Over the past 225 years the oak savannah at the mouth of the Niagara River -- designated as a Military Reserve but regarded by the local citizenry as their common lands-- has witnessed a broad spectrum of military, political and cultural happenings. Perhaps most compelling is the story of Niagara Camp, established in the 1870s on the Reserve as the summer camp for Military District #2. By the eve of the Great War this District that encompassed most of central Ontario from Niagara to Sault St. Marie including Toronto, Hamilton and St. Catharines, was the most populous and patriotic District in all of Canada. Niagara Camp and the training that went on within it endeavoured to prepare over 50,000 young men for the Overseas Canadian Expeditionary Force; however, the Camp's vigorous daily routines, comprehensive instruction and discipline could not ready them for the horrors of the Western Front and ...Armageddon. Many never returned. In 1917 Niagara Camp also became the unique training centre for 22,000 Polish Army volunteers, American and Canadian boys eager to fight for a distant land many had never set foot on. The horrific Spanish Flu Pandemic soon followed with dire consequences for the soldiers and their volunteer caregivers. Niagara was also a training camp for Canada's ill-fated and little-known Siberian Expedition. Remarkable sagas are recounted of some of the Camp's veterans. On the centennial of the Great War this in-depth recognition of the brave young volunteers during their preparation for war is long overdue....

Intended as a work of reference, this critical bibliography is a description of the historical records published by, or in the name of, all the military, para-military and police forces which

served the British Empire and Commonwealth. It is based upon information received from 200 contributors and from contacts with 78 military libraries worldwide. It gives a listing of all such books, for all of the dominions, colonies, protectorates and mandated territories, from the time of Robert Clive's India through to 1993.

Why do men rape women? This is a question for which there are many political, psychological, and sociological answers, but few historical ones.

Improper Advances is one of the first books to explore the history of sexual violence in any country. A study of women, men, and sexual crime in rural and northern Ontario, it expands the terms of current debates about sexuality and sexual violence. Karen Dubinsky relies on criminal case files, a revealing but largely untapped source for social historians, to retell individual stories of sexual danger—crimes such as rape, abortion, seduction, murder, and infanticide. Her research supports many feminist analyses of sexual violence: that crimes are expressions of power, that courts are prejudiced by the victim's background, and that most assaults occur within the victims' homes and communities. Dubinsky distinguishes herself from most feminist scholars, however, by refusing to view women solely as victims and sex as a tool of oppression. She finds that these women actively sought and took pleasure in sexuality, but they distinguished between wanted and unwanted sexual encounters and attempted to punish coercive sex despite obstacles in the court

system and the community. Confronting a number of key theoretical and historiographic controversies, including recent debates over sexuality in feminist theory and politics, she challenges current thinking on the history of women, gender, and sexuality.

The Scandinavian presence has been felt in many parts of Canada, including the Windsor-Detroit border region. A Scandinavian Heritage surveys the numerous contributions made in this area by the people of 5 nations: Denmark, Norway, Sweden, Finland, and Iceland. The history of these people, from the first settlers to the present is explored in detail. The experiences common to each of the nationalities are shown and contrasted to the unique perspective brought by each group to this country. Included is a survey reflecting the experiences of the present-day Scandinavian community. To highlight this special history, Joan Magee has included an ample selection of photographs and illustrations.

Hard-working Daphne left her two young daughters in Jamaica for six years to create a better life for them in America. Now thirty years later, proud and private, Daphne is relying on church and her nearby dutiful daughter to face a health crisis. But when feisty activist Claudette arrives unexpectedly from far away to help out, her arrival stirs up the buried past, family ghosts and the burning desire for unconditional love before it's too late.

This book explores the recent trend toward the transformation of religious symbols and practices into culture in Western democracies. Analyses of three legal cases involving religion

in the public sphere are used to illuminate this trend: a municipal council chamber; a town hall; and town board meetings. Each case involves a different national context—Canada, France and the United States—and each illustrates something interesting about the shape-shifting nature of religion, specifically its flexibility and dexterity in the face of the secular, the religious and the plural. Despite the differences in national contexts, in each instance religion is transformed into culture or heritage by the courts to justify or excuse its presence and to distance the state from the possibility that it is violating legal norms of distance from religion. The cultural practice or symbol is represented as a shared national value or activity. Transforming the ‘Other’ into ‘Us’ through reconstitution is also possible. Finally, anxiety about the ‘Other’ becomes part of the story of rendering religion as culture, resulting in the impugning of anyone who dares to question the putative shared culture. The book will be essential reading for students, academics and policy-makers working in the areas of sociology of religion, religious studies, socio-legal studies, law and public policy, constitutional law, religion and politics, and cultural studies.

A key concern for educators, administrators, professional support services personnel, parents and policy makers are barriers to learning, particularly student mental health. Statistics reveal that up to 20 percent of children and youth have mental health issues and up to 80 percent do not receive proper intervention. Barriers to Learning enables readers to gain valuable insight into the challenges presented in classrooms today. This book presents a unique classification and review of various mental health and learning issues. The authors link current education and child and youth mental health
