Ever wondered how to combat the deep-seated urge to do wrong? Maybe Edgar Allen Poe can help. In "The Imp of the Perverse" (1845) Poe sets out to explain the Imp – the archetype

responsible for persuading us to do what we know in our minds we shouldn't. Poe, supposedly distraught with his own self-destructive impulses, lets the story take place primarily in the narrator's mind as he frets the day he will have to come clean. At the heart of this short story is the question of how far we can justify our wrongdoings. It explores our self-destructive impulses and urges, the abandonment of reason and our inherent wickedness. Join Poe as he takes the reader from the sunny valleys of reason to the darkest regions of the human soul. A descent into madness. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

A small advance group, led by Professor Lake, discovers the remains of fourteen prehistoric life-forms, previously unknown to science, and also unidentifiable as either plants or animals. Six of the specimens have been badly damaged, while another eight have been preserved in pristine condition. The specimens' stratum places them far too early on the geologic time scale for the features of the specimens to have evolved. Some fossils of Cambrian age show signs of the use of tools to carve a specimen for food. When the main expedition loses contact with Lake's party, Dyer and his colleagues investigate. Lake's camp is devastated, with the majority of men and dogs slaughtered, while a man named Gedney and one of the dogs are absent. Near the expedition's campsite, they find six star-shaped snow mounds with one specimen under each. They also discover that the better preserved life-forms have vanished, and that some form of dissection experiment has been done on both an unnamed man and a dog. The missing man is suspected of having gone utterly insane and having killed and mutilated all the others. H. P. (Howard Phillips) Lovecraft was an American author who achieved posthumous fame through his influential works of horror fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. Intellectually precocious but sensitive, Lovecraft had begun composing rudimentary horror tales and had begun to be overwhelmed by feelings of anxiety by the age of eight. In early adulthood he was established in a reclusive 'nightbird' lifestyle without occupation or pursuit of romantic adventures. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine, within a few years he was a regular contributor to newly founded *Weird Tales* magazine.

Sabrina has to face the Witches Council for an accusation of conspiring with a mortal against the Church of Night. Recruiting two other young witches (from a neighboring coven), Sabrina holds a séance, but as ever, Madame Satan is pulling the strings behind the scenes, and what Sabrina taps into is much more dangerous—and diabolical. And will send our beloved teen witch on an epic quest.

From the author of the New York Times best-selling graphic novel *Afterlife with Archie: Escape from Riverdale* comes the horror sensation *Chilling Adventures of Sabrina*. This title contains Roberto Aguirre-Sacasa's story so far, in addition to never-before-seen comic items and imagery from the Netflix series in a premium, over-sized hardcover format. Terror is born anew in this dark reimagining of Sabrina the Teenage Witch's origin, an occult coming-of-age thriller! On the eve of her sixteenth birthday, the young sorceress finds herself at a crossroads, having to choose between an unearthly destiny and her mortal boyfriend, Harvey. But a foe from her family's past has arrived in Greendale, Madame Satan, and she has her own deadly agenda. Heartbreaking, hilarious, and brutally honest, *Going There* is the deeply personal life story of a girl next door turned household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she's never shared, until now. Of the medium she loves, the one that made her a household name, she says, "Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is." Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn't afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest "get"—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric's position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her "welcome" was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn't happen. If you thought you knew Katie Couric, think again. *Going There* is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.
