We are sure to help you with this initiative of ours to build up a better future for you.

This book demonstrates how traditional knowledge can be connected to the modern world. Human knowledge of housing, health and agriculture dates back thousands of years, with old wisdom developing and becoming modern. But in the past few decades, global communities have increasingly become aware that some of this valuable knowledge has fallen by the wayside. This has sparked systematic efforts at the local, national and global levels to connect this neglected knowledge to the modern world. It discusses the origin of the topic, its importance, recent developments in India and abroad, and what is being done and still needs to be done in order to preserve India's traditional knowledge. The discussions address a broad range of fields and organizations: from Basmati rice to Ayurvedic cosmetics; from traditional irrigation and folk music to modern drug discovery and climate change adaptation; and from the Biodiversity Convention to the WHO, WTO and WIPO.

STRENGTHENING INDO-US RELATIONS Engineer and business executive, Mr. Niranjana Shamalbai Shah has accumulated many accomplishments over the years but his greatest challenge was when he was a child with a Bombay-dream, but no money for his college education. Yet he took a leap of faith, crossed thousands of miles and achieved the American-dream. Several years later, with hard-work and family support, he decided to bring his birth and adopted countries closer. Tough, yet he did it! How, he shares.

It is an absolute delight to present the new and improved issue of the Rajkot City Guide- Education Edition 2013. In this edition, we have incorporated many more schools, colleges, institutes and centers of learning than before. We have tried to dig out even those places hidden in obscure places but which provide quality education in this city. It has always been our endeavor to provide information of the highest order to our readers and to that end, we have pooled all our resources from across the board, spanning all our departments to bring out this latest edition of education that deals with everything and anything that a student or parent might need in order to acquire knowledge in the seat of education known as Rajkot. We have concentrated on the past and future of education in this edition since the present of the same is already done to death and now it is time, we believe, to look to our past, learn from it and proceed into the future for a brighter tomorrow awaits on the horizon.

Includes entries for maps and atlases.

SCIENCE AND EMPIRES: FROM THE INTERNATIONAL COLLOQUIUM TO THE BOOK Patrick PETITJEAN, Catherine JAMI and Anne Marie MOULIN The International Colloquium "Science and Empires - Historical Studies about Scientific Development and European Expansion" is the product of an International Colloquium, "Sciences and Empires - A Comparative History of Scientific Exchanges: European Expansion and Scientific Development in Asian, African, American and Oceanian Countries". Organized by the REHSEIS group (Research on Epistemology and History of Exact Sciences and Scientific Institutions) of CNRS (National Center for Scientific Research), the colloquium was held from 3 to 6 April 1990 in the UNESCO building in Paris. This colloquium was an idea of Professor Roshdi Rashed who initiated this field of studies in France some years ago, and proposed "Sciences and Empires" as one of the main research programmes for the project to organize such a colloquium was a bit REHSEIS group. of a gamble. Its subject, reflected in the title "Sciences and Empires", is not a currently-accepted sub-discipline of the history of science; rather, it refers to a set of questions which found autonomy only recently. The terminology was strongly debated by the participants and, as is frequently suggested in this book, awaits fuller clarification.

A brave British widow goes to Siam and—by dint of her principled and indomitable character—inspires that despotic nation to abolish slavery
