International Bestseller One of the most anticipated books of 2017: The Millions, CBC, Chatelaine, Globe and Mail, Maclean's From the author of The Bear, the enthralling story of two women separated by millennia, but linked by an epic journey that will transform them both Forty thousand years in the past, the last family of Neanderthals roams the earth. After a crushingly hard winter, their numbers are low, but Girl, the oldest daughter, is just coming of age and her family is determined to travel to the annual meeting place and find her a mate. But the unforgiving landscape takes its toll, and Girl is left alone to care for Runt, a foundling of unknown origin. As Girl and Runt face the coming winter storms, Girl realizes she has one final chance to save her people, even if it means sacrificing part of herself. In the modern day, archaeologist Rosamund Gale works well into her pregnancy, racing to excavate newly found Neanderthal artifacts before her baby comes. Linked across the ages by the shared experience of early motherhood, both stories examine the often taboo corners of women's lives. Haunting, suspenseful, and profoundly moving, THE LAST NEANDERTHAL asks us to reconsider all we think we know about what it means to be human.

The physical properties of ultrasound, particularly its highly directional beam behaviour, and its complex interactions with human tissues, have led to its becoming a vitally important tool in both investigative and interventional medicine, and one that still has much exciting potential. This new edition of a well-received book treats the phenomenon of ultrasound in the context of medical and biological applications, systematically discussing fundamental physical principles and concepts. Rather than focusing on earlier treatments, based largely on the simplifications of geometrical acoustics, this book examines concepts of wave acoustics, introducing them in the very first chapter. Practical implications of these concepts are explored, first the generation and nature of acoustic fields, and then their formal descriptions and measurement. Real tissues attenuate and scatter ultrasound in ways that have interesting relationships to their physical chemistry, and the book includes coverage of these topics. Physical Principles of Medical Ultrasonics also includes critical accounts and discussions of the wide variety of diagnostic and investigative applications of ultrasound that are now becoming available in medicine and biology. The book also encompasses the biophysics of ultrasound, its practical applications to therapeutic and surgical objectives, and its implications in questions of hazards to both patient and operator.

It is 30,000 years ago, the final Ice Age of the Pleistocene Epoch. The earth is peopled by Neanderthal--squat, bow-legged, nonverbal. They live in clans, exist by foraging, and are ruled by taboos. The Cro-Magnons, the people who will replace them, are just emerging.

A literary phenomenon, Jean M. Auel's prehistoric odyssey is one of the best-loved sagas of our time. Employing meticulous research and the consummate artistry of a master storyteller, Auel paints a vivid panorama of the dawn of modern humans. Through Ayla, an orphaned girl who grows into a beautiful and courageous young woman, we are swept up in the harsh and beautiful Ice Age world, home to the Clan of the Cave Bear. Now, for the first time, all six novels in the Earth's Children® series are available in one convenient eBook bundle: **THE CLAN OF THE CAVE BEAR THE VALLEY OF HORSES THE MAMMOTH HUNTERS THE PLAINS OF PASSAGE THE SHELTERS OF STONE THE LAND OF PAINTED CAVES** A natural disaster leaves a young girl wandering alone in an unfamiliar and dangerous land until she is found by a woman of the Clan, people very different from her own kind. From the violent panorama of spring on the steppes to musicians jamming on a mammoth-bone marimba, Auel's books are a stunning example of world building. They join the short list of books, like James Clavell's *Shogun* and Frank Herbert's *Dune*, that depict exotic societies so vividly that readers almost regard them as 'survival manuals.' "—Vogue "Jean Auel has established herself as one of our premier storytellers. . . . Her narrative skill is supreme."—Chicago Tribune "Pure entertainment at its sublime, wholly exhilarating

best.”—Los Angeles Times “Readers who fell in love with little Ayla will no doubt revel in her prehistoric womanhood.”—People “Lively and interesting, enhanced greatly by the vividly colored backdrop of early humanity . . . Auel is a prodigious researcher.”—The Washington Post Book World “Among modern epic spinners, Auel has few peers. . . . She deftly creates a whole world, giving a sense of the origins of class, ethnic, and cultural differences that alternately divide and fascinate us today.”—Kirkus Reviews (starred review)

#1 NEW YORK TIMES BESTSELLER • In this, the extraordinary conclusion of the ice-age epic series, Earth’s Children®, Ayla, Jondalar, and their infant daughter, Jonayla, are living with the Zelandonii in the Ninth Cave. Ayla has been chosen as an acolyte to a spiritual leader and begins arduous training tasks. Whatever obstacles she faces, Ayla finds inventive ways to lessen the difficulties of daily life, searching for wild edibles to make meals and experimenting with techniques to ease the long journeys the Zelandonii must take while honing her skills as a healer and a leader. And there are the Sacred Caves that Ayla’s mentor takes her to see. They are filled with remarkable paintings of mammoths, lions, and bears, and their mystical aura at times overwhelms Ayla. But all the time Ayla has spent in training rituals has caused Jondalar to drift away from her. The rituals themselves bring her close to death, but through them Ayla gains A Gift of Knowledge so important that it will change her world. **BONUS:** This edition contains a reading guide and an interview with Jean M. Auel. Sixth in the acclaimed Earth’s Children® series.

A small tribe of Neanderthals find themselves at odds with a tribe comprised of homo sapiens, whose superior intelligence and agility threatens their doom.

The story of Ayla begins when, as a five-year-old orphan, she is adopted by the Clan, a group of Neanderthals. Initially she inspires surprise, then wariness and finally acceptance by the Clan. She is cared for by its medicine woman, Iza, and its wise holy man, Creb. But she makes an implacable enemy of the group's future leader, Broud. He will do all he can to destroy her - but Ayla is a survivor. Jean Auel's imaginative reconstruction of pre-historic life, rich in detail of language, culture, myth and ritual, has become a set text in schools and colleges around the world.

Set in the challenging terrain of Ice Age Europe that millions of Jean Auel’s readers have come to treasure, The Mammoth Hunters is an epic novel of love, knowledge, jealousy, and hard choices—a novel certain to garner Jean Auel even greater acclaim as a master storyteller of the dawn of humanity. Ayla, the independent heroine of The Clan of the Cave Bear and The Valley of Horses, sets out from the valley on Whinney, the horse she tamed. With her is Jondalar, the tall, handsome, yellow-haired man she nursed back to health and came to love. Together they meet the Mamutoi—the Mammoth Hunters—people like Ayla. But to Ayla, who was raised by the Clan of the Cave Bear, they are “the Others.” She approaches them with mixed feelings of fear and curiosity. Talut, a powerful bear of a man with bright red hair, a booming laugh, and a gentle heart, and his tall, dark-haired sister, Tulie, are the leaders of the Lion Camp of the Mamutoi. It is here that Ayla finds her first women friends, but some among the Mamutoi dislike Ayla because she was raised by “flatheads,” their name for the people of the Clan. Ayla is haunted by her memories of the Clan because Rydag, a child of mixed parentage living with the Mamutoi, bears so strong a resemblance to her own son, Durc. It is the Mamutoi master carver of ivory—dark-skinned Ranec, flirtatious, artistic, magnetic—who fascinates Ayla. She finds herself drawn to him. Because of her uncanny control over animals, her healing skills, and the magic firestone she discovered, Ayla is adopted into the Mammoth Hearth by Mamut, the ancient shaman of the Great Earth Mother. Ayla finds herself torn

between her strong feelings for Ranec and her powerful love for the wildly jealous and unsure Jondalar. It is not until after the great mammoth hunt, when Ayla's life is threatened, that a fateful decision is made. First novel in Jean M. Auel's magnificent epic of life 35,000 years ago when two kinds of human beings, Neanderthal and Cro-Magnon, shared the earth.

"A lushly written, dream-like modern gothic with as many dark turns and twists as the Montebianco family tree has branches. Welcome to the family." – Paul Tremblay, bestselling author of *Survivor Song* After a DNA test reveals that Alberta "Bert" Monte is the sole heir of a wealthy noble family in the Italian Alps, she leaves New York to visit the family estate: Montebianco Castle, a centuries-old compound isolated in the mountains. What appeared to be a fairy tale inheritance, however, soon turns into a nightmare as Bert begins to uncover the dark legacy of her family: the truth about the abandoned village at the base of the castle; the whispers of stolen children; and the rumors of a legendary monster in

the mountains. As Bert unravels the truth, she learns that her true inheritance lies not in a noble title or ancestral treasures, but in her very genes, and now she must choose between preserving a secret centuries in the keeping or abandoning it forever. "Vivid and uncanny...makes the most of Trussoni's signature blend of science, myth, and mystery." —Deborah Harkness, bestselling author of *A Discovery of Witches* "Inventive and entertaining." — People "A Gothic Extravaganza." —Kirkus

Lily Shield, now a wife and mother herself, still has trouble coming to terms with her mother's suicide when Lily was a young girl living in Hawaii

"A whole culture is imaginatively and authoritatively illuminated" in this "suspenseful, insightful, poignant" novel of prehistoric times (Publishers Weekly). Twenty thousand years ago, a courageous girl lived in Siberia near Woman Lake, a place you won't find on any modern map. Only thirteen, Yanan and her companions—hunters of deer, gatherers of roots and twigs—struggle to survive the harsh realities of hunger and cold, bound by an unending cycle of birth, kinship, violence, and death. As Yanan recounts the terrible adventures of her brief life, she departs on spirit journeys that evoke the lives of the animals to which she and her people are intimately linked. A lyrical novel of our species' prehistory, *Reindeer Moon* opens up corridors to the imagination that lead us back to the long-forgotten echoes of our distant human past. "Unforgettable . . . *Reindeer Moon* beautifully resurrects a lost world of merciless magnificence. Dozens of memorable characters live and die in this moving tale, which should become a classic." —Chicago Tribune Book World

"Those familiar with the author's landmark study, *The Harmless People*, will not be surprised at the range of anthropological information she brings to her first novel, or at the lucidity of her prose. What will astonish, engross and move readers in her narrative of a group of hunter-gatherers who lived 20,000 years ago is the dramatic immediacy of the story and the depth and range of character development." —Publishers Weekly

After being cast out of the Clan that had adopted her as a child by the new leader, Ayla shares a lonely valley with a herd of steppe ponies, harnesses their power, and discovers speech and love with Jondalar, a member of her own race.
