Now they include Polly, the serving girl at the Cook Coffeehouse. But fourteen-year-old Mattie Cook doesn't get a moment to mourn the passing of her childhood playmate. New customers have overrun her family's coffee shop, located far from the mosquito-infested river, and Mattie's concerns of fever are all but overshadowed by dreams of growing her family's small business into a thriving enterprise. Never Mind, the first novel, unfolds over a day and an evening at the family's chateaux in the south of France, where the sadistic and terrifying figure of David Melrose dominates the lives of his five-year-old son, Patrick, and his rich and unhappy American mother, Eleanor. From abuse to addiction, the second novel, Bad News opens as the twenty-two-year-old Patrick sets off to collect his father's ashes from New York, where he will spend a drug-crazed twenty-four hours. And back in England, the third novel, Some Hope, offers a sober and clean Patrick the possibility of recovery. The fourth novel, the Booker-shortlisted Mother's Milk, returns to the family chateau, where Patrick, now married and a father himself, struggles with child rearing, adultery, his mother's desire for assisted suicide, and the loss of the family home to a New Age foundation. Edward St. Aubyn offers a window into a world of utter decadence, amorality, greed, snobbery, and cruelty—welcome to the declining British aristocracy.

The General Theory of Employment, Interest, and Money, written by legendary author John Maynard Keynes is widely considered to be one of the top 100

greatest books of all time. This masterpiece was published right after the Great Depression. It sought to bring about a revolution, commonly referred to as the 'Keynesian Revolution', in the way economists thought—especially challenging the proposition that a market economy tends naturally to restore itself to full employment on its own. Regarded widely as the cornerstone of Keynesian thought, this book challenged the established classical economics and introduced new concepts. 'The General Theory of Employment, Interest, and Money' transformed economics and changed the face of modern macroeconomics. Keynes' argument is based on the idea that the level of employment is not determined by the price of labour, but by the spending of money. It gave way to an entirely new approach where employment, inflation and the market economy are concerned.

In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance – women and learning, writing and poverty – which helped to establish much of feminist thought on the

importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence – a call which sent ripples well into the next century.
