Ilyas & Duck search for Allah is an adorable storybook for kids about a boy's quest to find God. "Where is God?" is a question that any parent teaching their kids will one day have to answer. This book helps parents answer that question while conveying the profound mystery of it all in a fun way. In this story, likable Ilyas pairs up with Duck to ask the one question over and over in different scenarios. With whimsical and poetic replies, Ilyas slowly begins to realize what his question truly means. And by the end, his childish curiosity is fulfilled with profound realizations. Agers 5+

Presents drawing, painting, and shading techniques and styles in an easy-to-understand format Accessible to artists of all levels Discover your inner artist with Pastels For Dummies and make your artwork come alive!

On behalf of the Organizing Committee I am pleased to present the proceedings of the 2005 Symposium on Component-Based Software Engineering (CBSE). CBSE is concerned with the development of software-intensive systems from reusable parts (components), the development of reusable parts, and system maintenance and improvement by means of component replacement and c- tomization. CBSE 2005, "Software Components at Work," was the eighth in a series of events that promote a science and technology foundation for achieving predictable quality in software systems through the use of software component technology and its associated software engineering practices. We were fortunate to have a dedicated Program Committee comprised of 30 internationally recognized researchers and industrial practitioners. We received 91 submissions andeach paper wasreviewedby at least three ProgramComm- tee members (four for papers with an author on the Program Committee). The entirereviewingprocesswassupportedbyCyberChairPro,theWeb-basedpaper submissionandreviewsystemdevelopedandsupportedbyRichardvandeStadt of Borbala Online Conference Services. After a two-day virtual Program C- mittee meeting, 21 submissions were accepted as long papers and 2 submissions were accepted as short papers.

Explains what a virus is, how it works, and what can be done to protect your PC against destruction.

A thorough guide to Linux TCP/IP network adminstration examines the major flavors of Linux; covers routing, file management, directory services, e-mail, security, and internetworking with Samba; and provides implementation examples, troubleshooting tips, and much more. Original. (Advanced).

Introduces the Beginner to Machine Code. Includes Utilities, An Assembler & a Disassembler

An affordable, easily scannable one-day training guide designed for use in instructor-led training courses.

Bits, bytes, RAM, CPUs, hard drives and dvd drives. Master the geeky acronyms and simplify computer hardware & terminology with ease. This book is great for beginners, a basic computing class, or someone looking to buy a computer.

Covers receipts and expenditures of appropriations and other funds.

Ilyas understands the importance of giving Zakat. But Duck is too concerned about parting with his money. Will Ilyas succeed in convincing Duck why giving money to the poor and needy is necessary? Will Duck understand how giving Zakat also benefits him and the community?Take a trip with Ilyas & Duck to a land, Once Upon a Time, as the dynamic duo share an amazing tale of giving and receiving, community and compassion, understanding and friendship. Giving Zakat is good indeed!

Original.

This book constitutes the thoroughly refereed post-proceedings of the Second International Workshop on Power-Aware Computer Systems, PACS 2002, held in Cambridge, MA, USA, in February 2002. The 13 revised full papers presented were carefully selected for inclusion in the book during two rounds of reviewing and revision. The papers are organized in topical sections on power-aware architecture and microarchitecture, power-aware real-time systems, power modeling and monitoring, and power-aware operating systems and compilers.

Provides information on how to upgrade, maintain, and troubleshoot the hardware of personal computers, discussing the differences among them was well as their various configuration options.

House Document: No. 121Government Printing OfficeStatement of Disbursements of the HouseAs Compiled by the Chief Administrative Officer from April 1, 2006 to June 30, 2006Statement of Disbursements of the House as Compiled by the Chief Administrative Officer from ...

A comprehensive narrative history of the Australian computer industry, from the earliest analogue machines through to the present day.

This children's coloring book contains a variety of mermaid characters and underwater friends! A perfect gift for any child ages 2 to 4 years old. Mermaid Coloring Book includes: 50 original underwater designs A variety of adorable mermaids and sea creatures Several ocean scenes for kids to design their own aquatic creations The ability to cut each image out individually for hanging or framing Hours of fun for children ages 2 to 4 Coloring has been shown to help children focus, develop fine motor skills, and relieve stress.

"I'd rather have one or two of his whiplashing essays in my hands than almost any tome of philosophy". -- Thomas Moore

Explores the potential of Pentium processors, the function of the motherboard, disk interfaces, safety issues, mass storage technology, display systems, parallel and infared ports, and audio technology.

This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks,

insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more. Table of Contents Introduction Section One: Windows Configuration Chapter 1: AlwaysInstallElevated Section Two: Domain Controller Chapter 2: Zerologon Section Three: Windows Service Chapter 3: Service - Insecure File Permission Chapter 4: Service - Unquoted Path Chapter 5: Service - Bin Path Chapter 6: Service - Registry Chapter 7: Service - DLL Hijacking Section Four: Scheduled Tasks Chapter 8: Scheduled Tasks Section Five: Windows Registry Chapter 9: Autorun Chapter 10: Startup Applications Section Six: Windows Kernel Chapter 11: Kernel - EternalBlue Chapter 12: Kernel - MS15-051 Chapter 13: Kernel - MS14-058 Section Seven: Potato Exploits Chapter 14: Juicy Potato Chapter 15: Rogue Potato Section Eight: Password Mining Chapter 16: Password Mining - Memory Chapter 17: Password Mining - Registry Chapter 18: Password Mining - SiteList Chapter 19: Password Mining - Unattended Chapter 20: Password Mining - Web.config Section Nine: UAC Bypass Chapter 21: User Account Control Bypass For more information, please visit http://www.howtopassoscp.com/.

Upgrading and Repairing PCs, A+ Certification Study Guide is a hands-on learning book. Author Scott Mueller takes you through test objectives one by one, pointing out the most frequently missed questions and explaining them with a greater detail than easier questions need. Spend your time learning--not deciphering bad writing! Just the essentials! Scott covers the essentials that you'll need to pass the test and point you where to go for more information. Frequent study reminders throughout help you focus and remember the core concepts for the exam--and not the not-so-necessary details. Practice Exams cover the topics that you'll be tested on and asks them in the manner they'll be asked on the test.

Includes: vocabulary review, DECA prep, facts and ideas review, marketing applications and computer applications

Describes the internal structure of the 8086 and 8088 microprocessors, explains the fundamentals of programming them, and discusses their use with the IBM Personal Computer

"It Only Takes 1" is a motivational children's book that tells the story of Mylan Murphy, a Entrepreneur and Motivational Speaker from Akron, Ohio. Mylan started a clothing line at the age of 13, in effort to support himself and his Mother, following a family divorce. The book teaches children at a young age, how to overcome adversity, be different than everyone else and embrace transition and change in your life. Mylan has a story that everyone should hear! Although "It Only Takes 1" is geared towards children, the lesson taught within it, is POWERFUL, no matter the age, demographic or background. #MotivatedByMylan

Presents an analysis of how thinking on strategy has evolved and what are the likely developments. This work includes chapters on six key areas: Approaches to Strategy, Strategic Analysis and Formulation, Corporate Strategy; International Strategy; Strategies of Organizational Change; and Strategic Flexibility and Uncertainty.

This is the refereed proceedings of the 9th International Symposium on Component-Based Software Engineering, CBSE 2006, held in Västerås, Sweden in June/July 2006. The 22 revised full papers and 9 revised short papers

presented cover issues concerned with the development of software-intensive systems from reusable parts, the development of reusable parts, and system maintenance and improvement by means of component replacement and customization.
