

Collins Instant Revision Gcse Geography

Philip's Essential School Atlas has been specially created for lower-secondary geography students (11-14 year olds). It is ideal for work leading up to GCSE (England and Wales) National Curriculum Key Stage 3, and Scotland's National Qualifications. The maps have been carefully designed so they are uncluttered and easy to read, containing specially selected place names and detail. A clear set of symbols and scale information accompanies each map and there is a useful introductory section covering basic atlas skills, including aerial photographs and satellite images to further explain particular features on the maps. Fully up-to-date, the atlas comprises a 16-page UK and Ireland section and a 42-page World section. Detailed regional maps, charts and satellite images of Europe, Italy, the Middle East, China, Japan, Kenya, USA, Brazil, and the Arctic and Antarctica are included, focusing on areas of special interest for students of geography, such as Japan's volcanoes and earthquakes, conservation in Kenya, and water supply in the USA. Philip's Essential School Atlas is ideal for special project work, featuring an informative section of world thematic maps on the environment, climate change, people, quality of life, and energy. Latitude and longitude co-ordinates are included in the index, alongside figure-letter references.

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

World Geography provides a coherent and organized geography of the world as we now know it - where we are. It studies how people are distributed over the earth, how they make their living from it, and how they transform it. Various geographical regions of the world have been discussed in eighteen chapters with individual nations within each of these regions. Written in a logical, cogent and convincing style, the principles of brevity and clarity have been followed all through the book. Combining informative text with a wealth of latest data, maps and illustrations, this attempt offers a comprehensive coverage of almost all the countries of the world in a single volume. It is hoped that this compact, yet wide-ranging, account will be of immense help to the students and teachers alike.
