Coquito is an educational and scientific instructional book through which more than 38 million Spanish-speaking children have learned to read, write and think. Coquito is conceived and structured in 54 sequential lessons, with which the child is able to start reading and writing, opening a future of intellectual and emotional potential that raises their awareness and self-esteem. This provides great satisfaction to teachers and parents because the students' reading comprehension is high. The "Reading by Words Method", created with the book Coquito Clásico, is built on the children's vocabulary and on the unique feature of the Spanish language that is read as it is written and written as it is spoken, unlike other languages, whose phonetic complexity is remarkable. It is therefore not advisable to teach how to read in Spanish using methods from other languages such as English and French because it will extend the learning process up to fifteen months for what can be accomplished in three months using our method. The constant interest of the author and his team of specialists is to restructure and update the book according to the improvements and suggestions from teachers who use Coquito with remarkable success, exceeding expectations in most Spanish-speaking countries. Coquito Clásico brings graphic colored themes, illustrated with captivating

visuals that engage and develop the child's imagination. This initiates the process of oral expression and reading as well as writing and mathematics. We thank the teachers and parents for using our materials, and we guarantee that they have chosen a method of proven quality and excellence that develops mental processes, taking into account the linguistic features of the Spanish language.

A masterpiece in the tradition of the Decameron and the Canterbury Tales, Juan Ruiz's fourteenth-century Spanish narrative poem combines the comic and the serious, the bawdy and the practical, the satiric and the tender, the devout and the blasphemous. In a first prose translation, Professors Mignani and Di Cesare succeed in conveying the vitality and sly humor of the original. The poem consists of a loosely unified series of fourteen amorous adventures of the Archpriest of Hita, interlaced with debates, fabliaux, fables, and exempla. Ruiz suggests that while man ought to seek buen amor (true love, or love of God), he is prone to loco amor, or worldly love. The Book proposes to show human folly so that men may be forewarned of the bad and choose the good. The episodes related in the stanzas and in songs in various lyrical styles parody such conventions as courtly love, epic battle, or church ritual. Ruiz was clearly fascinated by the concrete, as well as the allegorical, for his episodes have dates and actual settings, and popular speech is incorporated into his verses. In their introduction, the translators survey the major scholarly studies of the poem and offer their own critical reading of it. Their annotated bibliography and notes to the translation will be useful to students as well as scholars.

Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism,

politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.
