The chances of an academic landing a tenure-track job seem only to shrink as student loan and credit card debts grow. What's a frustrated would-be scholar to do? Can he really leave academia? Can a non-academic job really be rewarding—and will anyone want to hire a grad-school refugee? With "So What Are You Going to Do with That?" Susan Basalla and Maggie Debelius—Ph.D.'s themselves—answer all those questions with a resounding "Yes!" A witty, accessible guide full of concrete advice for anyone contemplating the jump from scholarship to the outside world, "So What Are You Going to Do with That?" covers topics ranging from career counseling to interview etiquette to translating skills learned in the academy into terms an employer can understand and appreciate. Packed with examples and stories from real people who have successfully made this daunting—but potentially rewarding—transition, and written with a deep understanding of both the joys and difficulties of the academic life, this fully revised and up-to-date edition will be indispensable for any graduate student or professor who has ever glanced at her CV, flipped through the want ads, and wondered, "What if?" "I will absolutely be recommending this book to our graduate students exploring their career options—I'd love to see it on the coffee tables in department lounges!"—Robin B. Wagner, former associate director for graduate career services, University of Chicago

At just twenty-two years of age, Briana Mills finds herself at a desperate crossroads. Once a promising student at the University of Oregon, she now finds herself alone on the streets of Portland with only the clothes on her back, memories of a happier time, and the stray dog that's adopted her. And she's got the drug that helps her forget. Briana's mistakes haunt her, lashing her with severe consequence, forcing her to make a decision few would ever make. Still, in a final attempt to make her young life count for something, Briana begins writing it all down—everything—so that others walking the crumbling precipice of rebellion might leap to safety before it's too late. She writes about her present struggles and the past. She writes about Michael, the boy she loved and left behind when she went off to college. She writes about the violent activism and drug that derailed her life. She writes about the demands placed on her by a socially conscious mother, and the adoration shown by a proud father. And Briana talks about Brody—the young activist leader who captured her heart, took it to the altar, and then crushed it. What develops is an engrossing record of a young and troubled life, one both beautiful and ugly, innocent and corrupt, lost and then found. And wrapped in its literary sinew is a cast of characters as diverse and engaging as the stars, and an impassioned love story sure to transcend time. What readers are saying: "Timeless...provocative." "Characters so real you'd swear this was a true account." "A brilliant read!" Alone Among People is D. M. Anthony's first novel. He lives in California where he's at work on his next book. This review is from: Alone Among People (Paperback) A Compelling and Heart Warming Story, September 25, 2012 "Alone Among People is at once an engaging, moving story and a provocative statement about the thin line between thriving and sinking into an abyss as inescapable as quicksand. Its timeless and uplifting messages of hope conquering despair, healing borne of love and care, and

peace at discovering one's identity are an inspiration. The author's empathy for the characters and their plight betrays knowledge of what he writes, and offers the reader a unique glimpse into a vulnerable and intimate place... his heart. I recommend this book to anyone who has traveled through the anguish of darkness and longed for the light; it may just guide your way."

Before GPS, before the compass, and even before cartography, humankind was navigating. Now this singular guide helps us rediscover what our ancestors long understood—that a windswept tree, the depth of a puddle, or a trill of birdsong can help us find our way, if we know what to look and listen for. Adventurer and navigation expert Tristan Gooley unlocks the directional clues hidden in the sun, moon, stars, clouds, weather patterns, lengthening shadows, changing tides, plant growth, and the habits of wildlife. Rich with navigational anecdotes collected across ages, continents, and cultures, *The Natural Navigator* will help keep you

on course and open your eyes to the wonders, large and small, of the natural world.

Turn Every Walk into a Game of Detection When writer and navigator Tristan Gooley journeys outside, he sees a natural world filled with clues. The roots of a tree indicate the sun's direction; the Big Dipper tells the time; a passing butterfly hints at the weather; a sand dune reveals prevailing wind; the scent of cinnamon suggests altitude; a budding flower points south. To help you understand nature as he does, Gooley shares more than 850 tips for forecasting, tracking, and more, gathered from decades spent walking the landscape around his home and around the world. Whether you're walking in the country or city, along a coastline, or by night, this is the ultimate resource on what the land, sun, moon, stars, plants, animals, and clouds can reveal—if you only know how to look!
