Maurice Duruflé (1902-1986) is best known as composer of the hauntingly beautiful and moving Requiem of 1947, and as organist during his long tenure at the church of Saint-Etienne-du-Mont in Paris. He studied composition and organ with Tournemire, Vierne, Gigout, and Dukas among others, and became well known outside France through tours and conferences, often attended with his wife, the late Marie-Madeleine Chevalier. Ebrecht has brought together in this centenary tribute a fine collection of articles on Duruflé's life and work that will enthrall all those who have come under the spell of this great master of French Impressionism. About the contributors: Marie-Claire Alain the renowned French organist, recording artist, and teacher was one of Duruflé's first harmony students at the Paris Conservatoire. James Frazier has studied liturgy and music at several universities, and was a Fulbright scholar in France, where he studied privately with Madame Duruflé. Maria Rubis Bauer concluded her doctoral dissertation on Duruflé at the University of Kansas. Jeffrey Reynolds is Associate Professor of Humanities and chair of the music department at the University of Alabama, Birmingham. Herndon Spillman's landmark recording of the complete works of Duruflé won him a Grand Prix du Disque in 1973. He is Professor of Music at Louisiana State University. Eliane Chevalier was the sister of Marie-Madeleine Duruflé, with whom she shared a passion for music. Ned Tipton is Director of Music of the American Cathedral in Paris.

These Etudes are from the Romantic era. (Lamento, Leggierezza, Sospiro)

In seventeenth century Italy, overcrowding, violent political uprising, and plague

led an astonishing number of abandoned and orphaned children to overwhelm the cities. Out of the piety of private citizens and the apathy of local governments, the system of conservatori was created to house, nurture, and train these fanciulli vaganti (roaming children) to become hatters, shoemakers, tailors, goldsmiths, cabinet makers, and musicians - a range of practical trades that might sustain them and enable them to contribute to society. Conservatori were founded across Italy, from Venice and Florence to Parma and Naples, many specializing in a particular trade. Four music conservatori in Naples gained particular renown for their exceptional training of musicians, both performers and composers, all boys. By the eighteenth century, the graduates of the Naples conservatories began to spread across Europe, with some 600 boys formerly in residence beginning to dominate the European musical world. Other conservatories in the country - including the Paris Conservatory - began to imitate the principles of the Naples' conservatory's training, known as the partimento tradition. The daily lessons and exercises associated with this tradition were largely lost-until author Robert Gjerdingen discovered evidence of them in the archives of conservatories across Italy and the rest of Europe. Compellingly narrated and richly illustrated, *Child Composers in the Old Conservatory* follows the story of these boys as they undergo rigorous training with the conservatory's maestri and eventually become maestri themselves, then moves forward in time to see the influence of partimenti in the training of such composers as Claude Debussy and Colette Boyer. Advocating for the revival of partimenti in modern music education, the book explores the tremendous potential of this tradition to enable natural musical fluency for students of all ages learning the craft today.

Bach's *Well-tempered Clavier* (or the 48 Preludes and Fugues) stands at the core of baroque keyboard music and has been a model and inspiration for performers and composers ever since it was written. This invaluable guide to the 96 pieces explains Bach's various purposes in compiling the music, describes the rich traditions on which he drew, and provides commentaries for each prelude and fugue. In his text, David Ledbetter addresses the main focal points mentioned by Bach in his original 1722 title page. Drawing on Bach literature over the past three hundred years, he explores German traditions of composition types and Bach's novel expansion of them; explains Bach's instruments and innovations in keyboard technique in the general context of early eighteenth-century developments; reviews instructive and theoretical literature relating to keyboard temperaments from 1680 to 1750; and discusses Bach's pedagogical intent when composing the *Well-tempered Clavier*. Ledbetter's commentaries on individual preludes and fugues equip readers with the concepts necessary to make their own assessment and include information about the sources when details of notation, ornaments, and fingerings have a bearing on performance.
