

Colorado Blue Book Voting Guide

The story of Pecola Breedlove profiles an eleven-year-old African-American girl growing up in an America that values blue-eyed blondes and the tragedy that results from her longing to be accepted. A step-by-step guide to every American's most fundamental right and civic duty —just in time for the 2020 presidential election. Nothing is more important to the health of a democracy than the right to vote. Yet less than half of eligible voters routinely show up to the polls. Part of the problem is that the basics of the process we use to choose our elected leaders remain shrouded in mystery for many Americans. In *What You Need to Know About Voting—and Why*, law professor and constitutional scholar Kimberly Wehle unravels that mystery, offering practical, useful advice on the mechanics of voting and an enlightening survey of its history and future. What is a primary? How does the electoral college work? Who gets to cast a ballot and why? Wehle answers these questions and more in a clear, engaging, and conversational tone. From where and how to register in the various states to how to change your registration when you move, this indispensable book outlines the necessary steps to take to become an active participant in the electoral process. For new voters, would-be voters, young people looking ahead to the next election, and those seeking citizenship,

Get Free Colorado Blue Book Voting Guide

What You Need to Know About Voting—and Why is a timely and informative guide, providing the background you need in order to make informed choices that will shape our shared destiny for decades to come.

“Wegman combines in-depth historical analysis and insight into contemporary politics to present a cogent argument that the Electoral College violates America’s ‘core democratic principles’ and should be done away with...” —Publishers Weekly The framers of the Constitution battled over it.

Lawmakers have tried to amend or abolish it more than 700 times. To this day, millions of voters, and even members of Congress, misunderstand how it works. It deepens our national divide and distorts the core democratic principles of political equality and majority rule. How can we tolerate the Electoral College when every vote does not count the same, and the candidate who gets the most votes can lose? Twice in the last five elections, the Electoral College has overridden the popular vote, calling the integrity of the entire system into question—and creating a false picture of a country divided into bright red and blue blocks when in fact we are purple from coast to coast. Even when the popular-vote winner becomes president, tens of millions of Americans—Republicans and Democrats alike—find that their votes didn't matter. And, with statewide winner-take-all rules, only a handful of battleground

Get Free Colorado Blue Book Voting Guide

states ultimately decide who will become president. Now, as political passions reach a boiling point at the dawn of the 2020 race, the message from the American people is clear: The way we vote for the only official whose job it is to represent all Americans is neither fair nor just. Major reform is needed—now. Isn't it time to let the people pick the president? In this thoroughly researched and engaging call to arms, Supreme Court journalist and New York Times editorial board member Jesse Wegman draws upon the history of the founding era, as well as information gleaned from campaign managers, field directors, and other officials from twenty-first-century Democratic and Republican presidential campaigns, to make a powerful case for abolishing the antiquated and antidemocratic Electoral College. In *Let the People Pick the President* he shows how we can at long last make every vote in the United States count—and restore belief in our democratic system. Do you feel like you're the only person at your office without an "I Voted!" sticker on Election Day? It turns out that you're far from alone - 100 million eligible U.S. voters never went to the polls in 2016. That's about 35 million more than voted for the winning presidential candidate. In this book, Christopher Freiman explains why these 100 million need not feel guilty. *Why It's OK to Ignore Politics* argues that you're under no obligation to be politically active. Freiman addresses new objections to political

Get Free Colorado Blue Book Voting Guide

abstention as well as some old chestnuts ("But what if everyone stopped voting?"). He also synthesizes recent empirical work showing how our political motivations distort our choices and reasoning. Because participating in politics is not an effective way to do good, Freiman argues that we actually have a moral duty to disengage from politics and instead take direct action to make the world a better place. Key Features: Makes the case against a duty of political participation for a non-expert audience Presupposes no knowledge of philosophy or political science and is written in a style free of technical jargon Addresses the standard, much-repeated arguments for why one should vote (e.g., one shouldn't free ride on the efforts of others) Presents the growing literature on politically motivated reasoning in an accessible and entertaining way Covers a significant amount of new ground in the debate over a duty of political participation (e.g., whether participating absolves us of our complicity in state injustice) Challenges the increasingly popular argument from philosophers and economists that swing state voting is effective altruism Discusses the therapeutic benefits of ignoring politics--it's good for you, your relationships, and society as a whole. An expert on US election law presents an encouraging assessment of current efforts to make our voting system more accessible, reliable, and effective. In contrast to the anxiety surrounding our

Get Free Colorado Blue Book Voting Guide

voting system, with stories about voter suppression and manipulation, there are actually quite a few positive initiatives toward voting rights reform. Professor Joshua A. Douglas, an expert on our electoral system, examines these encouraging developments in this inspiring book about how regular Americans are working to take back their democracy, one community at a time. Told through the narratives of those working on positive voting rights reforms, Douglas includes chapters on expanding voter eligibility, easing voter registration rules, making voting more convenient, enhancing accessibility at the polls, providing voters with more choices, finding ways to comply with voter ID rules, giving redistricting back to the voters, pushing back on big money through local and state efforts, using journalism to make the system more accountable, and improving civics education. At the end, the book includes an appendix that lists organizations all over the country working on these efforts. Unusually accessible for a lay audience and thoroughly researched, this book gives anyone fed up with our current political environment the ideas and tools necessary to affect change in their own communities.

This book provides a big picture of the key wireless industries, what systems and technologies they use, how they operate, their market trends, and what services they provide. If you are involved or you are

Get Free Colorado Blue Book Voting Guide

getting involved in the wireless industry, your life is changing. The growth and decline of wireless industries can be well over 40% per year and it rapidly changes. Some wireless systems that were "hot technologies" just 10 years ago with billions of dollars in investment with national or global presence are simply gone. This information covered in this book ranges from the basics to what's new in wireless. You will learn that each wireless industry has its own unique advantages and limitations, which offer important economic and technical choices for managers, salespeople, technicians, and others involved with wireless telephones and systems. This book provides the background for a good understanding of the major wireless technologies, issues, and options available. The book starts with a basic introduction to wireless communication. It covers the different types of industries, who controls and regulates them, and provides a basic definition of each of the major wireless technologies. A broad overview of the telecom voice, data, and multimedia applications is provided. You will discover the fundamentals of wireless technologies and their terminology are described along with how the radio frequency spectrum is divided, the basics of radio frequency transmission and modulation, antennas and radio networks. The different types of analog and digital mobile telephone systems and their evolution are

Get Free Colorado Blue Book Voting Guide

covered. Included is the basic operation, attributes and services for analog cellular(1st generation), digital cellular (2nd generation), packet based cellular (2 = generation), and wideband cellular (3rd generation) communication systems. Private land mobile radio (PLMR) dispatch and two-way radio systems are explained along with how they are changing from proprietary analog systems to advanced digital multimedia communication systems. The basics of mobile data are provided along with the available types of packet and circuit switched data systems and how they operate. Descriptions of paging systems are provided and you will discover how paging systems are evolving from one-way numeric messaging to two-way interactive information services. Important characteristics of satellite systems are covered. An overview of fixed wireless systems including point to point microwave, wireless cable, and broadband wireless is included. The fundamentals of radio and television broadcast systems are covered along with how they are converting from analog to digital systems and why in just a few years service to existing radios and telephones will stop. The fundamentals of residential cordless, public cordless and WPBX telephone systems covered. Wireless local area networks (WLANs) basics are provided including the different versions of 802.11. Short-range Bluetooth wireless is explained along with how

it is used by accessories such as headsets, keyboards, cameras, and printers. The fundamentals of billing and customer care systems are provided along with these systems collect and process service and usage charges.

The Colorado River Basin's importance cannot be overstated. Its living river system supplies water to roughly forty million people, contains Grand Canyon National Park, Bears Ears National Monument, and wide swaths of other public lands, and encompasses ancestral homelands of twenty-nine Native American tribes. John Wesley Powell, a one-armed Civil War veteran, explorer, scientist, and adept federal administrator, articulated a vision for Euro-American colonization of the "Arid Region" that has indelibly shaped the basin—a pattern that looms large not only in western history, but also in contemporary environmental and social policy. One hundred and fifty years after Powell's epic 1869 Colorado River Exploring Expedition, this volume revisits Powell's vision, examining its historical character and its relative influence on the Colorado River Basin's cultural and physical landscape in modern times. In three parts, the volume unpacks Powell's ideas on water, public lands, and Native Americans—ideas at once innovative, complex, and contradictory. With an eye toward climate change and a host of related challenges facing the basin, the volume turns to the future, reflecting on how—if at all—Powell's legacy

Get Free Colorado Blue Book Voting Guide

might inform our collective vision as we navigate a new “Great Unknown.”

During the 2016 presidential election, America's election infrastructure was targeted by actors sponsored by the Russian government. *Securing the Vote: Protecting American Democracy* examines the challenges arising out of the 2016 federal election, assesses current technology and standards for voting, and recommends steps that the federal government, state and local governments, election administrators, and vendors of voting technology should take to improve the security of election infrastructure. In doing so, the report provides a vision of voting that is more secure, accessible, reliable, and verifiable.

America may be the most election-crazed nation in the world, boasting roughly 500,000 elected positions nationwide. Americans use elections not only to select candidates, but to directly change government policy as well. *Campaign Rules* provides political activists, researchers, and all citizens an easy-to-use reference tool to help sort out the dizzying breadth of state-based electoral rules. Companion volume to *The Country Diary of a New Zealand Lady*. Written in a style engaging to the general reader, *The Country Camera* focuses on definitive aspects of the birds' daily lives and expands on the subject photographically. The images are intimate, captured in a setting privileged

Get Free Colorado Blue Book Voting Guide

by its remoteness and explored with a fascination from which we all benefit. A wealth of knowledge is casually gleaned and artistic appreciation satisfied. On the farm and in the country garden, photographic studies are made of over forty species of bird found in New Zealand, beginning with the rare bittern and ending on the notes of a tui.

Who says politics isn't sexy? PATRICK BLANCO wants nothing more than a chance at the presidency, and he's willing to do anything to get it. At just thirty-eight-years-old, Patrick is already one of the youngest and most successful senators in the country, but he's destined for more. Much more. When the cold winds of the New Hampshire primary blow in his favor, his campaign kicks into overdrive. So does his love life. ALEXANDRA JONES knows that working on Patrick's election could be the job she needs to prove herself in Washington, DC. Win with him, and her life will change forever. She just didn't count on something---her growing attraction to her boss. Pretty soon, she can't deny it. Neither can he. As Patrick and his team head to South Carolina, life gets complicated. This is politics, after all. Secrets don't stay secret for long. Everything has a price. Everyone has a motive. There's no time for love. Or is there?

Builds on the tradition of Kevin Phillips's *The Emerging Republican Majority*, forecasting a

Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation’s highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune’s Spear, which leads

Get Free Colorado Blue Book Voting Guide

to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man’s bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama’s conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

Tad McGreevy has a power that he has never revealed, not even to his life-long best friend, Stevie Scranton. When Tad looks at others, he sees colors. These auras tell Tad whether a person is good or evil. At night, Tad dreams about the evil-doers, reliving their crimes in horrifyingly vivid detail. But Tad doesn't know if the evil acts he witnesses in his nightmares are happening now, are already over, or are going to occur in the future. He has no control over the horrifying visions. He has been told (by his parents) never to speak of his power. All Tad knows is that he wants to protect those he loves. And he

wants the bad dreams to stop.

What does a college have to do with presidential elections? If it's the electoral college, a lot! Readers learn all about the electoral college and how it plays a part in our elections.

Wave your flags! It's time to vote! Election Day is right around the corner in the latest big moment to be celebrated in Natasha Wing's best-selling series. Yes! It's almost here. And the big question is: Who will be our next president? Will our leader be a he or a she? A young citizen gives her take on politics and Election Day in this charming story told in the style of Clement C. Moore's holiday poem.

Learn all about the history of voting rights in the United States—from our nation's founding to the present day—in this powerful picture book from the New York Times bestselling author of *The Pout-Pout Fish*. A right isn't right till it's granted to all... The founders of the United States declared that consent of the governed was a key part of their plan for the new nation. But for many years, only white men of means were allowed to vote. This unflinching and inspiring history of voting rights looks back at the activists who answered equality's call, working tirelessly to secure the right for all to vote, and it also looks forward to the future and the work that still needs to be done.

Picking up where the New York Times bestselling *Front Row at the Trump Show* left off, this is the explosive look at the aftermath of the election—and the events that followed Donald Trump's leaving the White House—from ABC News' chief Washington correspondent. Nobody is in a better position to tell the story of the shocking final chapter of the Trump show than Jonathan Karl. As the reporter who has known Donald Trump longer than any other White House correspondent, Karl told the story of Trump's rise in the New York Times bestseller *Front Row at the Trump Show*. Now he tells the story of Trump's downfall, complete with riveting behind-the-

Get Free Colorado Blue Book Voting Guide

scenes accounts of some of the darkest days in the history of the American presidency and packed with original reporting and on-the-record interviews with central figures in this drama who are telling their stories for the first time. This is a definitive account of what was really going on during the final weeks and months of the Trump presidency and what it means for the future of the Republican Party, by a reporter who was there for it all. He has been taunted, praised, and vilified by Donald Trump, and now Jonathan Karl finds himself in a singular position to deliver the truth.

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to

Get Free Colorado Blue Book Voting Guide

these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend

NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time

Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women

and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. *Just Mercy* is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as *To Kill a Mockingbird*, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, *The New York Review of Books* “Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela.”—Nicholas Kristof, *The New York Times* “You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be

Get Free Colorado Blue Book Voting Guide

made. Just Mercy will make you upset and it will make you hopeful.”—Ted Conover, *The New York Times Book Review* “Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he’s also a gifted writer and storyteller.”—*The Washington Post* “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—*The Financial Times* “Brilliant.”—*The Philadelphia Inquirer*

Tax Guide for Seniors - Publication 554 (For Use in Preparing 2020 Returns)

From New York Times bestselling author of *Lead From The Outside* and political leader Stacey Abrams, a blueprint to end voter suppression, empower our citizens, and take back our country.

"With each page, she inspires and empowers us to

Get Free Colorado Blue Book Voting Guide

create systems that reflect a world in which all voices are heard and all people believe and feel that they matter." —Kerry Washington

A recognized expert on fair voting and civic engagement, Abrams chronicles a chilling account of how the right to vote and the principle of democracy have been and continue to be under attack. Abrams would have been the first African American woman governor, but experienced these effects firsthand, despite running the most innovative race in modern politics as the Democratic nominee in Georgia. Abrams didn't win, but she has not conceded. The book compellingly argues for the importance of robust voter protections, an elevation of identity politics, engagement in the census, and a return to moral international leadership. *Our Time Is Now* draws on extensive research from national organizations and renowned scholars, as well as anecdotes from her life and others' who have fought throughout our country's history for the power to be heard. The stakes could not be higher. Here are concrete solutions and inspiration to stand up for who we are?now. "This is a narrative that describes the urgency that compels me and millions more to push for a different American story than the one being told today. It's a story that is one part danger, one part action, and all true. It's a story about how and why we fight for our democracy and win."

?Stacey Abrams

"A 22-volume, highly illustrated, A-Z general

Get Free Colorado Blue Book Voting Guide

encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"--

Historical survey of civil rights pioneer John LeFlore and his 20th century movement in Mobile, Alabama. Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories, research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination,

boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

A 2021 YALSA EXCELLENCE IN NONFICTION

FINALIST America is the greatest democracy in the

world . . . isn't it? Author Elizabeth Rusch examines

some of the more problematic aspects of our

government but, more importantly, offers ways for young

people to fix them. The political landscape has never

been so tumultuous: issues with the electoral college,

gerrymandering, voter suppression, and a lack of

representation in the polls and in our leadership have led

to Americans of all ages asking, How did we get here?

The power to change lies with the citizens of this great

country—especially teens! Rather than pointing fingers at

people and political parties, *You Call This Democracy?*

looks at flaws in the system—and offers a real way out of

the mess we are in. Each chapter breaks down a

different problem plaguing American democracy,

exploring how it's undemocratic, offering possible

solutions (with examples of real-life teens who have

already started working toward them), and suggesting

ways to effect change—starting NOW!

In this new and updated volume, the contributors

examine the phenomena of presidential swing states in

the 2016 presidential election. They explore the reasons

Get Free Colorado Blue Book Voting Guide

why some states and, now counties are the focus of candidate attention, are capable of voting for either of the major candidates, and are decisive in determining who wins the presidency.

Refugees from high-tax Massachusetts turned New Hampshire blue. Democratic voters from Yankee states are swamping Tennessee and Georgia. Government employees and refugees from Maryland have turned Virginia from a conservative Southern state into left-leaning Democrat territory. Escapees from California have transformed Colorado, and they're aiming for Texas next. One state after another is turning from red to purple to blue. America is being radically changes by people leaving blue states for better living conditions and opportunities in red states—only to import to their new homes the very policies that created the misery they fled from in the first place. The direction of the change is undeniable:

- A 2019 poll found that 53 percent of residents are considering leaving California on account of the exorbitant cost of living
- From 2008-2018, Houston's population surged more than 15 percent, and the top metro areas of origin for those new Texas residents were Los Angeles, New York, and Chicago
- Migration from blue states is changing the Texas electorate: between 2010 and 2018, votes for Democrats went up 50 percent, while Republican votes increased by just 10 percent
- Boom is turning to bust in cities like Denver, as hip blue state refugees to red states raise the cost of living by voting in liberal policies

The liberal invasion of the conservative states is having major impacts on our elections, our economy, and our standard

Get Free Colorado Blue Book Voting Guide

of living. And yet few Americans are even aware of the trend, and fewer still have any idea of the significant implications for the future of the United States. Now, in *The Liberal Invasion of Red State America*, indefatigable reporter Kristin Tate delves into the data, lays out the astonishing statistics, and explores the likely consequences of this under-the-radar trend. If you want to understand the movement that is reshaping our country, read this groundbreaking book.

We had become the land of flickering lights, in which the standard of success was not what we were doing for the next generation of Americans, or to enhance our role in the world, but instead whether we had kept government open for another few minutes.”—Michael Bennet *The Land of Flickering Lights* is a unique contribution to American political writing at this or any other time.

Senator Michael Bennet lifts a veil on the inner workings of Congress to reveal, in his words, “through a series of actual stories—about the people, the politics, the motives, the money, the hypocrisy, the stakes, the outcome—the pathological culture of the capital and the consequences for us all.” Bennet unfolds the dramatic backstory behind five episodes crucial to the well-being of all Americans. Each of them exemplifies the hyper-partisan politics that have upended our democracy: The highly politicized confirmation battles over judicial nominations at all levels—epitomized by ugly and unprincipled fights over seats on the Supreme Court; The passage of the Trump tax law, which massively increased our national debt and widened economic inequality across the country; The shredding of the Iran nuclear deal, which undermined our

Get Free Colorado Blue Book Voting Guide

national security, caused friends and foes alike to doubt America's word, and made a mockery of the longstanding bipartisan tradition in foreign policy; The pervasive corruption unleashed by "dark money" in policies and how big donors have been able to stymie urgent action on climate change and many other issues; The sabotage by a congressional minority of the "Gang of Eight's" bi-partisan deal to reform America's immigration policies, a deal that would have comprehensively addressed the immigration issues that bedevil us to this day. With frankness and refreshing candor, and in elegant prose, Bennet pulls the machinations behind these episodes into full public view, shedding vital new light on our political dysfunction today. Arguing that each of us has a duty to act as a founder, he will inspire Americans of all political persuasions to demand that the "winners" of our political battles be all the American people, nor one party or the other.

Liberty. Freedom. Equality. Honesty. Respect. All of these values are important when electing our officials. Readers learn about democratic values and how they play a part in our elections.
