The Commercial General Liability (CGL) Insurance Policy is the standard business policy used to pay claims for bodily injury or property damage to others. The policy is divided into three coverage sections--each with its own exclusions--and a supplementary payments section. Do you ever hear--or worry--that an insurance company will not pay a claim because coverage is excluded? In order to know how claims are paid, you need to understand the policy's insuring agreements and exclusions. In this book, attorney and insurance professional Dwight M. Kealy explains the insuring agreements in Coverage A, B, and C. He gives memorable examples of every standard exclusion--and some significant non-standard exclusions. He explains every supplementary payment, and he explains how policy limits impact how claims are paid.

Insurance coverage disputes raise issues in which laws and outcomes regularly vary from state to state. This book is designed to give the stakeholders in the claims process ready access to the law of all 50 states on the most important liability insurance issues to quickly learn and assess state law relevant to coverage disputes. The Second Edition includes nearly 800 new cases covering all 50 states and the District of Columbia, and adds a new chapter addressing Coverage for Pre-Tender Defense Costs.

Over the past two decades, there have been a number of important developments in the areas of liability, property, and life and health insurance that have significantly changed insurance law. Accordingly, the Fourth Edition of Principles of Insurance Law has been substantially rewritten, reformatted, and refocused in order to offer the insurance law student and practitioner a broad perspective of both traditional insurance law concepts and cutting-edge legal issues affecting contemporary insurance law theory and practice. This edition not only expands the scope of topical coverage, but also segments the law of insurance in a manner more amenable to study, as well as facilitating the recombination and reordering of the chapters as desired by individual instructors. The Fourth Edition of Principles of Insurance Law includes new and expanded treatment of important insurance law developments, including: • The critical role of insurance binders as temporary forms of insurance as illustrated in the World Trade Center property insurance disputes resulting from the terrorist attacks of September 11, 2001; • The continuing debate between "legal formalists" and "legal functionalists" for "the heart and soul" of insurance contract law; • What constitutes a policyholder's "reasonable expectation" regarding coverage; • The current property and liability insurance "crisis"; • Risk management and self-insurance issues; • Emerging, and frequently conflicting, case law concerning the intersection of insurance law and federal anti-discrimination regulation; • Ongoing interpretive battles over the preemptive scope of ERISA; • The United States Supreme Court ruling that a California statute attempting to leverage European insurers into honoring commitments to Holocaust era policies is preempted by the Executive's power over foreign affairs; • The State Farm v. Campbell decision, which struck down a \$145 million punitive damages award in an insurance bad faith claim as well as setting more restrictive parameters for the recovery of punitive damages; • New issues over the dividing line between "tangible" property typically covered under a property insurance policy and "intangible" property, which is typically excluded - an issue of increasing importance in the digital and cyber age; • Refinement of liability insurance law regarding trigger of coverage, duty to defend, reimbursement of defense costs, and apportionment of insurer and policyholder responsibility for liability payments; • The difficult-to-harmonize decisions concerning when a loss arises out of the "use" of an automobile; • Insurer bad faith and the availability, if any, of actions against a policyholder for "reverse bad faith"; and • The degree to which excess insurance and reinsurance may be subject to modified approaches to insurance policy construction.
