Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Li Su's life was very exciting. Last month, he married his thirteenth beautiful wife, a young international model, in the United States. Last week, he bought a fifteenth private island in the South Pacific and planned to make a golf course. A few days ago, he even rejected the investment invitation of the Roschell family.

Hm, he looked down on that small amount of money! He's a genius, he's a legend! At the age of 20, he had millions of properties and at the age of 23, he was evaluated as the youngest rich man in Asia. His life was filled with glory and glory. Of course, he also had a weakness of wanting to boast to the best of his ability, and that was that even at the end of his life, he still hadn't changed his habit of bragging. Yes, it was all bragging.

As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World

War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. Public and political opinions are often misinformed and out of proportion to the extent of the problem. Dog Bites brings together expert knowledge of the current situation, from a wide variety of disciplines, to provide information to the many people and professions affected by this issue. Subjects range from the practical, medical, behavioural, sociological, and theoretical, but the overall approach of the book is objective and integrative. All contributors are academic or long-standing professional experts in their field, and they represent a wide spread of international expertise.
