There is simply no value put on words, we can all speak them; they don't cost any money, as they are free to all they are simply not appreciated. Words, however, are the reason that one person lives a life of abundance while another person lives a life of lack. Words can open doorways that hands can not. They can break down invisible boundaries. A few words can destroy life or breathe new life into a withering one. Words can fill a person full of happiness or fill them full of despair. Words can build up a person's confidence, or take it crashing to the ground. As most people do not value their words, they misuse them, which allows the power of their words to work against them. They want to go in one direction, but their words push them in another. This conflict is what most people battle with each day. They ask God to grace their lives with favor, health and abundance, but their words keep them in a life full of disappointment, sickness, and lack. In this book, I want to share with you the correct way to harness the power of your words, so instead of holding you back, they propel you towards the life that you desire. The life that you were destined to live. I will draw from personal experience and Scripture to illustrate how positive thoughts and words can be used to overcome every challenge that stands in your way. I will share how important it is to stop the habit of talking idly about your problems and instead focus on speaking about solutions. "Knowing is not enough; we must apply. Willing is not enough; we must do." - Johann Wolfgang von Goethe Pick up your copy today by clicking the BUY NOW button at the top of this page.

In our default state, our brains constantly get in the way of effective communication. They are lazy, angry, immature, and distracted. They can make a difficult conversation impossible. But Andrew Newberg, M.D., and Mark Waldman have discovered a powerful strategy called Compassionate Communication that allows two brains to work together as one. Using brain scans as well as data collected from workshops given to MBA students at Loyola Marymount University, and clinical data from both couples in therapy and organizations helping caregivers cope with patient suffering, Newberg and Waldman have seen that Compassionate Communication can reposition a difficult conversation to lead to a satisfying conclusion. Whether you are negotiating with your boss or your spouse, the brain works the same way and responds to the same cues. The truth, though, is that you don't have to understand how Compassionate Communication works. You just have to do it. Some of the simple and effective takeaways in this book include: • Make sure you are relaxed; yawning several times before (not during) the meeting will do the trick • Never speak for more than 20-30 seconds at a time. After that they other person's window of attention closes. • Use positive speech; you will need at least three positives to overcome the effect of every negative used • Speak slowly; pause between words. This is critical, but really hard to do. • Respond to the other person; do not shift the conversation. • Remember that the brain can only hold onto about four ideas at one time. Highly effective across a wide range of settings, Compassionate Communication is an excellent tool for conflict resolution but also for simply getting your point across or delivering difficult news.

Five hundred years before the birth of Jesus, a God-realized being named Lao-tzu in ancient China dictated 81 verses, which are regarded by many as the ultimate commentary on the nature of our existence. The classic text of these 81 verses, called the Tao Te Ching or the Great Way, offers advice and guidance that is balanced, moral, spiritual, and always concerned with working for the good. In this book, Dr. Wayne W. Dyer has reviewed hundreds of translations of the Tao Te Ching and has written 81 distinct essays on how to apply the ancient wisdom of Lao-tzu to today's modern world. This work contains the entire 81 verses of the Tao, compiled from Wayne's researching of 12 of the most well-respected translations of text that have survived for more than 25 centuries. Each chapter is designed for actually living the Tao or the Great Way today. Some of the chapter titles are "Living with Flexibility," "Living Without Enemies," and "Living by Letting Go." Each of the 81 brief chapters focuses on living the Tao and concludes with a section called "Doing the Tao Now." Wayne spent one entire year reading, researching, and meditating on Lao-tzu's messages, practicing them each day and ultimately writing down these essays as he felt Lao-tzu wanted you to know them. This is a work to be read slowly, one essay a day. As Wayne says, "This is a book that will forever change the way you look at your life, and the result will be that you'll live in a new world aligned with nature. Writing this book changed me forever, too. I now live in accord with the natural world and feel the greatest sense of peace I've ever experienced. I'm so proud to present this interpretation of the Tao Te Ching, and offer the same opportunity for change that it has brought me."
