealousy, and terrifying mental illness. In Catch a Wave, Peter Ames Carlin pulls back the curtain on Brian Wilson, one of popular music's most revered luminaries, as well as its biggest mystery. Drawing on hundreds of interviews and never-before heard studio recordings, Carlin follows the Beach Boys from their earliest days through Brian's deepening emotional problems to his triumphant re-emergence with the release of Smile, the legendarily unreleased album he had originally shelved.

America's Songs III: Rock! picks up in 1953 where America's Songs II left off, describing the artistic and cultural impact of the rock 'n' roll era on America's songs and songwriters, recording artists and bands, music publishers and record labels, and the all-important consuming

audience. The Introduction presents the background story, discussing the 1945-1952 period and focusing on the key songs from the genres of jump blues, rhythm 'n' blues, country music, bluegrass, and folk that combined to form rock 'n' roll. From there, the author selects a handful of songs from each subsequent year, up through 2015, listed chronologically and organized by decade. As with its two preceding companions, *America's Songs III* highlights the most important songs of each year with separate entries. More than 300 songs are analyzed in terms of importance—both musically and historically—and weighted by how they defined an era, an artist, a genre, or an underground movement. Written by known rock historian and former ASCAP award winner Bruce Pollock, *America's Songs III: Rock!* relays the stories behind America's musical history.

Los Angeles, called Tehrangeles because it is home to the largest concentration of Iranians outside of Iran, is the birthplace of a distinctive form of postrevolutionary pop music. Created by professional musicians and media producers fleeing Iran's revolutionary-era ban on "immoral" popular music, Tehrangeles pop has been a part of daily life for Iranians at home and abroad for decades. In *Tehrangeles Dreaming* Farzaneh Hemmasi draws on ethnographic fieldwork in Los Angeles and musical and textual analysis to examine how the songs, music videos, and television made in Tehrangeles express modes of Iranian-ness not possible in Iran. Exploring Tehrangeles pop producers' complex commercial and political positioning and the histories, sensations, and fantasies their music makes available to global Iranian audiences, Hemmasi shows how unquestionably Iranian forms of Tehrangeles popular culture exemplify the manner in which culture, media, and diaspora combine to respond to the Iranian state and its political transformations. The transnational circulation of Tehrangeles culture, she contends, transgresses Iran's geographical, legal, and moral boundaries while allowing all Iranians the ability to imagine new forms of identity and belonging.

In the winter of 1777, George Washington was in his tent at Valley Forge when a mysterious and beautiful woman appeared before him. She revealed three visions of war on American soil. The final war was the most fearful and would have been lost but for the intercession of the heavenly host. What she did not reveal was that there were only seven people on Earth that could invoke this intercession from heaven but first they would have to be trained by the Lords of the Seven Rays. Paul the Venetian, Lady Master Nada, Hilarion, Lord Lanto, El Morya, Serapis Bey, and St. Germain waited for their students inside a portal that connected the physical and spiritual realms. In the summer of 2014, Jessica, Tessa, Tyler, Nicole, Jordan, Ethan, and Alexis were camping at Jenny Lake in Grand Teton National Park. None of them had ever heard of the Lords of the Seven Rays but that would soon change.

Before she became the legendary Mama Cass—one quarter of the mega-huge folk group The Mamas and the Papas—Cass Eliot was a girl from Baltimore trying to make it in the big city. After losing parts to stars like Barbra Streisand on the Broadway circuit, Cass found her place in the music world with an unlikely group of cohorts. The Mamas and the Papas released five studio albums in their three years of existence. It was at once one of the most productive (and profitable) three years any band has ever had, and also one of the most bizarre and dysfunctional groups of people to ever come together to make music. Through it all, Cass struggled to keep sight of her dreams—and her very identity.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

A Catholic high school near Boston in 1985. A time of suicides, gymnasium humiliations, smoking for beginners, asthma attacks, and incendiary teenage infatuations. Infatuations with a girl (Allison), with a band (The Smiths) and with an album, Meat is Murder, that was so raw, so vivid and so melodic that you could cling to it like a lifeboat in a storm. In this

brilliant novella Joe Pernice tells the story of an asthmatic kid's discovery of Meat is Murder. Here is a short excerpt: One morning as I was jogging my way past the bronze plaque commemorating the deaths of one student and one motorcyclist, my necktie flapping like a windsock, Ray floored the brake pedal of his Dodge as he closed in on me. Fifty mile an hour traffic came to a screeching, nearly murderous halt behind him. He leaned over and rolled down the passenger side window in one fluid motion. He dispensed with formalities while I marveled at the audacity of his driving and, tossing something at me, winked and said, "Here. I'm going to kill myself." He pegged the gas, leaving a surprisingly good patch of rubber for such a shitty car. In the gutter, sugared with sand put down during the winter's last snow, I saw written in red felt ink on masking tape stuck to a smoky-clear cassette: "Smiths: Meat."
