With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the President was forced to establish his own clandestine group--Covert-One--only activated as a last resort, when the threat is on a global scale and time is running out. In northern Uganda, an American special forces team is decimated by a group of normally peaceful farmers. Video of the attack shows even women and children possessing almost supernatural speed and strength, consumed with a rage that makes them immune to pain, fear, and all but the most devastating injuries. Covert-One's top operative, army microbiologist Colonel Jon Smith, is sent to investigate the attack and finds evidence of a parasitic infection that for centuries has been causing violent insanity and then going dormant. This time, though, it's different. The parasite had been purposely kept alive and crudely transmitted in acts of terrorism. Now the director of Iranian Intelligence is in Uganda trying to obtain this biological weapon to unleash it on the West. Smith and his team are ambushed and cut off from all outside support just as they begin to suspect that forces much more powerful than the Iranians are in play--forces that can be traced to Washington itself.

I'm a Hero. Created to fight Chaos. Sworn to act as Zeus' spear to avenge Olympus. And I need to fight harder. When death comes for those I love, I fight. And despite the radiant love of Apollo and the swelling love of Poseidon, I must find room to embrace war. That means getting close to Ares. To win a war you need allies you can trust and who trust each other. Apollo, Poseidon, and Ares don't see eye to eye at the best of times. Throw my deepening love for each of them into the mix and it seems impossible. I need to convince all of them we're on the same side, and war makes for strange bedfellows. Then there's Hades. He might be the key to our success, or the trigger for our doom. But he triggers the best and worst in me, and I can't help but melt into his darkness. Can a brooding vicious war god help me to fight this war across multiple fronts. Can the god of war even show love? Ares is Mine. Ares is Mine is book 3 in the Gods and Monsters series. GODS AND MONSTERS series#1 Apollo Is Mine#2 Poseidon Is Mine#3 Ares Is Mine#4 Hades Is Mine "Herliany's poetry is intent upon opposing personal and political oppression. She does not attempt to mend, her poetry does not offer a vision of a final Utopia. Instead, it takes the first step towards change by waking, inciting, shattering." (Poet, Annie Kantar.).

Remarkable achievements in parasitic disease research, both basic and translational, have occurred over the last ten

years, and we have incorporated the majority of these into the 6th edition of Parasitic Diseases. We have added over 1,000 new references to document these advances. Innovative work in the laboratory has provided the clinician/research scientist with a much clearer understanding of the mechanisms of pathogenesis. The number of recently discovered interleukins and their cellular networks has completely re-ordered our comprehension of how parasites and our defense system works to produce protection against infection/reinfection, or in some cases, how it becomes subverted by the offending pathogen to enable it to endure inside us for long periods of time. A plethora of molecular-based diagnostic tests have found their way into the routine of the parasitology diagnostic laboratory, improving the ease at which the offending pathogen can be rapidly identified. Newer drugs, many with less harmful side-effects than the ones they replaced, have come on the market that make controlling parasite populations at the community level possible without the risk of harming the very ones we wish to help.

Repositioning Shakespeare offers an original assessment of a broad range of texts and cultural events that appropriate Shakespeare. Examining these materials within the context of 'the nation' in a postcolonial era, Thomas Cartelli considers: * essays by Walt Whitman * the nineteenth-century play, 'Jack Cade' * novels by Aphra Behn, Ngugi Wa Thiong'o, Michelle Cliff,

Tayeb Salih, Nadine Gordimer and Robert Stone * the 1849 Astor Place Riot Cartelli places particular emphasis on redefining the 'postcolonial' in order to find a place for America. In doing so, Repositioning Shakespeare makes a considerable contribution to the continuing debate about the uses we make of Shakespeare.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. Saudi-born author Keija Parssinen's stunning debut offers the intricate, emotionally resonant story of an American expatriate who

discovers that her husband, a Saudi billionaire, has taken a second bride—an emotionally turbulent revelation that blinds them both to their teenaged son's ominous first steps down the road of radicalization. Readers of *The Septembers of Shiraz* will be captivated by Parssinen's story of love and betrayal, fundamentalism, family and country in the Middle East. Anthony Swofford, author of *Jarhead*, hails Parssinen's characters as "richly conceived, and her evocative petrol universe of wealth, privilege, and intrigue is unforgettable," characterizing *The Ruins of Us* as having "powerful storytelling that is refreshing and entertaining." Like *The Group*, Mary McCarthy's classic tale about coming of age in New York, Joanna Smith Rakoff's richly drawn and immensely satisfying first novel details the lives of a group of Oberlin graduates whose ambitions and friendships threaten to unravel as they chase their dreams, shed their youth, and build their lives in Brooklyn during the late 1990s and the turn of the twenty-first century. There's Lil, a would-be scholar whose marriage to an egotistical writer initially brings the group back together (and ultimately drives it apart); Beth, who struggles to let go of her old beau Dave, a onetime piano prodigy trapped by his own insecurity; Emily, an actor perpetually on the verge of success -- and starvation -- who grapples with her jealousy of Tal, whose acting career has taken off. At the center of their orbit is wry, charismatic Sadie Peregrine, who coolly observes her friends' mistakes but can't quite manage to avoid making her own. As they begin their careers, marry, and have children, they must navigate the shifting dynamics of their friendships and of the world around them. Set against the backdrop of the vast economic and political changes of the era -- from the decadent age of dot-com millionaires to the sobering post-September 2001 landscape -- Smith Rakoff's deeply affecting characters and incisive social commentary are reminiscent of the great Victorian novels. This brilliant and ambitious debut captures a generation and heralds the arrival of a bold and important new writer.

"My heart wandered through the world constantly seeking after my cure, but the sweet and delicious water of life had to break through the

granite of my heart." When the words of Rumi enter your heart, something softens, breaks, and is subtly reborn. That he wrote the words seven hundred years ago in a medieval Persian world that bears little resemblance to ours makes their uncanny resonance to us today just that much more remarkable. Here is a treasury of daily wisdom from this most beloved of all the Sufi masters—both his prose and his ecstatic poetry—that you can use to start every day for a year, or that you can dip into for inspiration any time you need to break through the granite of your heart.
