#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “An amazing story, and truly inspiring. It’s even better than you’ve heard.”—Bill Gates NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • BookRiot • Pamela Paul, KQED • New York Public Library

Why write a book on someone who has been dead for centuries and who is so distant from contemporary concerns? Because Augustine is one of the most influential Christians we can study. Augustine had a deep Christian faith, but struggled to find the balance between a contemplative life and an active one. As he listened to the religious and social environment around him, Augustine began to engage with it. His redemptive lifestyle not only called for faithful Christian reasoning, but the demolition of destructive social narratives. Read about his life, biblical commentary, theological insight, political, social and cultural analysis, in this book by Paul Henderson.

Retaining the position it has held since first publication, the fifth edition of this leading practitioner text on information law has been thoroughly re-worked to provide comprehensive coverage of the Data Protection Act 2018 and the GDPR. Information Rights has been cited by the Supreme Court, Court of Appeal and others, and is used by practitioners, judges and all those who practise in the field. The new edition maintains its style of succinct statements of principle, supported by case law, legislative provisions and statutory guidance. Reflecting its enlarged scope and to maintain easy referencing, the work has been arranged into two volumes. The first volume is a 1,250-page commentary, divided into six parts. The first part is an overview and introduction to overarching principles. The second part provides an authoritative treatment of the data protection regime. This covers all four forms of processing (general, applied, law enforcement and

security services) under the GDPR and DPA 2018. Each obligation and each right is comprehensively treated, with reference to all known case-law, both domestic and EU, including those dealing with analogous provisions in the previous data protection regime. The third part provides a detailed treatment of the environmental information regime. This recognises the treaty provenance of the regime and its distinct requirements. The fourth part continues to provide the most thorough analysis available of the Freedom of Information Act and its Scottish counterpart. As with earlier editions, every tribunal and court decision has been reviewed and, where required, referenced. The fifth part considers other sources of information rights, including common law rights, local government rights and subject-specific statutory information access regimes (eg health records, court records, audit information etc). The final part deals with practice and procedure, examining appeal and regulatory processes, criminal sanctions and so forth. The second volume comprises extensive annotated statutory material, including the DPA 2018, the GDPR, FOIA, subordinate legislation, international conventions and statutory guidance. The law is stated as at 1st February 2020.

From acclaimed author Laurie Halse Anderson comes this compelling first novel in the historical middle grade The Seeds of America trilogy that shows the lengths we can go to cast off our chains, both physical and spiritual. As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom.

While still mourning the death of their mother, three brothers go with their father on an extended sailing trip off the Florida Keys and have a harrowing adventure at sea.

There's never been a greater likelihood a company and its key people will become embroiled in a cross-border investigation. But emerging unscarred is a challenge. Local laws and procedures on corporate offences differ extensively - and can be contradictory. To extricate oneself with minimal cost requires a nuanced ability to blend understanding of the local law with the wider dimension and, in particular, to understand where the different countries showing an interest will differ in approach, expectations or conclusions. Against this backdrop, GIR has published the second edition of The Practitioner's Guide to Global Investigation. The book is divided into two parts with chapters written exclusively by leading names in the field. Using US and UK practice and procedure, Part I tracks the development of a serious allegation (whether originating inside or outside a company) - looking at the key risks that arise and the challenges it poses, along

with the opportunities for its resolution. It offers expert insight into fact-gathering (including document preservation and collection, witness interviews); structuring the investigation (the complexities of cross-border privilege issues); and strategising effectively to resolve cross-border probes and manage corporate reputation. Part II features detailed comparable surveys of the relevant law and practice in jurisdictions that build on many of the vital issues pinpointed in Part I.

This book takes an extensive look at the many different types of users and cultures that comprise the popular social media platform Tumblr. Though it does not receive nearly as much attention as other social media such as Twitter or Facebook, Tumblr and its users have been hugely influential in creating and shifting popular culture, especially progressive youth culture, with the New York Times referring to 2014 as the dawning of the “age of Tumblr activism.” Perfect for those unfamiliar with the platform as well as those who grew up on it, this volume contains essays and artwork that span many different topics: fandom; platform structure and design; race, gender and sexuality, including queer and trans identities; aesthetics; disability and mental health; and social media privacy and ethics. An entire generation of young people that is now beginning to influence mass culture and politics came of age on Tumblr, and this volume is an indispensable guide to the many ways this platform works.

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member

of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

"The Book Every 20-Something Should Read" Turning the big 3-0 is a milestone many women loath. There's this lie society has sold women that life ends at thirty because your twenties were the decade to make all your hopes and dreams a reality, and when the clock strikes twelve on your thirtieth birthday, your time is up! If it hasn't happened yet, it will never happen, so you should simply give up and settle. Olayinka Almaroof boldly challenges this lie with a new truth that says thirty is not the end but just the beginning! Thirty is only dreadful if we are ill-prepared, but when we live wisely through our twenties, thirty is just the next stop on the elevator up! In Chapter 30, writer Olayinka Almaroof takes the concept of "paying it forward" into the literary realm, inviting

readers to journey back through her twenties as she recounts thirty pivotal life lessons she learned. Grab your favorite girlfriends and journey through this young woman's memories through three realms: Life, Love, and Spirituality. "I wrote this book in hopes that you would learn from my mistakes and benefit from the wisdom I gained along the way. I am still learning every day, but I wanted to share the life lessons I wish someone would have shared with me. For that girl who never had wise big sisters to hold her hand and guide her, I want this book to be a symbol of my hand intertwined with yours as you journey through these pages. It is my belief that we don't have to only learn from our personal life experiences or hardships; through community and sisterhood we should be able to learn through women who have braved the journey before us." Chapter 30 is apart of the 'Wisdom Collection' written by author, Olayinka Almaroof. Check out the second installation to this collection 'The Little Black Book of Wisdom'. Available everywhere books are sold. Addition Information: Chapter 30 can also be used as a study guide for book clubs and Bible studies. The text contains study questions at the end of each chapter for discussion and in-depth reflection.

Selected by the Modern Library as one of the 100 best novels of all time Published in 1975, Ragtime changed our very concept of what a novel could be. An extraordinary tapestry, Ragtime captures the spirit of America in the era between the turn of the century and the First World War. The story opens in 1906 in New Rochelle, New York, at the home of an affluent American family. One lazy Sunday afternoon, the famous escape artist Harry Houdini swerves his car into a telephone pole outside their house. And almost magically, the line between fantasy and historical fact, between real and imaginary characters, disappears. Henry Ford, Emma Goldman, J. P. Morgan, Evelyn Nesbit, Sigmund Freud, and Emiliano Zapata slip in and out of the tale, crossing paths with Doctorow's imagined family and other fictional characters, including an immigrant peddler and a ragtime musician from Harlem whose insistence on a point of justice drives him to revolutionary violence.

And then there are a ton of murderers, rapists, hit men, con men, stickup men, embezzlers, connivers, burglars, kidnappers and maybe even an innocent man or two, though I doubt it. The convicts we have are the kind other prisons don't want. I never knew prisons could be picky, but I guess they can. You get to Alcatraz by being the worst of the worst. Unless you're me. I
