About the book: A meticulous scientific presentation of the unity of being, (one unified being) presented by the contemporary Aref (Sufi Master) and teacher, Molana Salaheddin Ali Nader Shah Angha (Hazrat Pir). This inspired manuscript presents a fresh view of the essence within as well as beyond the frontiers of almost 12 billion light years of cosmic expansion. Expansion and Contraction within Being (DAHM) deals with the foremost, cutting edge problems of science, including biology, immunology, molecular physics, cosmology, and neurology, to name a few. For example, Hazrat Pir unifies the seemingly various forces of Nature by demonstrating that it is the amount of Expansion and Contraction which is the only factor needed for specifying the dynamic variables of a particle or a system. Hazrat Pir's surge of intuitive knowledge and wisdom, especially in this book, is truly an illumination to the pathways of scientists' search for the truth. This book should be studied deeply by anyone interested in a scientific approach toward understanding the truth of the vast and united Existence. These collected papers are critical reflections about the rapid digitalization of discourse and culture. This disruptive change in communicative interaction has swept rapidly through major universities, nation states, learned disciplines, leading businesses, and government agencies during the past decade. To commemorate the tenth anniversary of the Center for Digital Discourse and Culture (CDDC) at Virginia Tech, which has been a pioneering leader for many of these changes in university settings, the contributors to this volume examine the transformative implications of digitalizing discourse and culture inside and outside of the academic arena. These technologies of digitalization have created new communities of users, which are highly engaged with their new communicative possibilities, informational content, and discursive forms. Few have asked what these changes will mean, and many of the most important voices engaged in debates about this critical transformation are gathered here in this volume. Each author in his or her own way considers what accepting digital discourse and informational culture now means for contemporary economies, governments, and societies.

Jarvis Langton is an unborn-again Christian living on the fringe. He's not big on life and has tried to finish his own twice. Still, most mornings, he quite likes to sun himself at Sydney's Royal Botanic Gardens. One morning he notices something winking at him from a nearby bush. When he investigates he finds the dead body of his friend, Lady; a Thai transvestite. Jarvis is not someone with his thoughts lined up in any reasonable order. It takes him a while to work out Lady must have been murdered. It takes him longer to decide he's going to find her killer - but once he does, the premonition that finding Lady's murderer will bring him his own end, happens in an instant. "Parable of the Forgotten is a first class, no rest-stop, brilliant, whirly gig!" Dr She Mackenzie Hawke, University Of Sydney.

The words you speak will either put you over in life or hold you in bondage. Many people have been held captive in their circumstances by their own words. The absence of God's Word in your life will rob you of faith in His ability.

Learn the inside scoop on Watergate, the Ford Pardon, and the 18 ½ minute Gap. Roger Stone, The New York Times bestselling author of *The Man Who Killed Kennedy—the Case Against LBJ*, gives the inside scoop on Nixon's rise and fall in Watergate in his new book *Nixon's Secrets*. Stone charts Nixon's rise from election to Congress in 1946 to the White House in 1968 after his razor-thin loss to John Kennedy in 1960, his disastrous campaign for Governor of California in 1962 and the greatest comeback in American Presidential history. "Just as the assassination of JFK prevents a balanced analysis of Kennedy and his times, the myth of Watergate prevents a reappraisal of our 37th President." said Stone who's book on LBJ was the second biggest selling book during the 50th anniversary of Kennedy's murder. Stone reveals how the Kennedy's wiretapped Nixon's hotel room the night before the Nixon-Kennedy debate, and stole Nixon's medical records from his psychiatrist's office. Stone lays out how Kennedy running mate Lyndon Johnson stole Texas from JFK through vote fraud while Mayor Richard Daley stole Illinois, and how JFK actually lost the popular vote. Stone looks at the Nixon Presidency: the desegregation of the public schools, the progressive social programs, Nixon's struggle to end the war in Vietnam, the historic SALT arms reduction agreement with Russia, the saving of Israel in the Six Days War, the opening to China, and the disastrous decision to take America off the Gold standard. "The mainstream media's interpretation of the facts surrounding the Watergate episode are a fantastic and grotesque distortion of historical truth," said Stone. "Cursory examination of the facts in Watergate will reveal that the actions which caused the fall of Nixon cannot be reduced to the simplistic account summarized by Bob Woodward and Carl Bernstein of the Washington Post." The author outlines how White House Counsel John Dean, planned, pushed and covered-up the Watergate break-in, then sought to avoid responsibility for it. Stone examines the bungled Watergate break-in to determine what exactly Nixon's agents were looking for and how the CIA infiltrated the burglar team and sabotaged the break-in to gain leverage over Nixon. Find out why Nixon demanded the CIA turn over the records of the Bay of Pigs and Kennedy Assassination. Learn how a cabal of military and intelligence hard-liners spied on and undermined Nixon to stop his pro-peace détente foreign policy, his withdrawal of troops from Vietnam, his arms limitation agreement with the Soviets, and his opening to Red China. Discover how Vice President Spiro Agnew was setup to move him out of the line of presidential succession. Stone makes the compelling case that General Alexander Haig orchestrated Nixon's removal from office in a coup d'état and brokered the deal for his pardon. Finally the public will learn what is on the 18 ½ minute gap in the White House Tapes. Stone, a Washington Insider for forty years, outlines why FBI Man Mark Felt is not deep throat, why there is no deep throat, and why Bob Woodward and Carl Bernstein lie about it even today. Stone reveals how Nixon used the dark secrets he knew to avoid prosecution by blackmailing Gerald Ford for a full, free and unconditional pardon. Nixon's secret would not only destroy his presidency—it would save him from prison and allow him to launch his final comeback—advising President Bill Clinton on Foreign Affairs despite Hillary's attempts to block him and her being fired from the 1974 House Impeachment Committee for lying and violating Nixon's rights.

A.W. Tozer calls God the "Composer of the Cosmos," the "Chief Musician of the Universe." God signals the birds to chirp their beautiful tune in the coolness and tranquility of a spring morning, simply because that is what He designed them to do. Each note is wonderfully constructed by God, uniquely bringing praise to His name. With this inspiring perspective on worship, Tozer invites readers to take a deep look at the ways in which we worship and why. He reminds us that we were created solely for this purpose and that worshipping the Father and seeking His fellowship is our primary task. It is also His delight. The newest revised edition now includes "Worship: The Missing Jewel of the Evangelical Church," first published in the Alliance Life magazine in 1965, and still so profound today.
