Mike Mueller

Classic Chevrolet Dealerships: Selling the Bowtie Jon Robinson, Since its founding in 1912, Chevrolet has weathered the Great Depression, two World Wars, confused markets, and fuel crises to become an American motoring icon. Chevy's success would not have been possible without the network of dealerships that sold and marketed the company's cars and trucks, first to wary customers unconvinced of the new contraptions' practicality, then to nine decades of consumers ranging from cash-strapped, to cash-flush, to confused, to increasingly fuel-conscious. This book examines that network by profiling several longstanding dealerships that have thrived and sometimes just barely survived on the frontlines of the car business. Readers will be entertained by anecdotes of early dealerships that took livestock and crops as trade-ins, coped with and thrived under Chevy's stringent Quality Dealer Program in the 1930s, weathered World War II on the income generated by service departments, and corrected backward engineering of the immediate postwar era. Specific Dealerships featured include: William L. Morris (Fillmore, California); Whitney's (Montesano, Washington); Webster Motors (Cody, Wyoming); Felix (Los Angeles, California); Holz (Janesville, Wisconsin); Smith (Atlanta, Georgia); Mandeville (North Attleboro, Massachusetts); and Culberson-Stowers (Pampas, Texas)

Everyday Information William Aspray, Barbara M. Hayes, 2011-03-04 An intimate, everyday perspective on information-seeking behavior, reaching into the social context of American history and American homes. All day, every day, Americans seek information. We research major purchases. We check news and sports. We visit government Web sites for public information and turn to friends for advice about our everyday lives. Although the Internet influences our information-seeking behavior, we gather information from many sources: family and friends, television and radio, books and magazines, experts and community leaders. Patterns of information seeking have evolved throughout American history and are shaped by a number of forces, including war, modern media, the state of the economy, and government regulation. This book examines the evolution of information seeking in nine areas of everyday American life. Chapters offer an information perspective on car buying, from the days of the Model T to the present; philanthropic and charitable activities; airline travel and the complex layers of information available to passengers; genealogy, from the family Bible to Ancestry.com; sports statistics, as well as fantasy sports leagues and their fans' obsession with them; the multimedia universe of gourmet cooking; governmental and publicly available information; reading, sharing, and creating comics; and text messaging among young people as a way to

exchange information and manage relationships. Taken together, these case studies provide a fascinating window on the importance of information in the past century of American life.

Collisions at the Crossroads Genevieve Carpio,2019-04-16 There are few places where mobility has shaped identity as widely as the American West, but some locations and populations sit at its major crossroads, maintaining control over place and mobility, labor and race. In *Collisions at the Crossroads*, Genevieve Carpio argues that mobility, both permission to move freely and prohibitions on movement, helped shape racial formation in the eastern suburbs of Los Angeles and the Inland Empire throughout the nineteenth and twentieth centuries. By examining policies and forces as different as historical societies, Indian boarding schools, bicycle ordinances, immigration policy, incarceration, traffic checkpoints, and Route 66 heritage, she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others. Highlighting the ways people of color have negotiated their place within these systems, Carpio reveals a compelling and perceptive analysis of spatial mobility through physical movement and residence.

In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women's admiration and passion for American muscle, and reveals how restoring, showing and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

Selling the American Muscle Car Diego Rosenberg,2016-10-14 As the muscle car wars developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Automotive writer Diego Rosenberg examines the tactics and components used by manufacturers in waging war against one another in the muscle car era. Manufacturers poured millions into racing programs, operating under the principle of Win on Sunday, Sell on Monday. Cars were given catchy nicknames, such as The GTO Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Entire manufacturer lines were given catchy marketing campaigns, such as Dodge's Scat Pack, AMC's Go Package, and Ford's Total Performance. From racing to commercials to print ads, from dealer showrooms to national auto shows, each manufacturer had its own approach in vying for the buyer's attention, and gimmicks and tactics ranged from comical to dead serious. Selling the American Muscle Car: Marketing Detroit Iron in the 60s and 70s takes you back to an era when options were plentiful and performance was cheap. You will relive or be introduced to some of the cleverest marketing campaigns created during a time when America was changing every day.

The Age of the Muscle Car Clay Fees,2022-01-31 A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.

Chevy Drag Racing 1955-1980: A Celebration of Bowtie's Success at the Drag Strip Doug Boyce,2020-03-15 Relive the glorious first 25 years of Chevy drag racing in this comprehensive and nostalgic history. With the introduction of Chevy's OHV V-8 in 1955, the brand's domination on the drag strip immediately snowballed. Drag racers loved the compact V-8. It was lightweight, revved high, and responded like no other engine previously produced to modification. Chevy saw a record year in sales in 1955, thanks to a combination of a restyled body and the new mill. It was the age of ingenuity, and those who could get their hands on the new engine were swapping it into engine bays that once housed other weaker mills. Ford's flathead, one that had dominated for so long, was rendered obsolete almost overnight. Chevy had a winner and dominated the sales charts for years to come. Aftermarket manufacturers got on board and offered up all the go-fast goodies needed to make Chevy a winner, no matter what category they ran. From Dragsters to Stock, Chevy's success was immediate. And it was a long-term success, thanks to a combination of years of great styling and a vast array of driveline combinations. Accomplished racing author Dour Boyce takes a celebratory look at those years of success, with a focus on the first 25 years (1955 through 1980). Chevrolets gave rise to such stars as Bill "Grumpy" Jenkins, "Jungle Jim" Liberman, "Sneaky Pete" Robinson, "Dyno" Don Nicholson, Sox & Martin, Dick Harrell, Dave Strickler, and many more. World champs and fan favorites all drove Chevys. The success showed in the record books. No brand has won more races and events or has set more national records than Chevrolet. And unlike the other manufacturers, Ford and Chrysler, it was done with little to no factory support. Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age, this nostalgic look at Chevy racing history is sure to entertain for hours on end.
