Celebrate the freedom to read with this timely, empowering middle-grade debut in the spirit of *The View from Saturday* or *Frindle*. When twelve-year-old June Harper's parents discover what they deem an inappropriate library book, they take strict parenting to a whole new level. And everything June loves about

Dogwood Middle School unravels: librarian Ms. Bradshaw is suspended, an author appearance is canceled, the library is gutted, and all books on the premises must have administrative approval. But June can't give up books . . . and she realizes she doesn't have to when she spies a Little Free Library on her walk to school. As the rules become stricter at school and at home, June keeps turning the pages of the banned books that continue to appear in the little library. It's a delicious secret . . . and one she can't keep to herself. June starts a banned book library of her own in an abandoned locker at school. The risks grow alongside her library's popularity, and a movement begins at Dogwood Middle--a movement that, if exposed, could destroy her. But if it's powerful enough, maybe it can save Ms. Bradshaw and all that she represents: the freedom to read. Equal parts fun and empowering, this novel explores censorship, freedom of speech, and activism. For any kid who doesn't believe one person can effect change...and for all the kids who already know they can!

A trade paperback reissue of National Book Award finalist Mary Gaitskill's debut collection, *Bad Behavior*—powerful stories about dislocation, longing, and desire which depict a disenchanting and rebellious urban fringe generation that is searching for human connection. • Now a classic: *Bad Behavior* made critical waves when it first published, heralding Gaitskill's arrival on the literary scene

and her establishment as one of the sharpest, erotically charged, and audaciously funny writing talents of contemporary literature. Michiko Kakutani of The New York Times called it “Pinteresque,” saying, “Ms. Gaitskill writes with such authority, such radar-perfect detail, that she is able to make even the most extreme situations seem real... her reportorial candor, uncompromised by sentimentality or voyeuristic charm...underscores the strength of her debut.”

Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four “Getting Ready”

sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens.

The International Statistical Institute was founded in 1885 and is therefore one of the world's oldest international scientific societies. The field of statistics is still expanding rapidly and possesses a rich variety of applications in many areas of human activity such as science, government, business, industry, and everyday affairs. In consequence, the celebration of the Institute's centenary in 1985 is of considerable interest not only to statisticians but also more widely to the international scientific community. As part of its centennial celebration planning the Institute decided to publish a volume of papers representing the immensely wide range of interests encompassed by statistics in its international context,

viewed both from a historical and from a contemporary standpoint. We were fortunate in securing the services of Anthony Atkinson and Stephen Fienberg as Editors of this volume: they have worked hard over a period of several years to put together a most fascinating collection of papers. On behalf of the Institute it is my pleasant duty to thank them and the authors for their contributions. J.

DURBIN, President International Statistical Institute Preface The papers in this volume were prepared to help celebrate the centenary of the International Statistical Institute. During the ISI's first 100 years statistics has matured, both as a scientific discipline and as a profession, in ways that the ISI's founders could not possibly have imagined.

Literature in a Time of Migration offers a profound rethinking of British fiction in light of the new practices of human mobility that reshaped the nineteenth-century world. Building on the growing critical engagement with globalization in literary studies, it confronts the paradox that at a time when transnational human movement occurred globally on an unprecedented scale, British fiction appeared to turn inward to tell stories of local places that valorized stability and rootedness. In contrast, this book reveals how literary works, from the end of the Napoleonic Wars to the advent of the New Imperialism, were active components of a culture of colonization and emigration. Fictional texts, as print commodities, were enmeshed in technologies of transport and communication, and innovations in literary form were spurred by the conditions and consequences of human movement. Examining works by Scott, Charlotte Brontë, Dickens, and George Eliot, as well as popular contemporaries, Mary Russell Mitford, John Galt, and Thomas Martin Wheeler, this volume demonstrates how literary texts overlap with an agenda set in public discussions of colonial emigration that they also helped to shape. Debates about assisted emigration, 'forced' and 'free' migration, colonization, settlement, and the removal of native peoples, figure in fictions in complex ways. Read alongside writings by emigration theorists, practitioners, and

enthusiasts for colonization, fictional texts reveal a powerful and sustained engagement with British migratory practices and their worldwide consequences. Literature in a Time of Migration is a timely reminder of the place and importance of migration within British cultural heritage.
