Sarah Palmer lives in her own little bubble. Life consists of work at the coffee shop, chatting online with friends, and trying her best to uphold the morals she was taught in Catholic school. Her step-sister Ethel is the complete opposite. When Ethel guilts Sarah into sneaking into a party under the guise of being strippers, Sarah's entire world turns upside down. Everything she thought she knew about herself is changing, and she doesn't know how to stop it. What was supposed to be a night of trespassing and fun quickly turns into an unexpected love affair with a handsome stranger. Tristan Locke is perfect. Too perfect. And Sarah's about to learn that if something seems too good to be true, it usually is. This is a stand-alone novel.

One mother's son is killed in a tragic accident; another's daughter murders two people in a wild rage. From these bitter facts, Beverly Lowry--the first child's mother and an acclaimed novelist--has fashioned a memoir in which the objectivity of true-crime reportage resonates with acute feeling and even, ultimately, with redemption. In Houston, in the early morning hours of June 13, 1983, twenty-three-year-old Karla Faye Tucker showed up with two friends at the apartment of a man they hated, Jerry Lynn Dean. Fired by a lost weekend of drugs and bravado, during which their grievances against Jerry Lynn became magnified out of all proportion, they had it in mind to steal motorcycle parts. Maybe to scare him a little. But by the time they left, both Dean and his chance, one-night companion had been murdered with such thorough wickedness as to ensure Karla's place among the handful of young white women on Death Row in this country. The next fall, outside of Austin, Beverly Lowry's son Peter, after an increasingly troubled adolescence, was back in high school and back living at home when he was killed--an unsolved hit-and-run. He was eighteen. The despair that descended into Lowry's life

seemed without end, but eventually and almost inevitably she became obsessed by the beautiful young killer whose photograph she'd seen in a Houston newspaper. "If Peter hadn't been killed," she writes, "I would not have made that first trip up to see Karla Faye." In *Crossed Over*, Beverly Lowry reveals how Tucker, a full-time addict and part-time prostitute, had been dealt this fate as a child--only to pursue it relentlessly herself in Houston's violent subculture of bikers and outlaws. Working backward from the murders, Lowry delves into character and motive, looking for reasons that might explain these unthinkable acts. But this is also an account of the unlikely and powerful friendship between a writer--a mother--coming to terms with her loss and a young woman who, even under the sentence of death, begins the life she'd never before had a chance to lead. *Crossed Over* is a story of crime and punishment, but more importantly it explores the connection between grief and hope, and between different kinds of victims. In the end, what Beverly Lowry uncovers is the unexpected ability of life, however blighted the circumstances, to assert its best, most urgent claim upon us.

Twenty-six-year-old bookstore clerk Emma Walsh has it on good authority that she's a cat lady. She doesn't necessarily agree with that assessment, but it's hard to argue with the facts. Raggedy clothes covered with cat hair? Check. Last professional haircut? Over a year ago. Oh, and three cats in a tiny Brooklyn studio? Yep, she's got those. And yes, fine, she hasn't had a date since... well, she can't recall. But that part is fixable. Isn't that what the dating sites are for? A case of mistaken identity... One high-end matchmaker, one dating app, one mix-up that changes everything... Opposites may attract, but can this last?

We are not all born with equal opportunities. Yet there have been countless of women who have overcome a range of barriers such as prejudice, illness, and personal tragedy to advance our understanding of science, technology, engineering, and mathematics (STEM). They used their knowledge to change the world, and their stories are fascinating. This book offers a concise introduction of the lives of 46 women, taking you into the cultural and social context of the world they lived in. Through their intelligence, courage, and resilience, they used STEM to defy expectations and inspire generations to follow in their footsteps. Some of them invented items we use day-to-day and discovered causes and treatments for epidemics that ostracized whole sections of society, while others campaigned for the reproductive rights of women and harnessed mathematics to send people into space and break ciphers. These women are proof that females can and did have a hugely significant role in shaping the world we live in today.

New Adult Romance "By turns humorous and heartbreaking, Best Kind Of Broken has become one of my favorites!" --- CORA CARMACK, New York Times bestselling author

SOMETIMES MOVING ON MEANS MOVING IN Pixie Marshall wishes every day she could turn back time and fix the past. But she can't. And the damage is done. She's hoping that a summer of free room and board working with her aunt at the Willow Inn will help her forget. Except there's a problem: the resident handyman is none other than Levi Andrews. The handsome quarterback was once her friend- and maybe more-until everything changed in a life-shattering instant. She was hoping to avoid him, possibly forever. Now he's right down the hall and stirring up feelings Pixie thought she'd long buried . . . Levi can't believe he's living with the one person who holds all his painful memories. More than anything he wants to make things right, but a simple "sorry" won't suffice-not when the tragedy that scarred them was his fault. Levi knows Pixie's better off without him, but every part of him screams to touch her, protect her, wrap her in his arms, and kiss away the pain. Yet even though she's so close, Pixie's heart seems more unreachable than ever. Seeing those stunning green eyes again has made one thing perfectly clear-he can't live without her. (70,000 words)
