Chasing the High Kyle Keegan, Howard Moss, 2008-03-04 Kyle Keegan was like many teenagers: eager to fit in at school, he experimented with alcohol and drugs. Soon, his abuse of these substances surpassed experimentation and became a ruthless addiction to heroin that nearly destroyed his life. Now in recovery, Keegan tells his remarkable story in *Chasing the High*. Starting with the early days of alcohol and drug use, Keegan charts his decline into crime and homelessness as his need for heroin surpassed all thoughts of family and friends, of right and wrong. He then goes on to use these experiences to offer guidance and practical advice to other young people who may be struggling with substance abuse. In straightforward, easy-to-understand language and along with the psychiatric expertise of Howard Moss, MD, Keegan discusses what is known about the neurobiology of addiction in young people, how to seek treatment, and how to get the most out of professional help. He also covers such topics as which therapies are used to combat addiction, how to talk to family and friends about substance abuse, and how to navigate risky situations. Both an absorbing memoir and a useful resource for young people. Part of the Adolescent Mental Health Initiative series of books written specifically for teens and young adults, *Chasing the High* is at once both an absorbing memoir and a useful resource. It offers hope to those who are struggling with substance abuse and will help them to overcome its challenges and to go on to lead healthy, productive lives.

Me, Myself, and Them : A Firsthand Account of One Young Person's Experience with Schizophrenia Kurt Snyder, Raquel E. Gur M.D. Professor of Psychiatry University of Pennsylvania Medical Center, Linda Wasmer Andrews M.D. Professor of Psychiatry University of Pennsylvania Medical Center, 2007-10-03 During his second semester at college, Kurt Snyder became convinced that he was about to discover a fabulously important mathematical principle, spending hours lost in

daydreams about numbers and symbols. In time, his thoughts took a darker turn, and he became preoccupied with the idea that cars were following him, or that strangers wanted to harm him. Kurt's mind had been hijacked by schizophrenia, a severe mental disorder that typically strikes during the late teen or young adult years. In *Me, Myself, and Them*, Kurt, now an adult, looks back from the vantage point of recovery and eloquently describes the debilitating changes in thoughts and perceptions that took hold of his life during his teens and twenties. As a memoir, this book is remarkable for its unvarnished look at the slow and difficult process of coming back from severe mental illness. Yet Kurt's memoir is only half the story. With the help of psychiatrist Raquel E. Gur, M.D., Ph.D., and veteran science writer Linda Wasmer Andrews, Kurt paints the big picture for others affected by adolescent schizophrenia. Drawing on the latest scientific and medical evidence, he explains how to recognize warning signs, where to find help, and what treatments have proved effective. Kurt also offers practical advice on topics of particular interest to young people, such as suggestions on managing the illness at home, school, and work, and in relationships with family and friends. Part of the Adolescent Mental Health Initiative series of books written specifically for teens and young adults, *My, Myself, and Them* offers hope to young people who are struggling with schizophrenia, helping them to understand and manage the challenges of this illness and go on to lead healthy lives.

Next to Nothing : A Firsthand Account of One Teenager's Experience with an Eating Disorder Carrie Arnold, Psychiatry B. Timothy Walsh Chair, College of Physicians and Surgeons Columbia University, 2007-06-27 More than simple cases of dieting gone awry, eating disorders such as anorexia and bulimia are among the most fatal of mental illnesses, responsible for more deaths each year than any other psychiatric disorder. These illnesses afflict millions of young

people, especially women, all over the world. Carrie Arnold developed anorexia as an adolescent and nearly lost her life to the disease. In *Next to Nothing*, she tells the story of her descent into anorexia, how and why she fell victim to this mysterious illness, and how she was able to seek help and recover after years of therapy and hard work. Now an adult, Arnold uses her own experiences to offer practical advice and guidance to young adults who have recently been diagnosed with an eating disorder, or who are at risk for developing one. Drawing on the expertise of B. Timothy Walsh, M.D., one of America's leading authorities on eating disorders, she reveals in easy-to-understand terms what is known and not known medically about anorexia and bulimia. The book covers such difficult topics as how to make sense of a diagnosis, the various psychotherapies available to those struggling with an eating disorder, psychiatric hospitalization, and how to talk about these illnesses to family and friends. The result is both a compelling memoir and a practical guide that will help to ease the isolation that an eating disorder can impose, showing young people how to manage and maintain their recovery on a daily basis. Part of the Adolescent Mental Health Initiative series of books written specifically for teens and young adults, *Next to Nothing* will also be a valuable resource to the friends and family of those with eating disorders. It offers much-needed hope to young people, helping them to overcome these illnesses and lead productive and healthy lives.

Eight Stories Up DeQuincy Lezine,David Brent,2008-04-14 As a teenager, DeQuincy Lezine nearly ended his own life, believing it was the only way to escape the emotional pain that was overwhelming him. Instead, Lezine was able to find expert psychiatric care, and went on to found the first university campus-based chapter of the Suicide Prevention Action Network USA. Now a researcher at the University of Rochester's Center for the Study and Prevention of Suicide, Lezine has devoted his life to preventing suicide in adolescents, and he brings the wealth of his personal and professional experience to bear in *Eight Stories Up*. He starts by describing his deteriorating state of mind in college, using his own email archive to retell the episode that would nearly claim his life. He then offers hard-earned wisdom and practical advice to other young people who may be considering suicide. In straightforward, easy-to-understand language, and drawing on the psychiatric expertise of David Brent, MD, Lezine discusses the potential causes of suicide in adolescents, how to seek psychiatric treatment, and how to get the most out of professional help. He also surveys some of the therapies used to prevent suicide, how to talk to loved ones about suicidal thoughts, and how to stay healthy at home and at school. The result is both a remarkable memoir and a useful guide that will ease the isolation and hopelessness caused by thoughts of suicide, helping young people to overcome their troubles in a safe and healthy way. Part of the Adolescent Mental Health Initiative series of books written specifically for teens and young adults, *Eight Stories Up* offers hope to young people who are at risk of suicide, extending a lifeline of support and guidance that can save their lives.

What You Must Think of Me Emily Ford,Michael Liebowitz,Linda Wasmer Andrews,2007-07-10 We've all felt occasional

pangs of shyness and self-consciousness, but for the 15 million Americans with social anxiety disorder, the fear of being scrutinized and criticized can reach disabling proportions. Such was the case for Emily Ford, who shares her firsthand experiences in these pages. Emily's true story of fear, struggle, and ultimate triumph is sure to resonate with other socially anxious teenagers and young adults. Emily's frank, often witty, sometimes poignant account of how she negotiated all the obstacles of social anxiety--and eventually overcame them with the help of therapy and hard work--makes for compelling reading. Yet this book is more than just a memoir. Emily's story is coupled with the latest medical and scientific information about the causes, diagnosis, treatment, and self-management of social anxiety disorder (or SAD). Readers will find a wealth of solid advice and genuine inspiration here. In engaging, accessible language--and with the help of psychiatrist Michael Liebowitz--she discusses what is known and not known about social anxiety disorder in adolescents. She outlines the various psychotherapies available for those with SAD and explains how to seek professional help, how to talk to family and friends about the illness, and how to handle difficult social situations. The result is both an absorbing story and a useful guide that will help to ease the isolation caused by SAD, encouraging young people to believe that, with commitment and hard work, they can overcome this illness. The Transgender-Industrial Complex Scott Howard,2020-12-07 In his debut book, Nebraskan author Scott Howard exposes the actors financing the institutionalization of transgenderism. Behind the medical research into gender transitioning of children, ubiquitous pride parades, and Drag Queen Story Hours is a lot of money. Sex education, the homosexual and feminist precursor projects, and the global propaganda are all pushed and paid for by very wealthy and well-connected people with motive and will. Howard demonstrates that the transgender phenomenon is far from the grass-roots movement some of its advocates would have the public believe. Impeccably sourced and researched, *The Transgender-Industrial Complex* pulls the mask off the complex network of influential groups responsible for this inhuman project. Howard takes a deep dive into the murky depths of the Big Money behind Big Gay, exposing how the concept gained such recognition as well as the goals of the people behind it. At once wide-ranging and specific, advanced and accessible, *The Transgender-Industrial Complex* is essential reading for anyone who wants to understand why every institution with power, and a great many without, are uniform in their inversion of reality, their religion of lies, and their commitment to all that is ugly, broken, and foul. Antelope Hill is proud to present it's first original work: Scott Howard's *The Transgender-Industrial Complex*.

E-Cigarette Use Among Youth and Young Adults: a Report of the Surgeon General Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, U.S. Department of Health and Human Services, 2019-07-26 Tobacco use among youth and young adults in any form, including e-cigarettes, is not safe. In recent years, e-cigarette use by youth and young adults has increased at an alarming rate. E-cigarettes are now the most commonly used tobacco product among youth in the United States. This timely report highlights the rapidly changing patterns of e-cigarette use among youth and young adults, assesses what we know about the health effects of using these products, and describes strategies that tobacco companies use to recruit our nation's youth and young adults to try and continue using e-cigarettes. The report also outlines interventions that can be adopted to minimize the harm these products cause to our nation's youth. E-cigarettes are tobacco products that deliver nicotine. Nicotine is a highly addictive substance, and many of today's youth who are using e-cigarettes could become tomorrow's cigarette smokers. Nicotine exposure can also harm brain development in ways that may affect the health and mental health of our kids. E-cigarette use among youth and young adults is associated with the use of other tobacco products, including conventional cigarettes. Because most tobacco use is established during adolescence, actions to prevent our nation's young people from the potential of a lifetime of nicotine addiction are critical. E-cigarette companies appear to be using many of the advertising tactics the tobacco industry used to persuade a new generation of young people to use their products. Companies are promoting their products through television and radio advertisements that use celebrities, sexual content, and claims of independence to glamorize these addictive products and make them appealing to young people.
