Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

From the #1 New York Times bestselling author of the Joe Pickett series comes a thrilling collection of suspense stories about the Wyoming he knows so well—and the dark deeds and impulses that can be found there... C. J. Box has been hailed for his brilliant storytelling, with a style rich in character, suspense, and sense of place. That same brilliance is exemplified in the ten riveting stories—three of them never before published—that make up Shots Fired. In “One-Car Bridge,” one of four Joe Pickett stories, Pickett goes up against a just plain mean landowner, with disastrous results. In “Shots Fired,” his investigation into a radio call nearly ends up being the last thing he ever does. “Pirates of Yellowstone,” features two Eastern European tough guys who find out what it means to be strangers in a strange land, and in “Le Sauvage Noble,” the stranger is a Lakota in Paris who enjoys playing the noble savage for the French women—until he meets Sophie. Then he discovers what savage really means.... Shots Fired is proof once again why “Box is a force to be reckoned with” (The Providence Journal-Bulletin).

Lonely when his family vacations without him, Clifford, a giant red dog, overcomes wet cement, traffic jams, and toll bridges to rejoin them in the mountains.

Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.
