**Robert Wallace Winslow, Sheldon X. Zhang**

**Comparative, International, and Global Justice** Cyndi Banks, James Baker, 2015-09-23 *Comparative, International and Global Justice: Perspectives from Criminology and Criminal Justice* presents and critically assesses a wide range of topics relevant to criminology, criminal justice and global justice. The text is divided into three parts: comparative criminal justice, international criminology, and transnational and global criminology. Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues. Authors Cyndi Banks and James Baker address these complex global issues using a scholarly but accessible approach, often using detailed case studies. The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation. The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner. It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide, and to prepare students for a future where fields of study like transnational crime are unexceptional.

*Comparative Criminal Justice* David Nelken, 2010-04-22 David Nelken is the 2013 laureate of the Association for Law and Society International Prize. The increasingly important topic of comparative criminal justice is examined from an original and insightful perspective by David Nelken, one of the top scholars in the field. The author looks at why we should study crime and criminal justice in a comparative and international context, and the difficulties we encounter when we do. Drawing on experience of teaching and research in a variety of countries, the author offers multiple illustrations of striking differences in the roles of criminal justice actors and ways of handling crime problems. The book includes in-depth discussions of such key issues as how we can learn from other jurisdictions, compare 'like with like', and balance explanation with understanding – for example, in making sense of national differences in prison rates. Careful attention is given to the question of how far globalisation challenges traditional ways of comparing units. The book also offers a number of helpful tips on methodology, showing why method and substance cannot and should not be separated when it comes to understanding other people's

systems of justice. Students and academics in criminology and criminal justice will find this book an invaluable resource. Compact Criminology is an exciting series that invigorates and challenges the international field of criminology. Books in the series are short, authoritative, innovative assessments of emerging issues in criminology and criminal justice – offering critical, accessible introductions to important topics. They take a global rather than a narrowly national approach. Eminently readable and first-rate in quality, each book is written by a leading specialist. Compact Criminology provides a new type of tool for teaching, learning and research, one that is flexible and light on its feet. The series addresses fundamental needs in the growing and increasingly differentiated field of criminology.

Global Criminology and Criminal Justice Nick Larsen, Russell Smandych, 2007-12-01 From the Foreword by Piers Beirne, University of Maine: Because our world in the new millennium differs so profoundly from the twentieth-century one inhabited by Durkheim, recognition of this overwhelming difference is one of several organizing principles employed by editors Nick Larsen and Russell Smandych. As they rightly stress, a comparative approach to the understanding of crime and justice cannot properly capture the full complexity of globalization at the dawn of the twenty-first century. We need a global criminology now! Global Criminology and Criminal Justice brings together 22 articles that constitute some of the most important recent literature in the field. Theory and research is situated within a broader discussion of the historical shift over the past three decades from comparative and international, to global criminology.

**Comparative Criminal Justice Systems** Shahid M. Shahidullah, 2012 Written for students of criminal justice, Comparative Criminal Justice Systems: Global and Local Perspectives examines the nature of crime and justice in varying countries and cultures in North America, Europe, Asia, Africa, and Latin America. Using a topical approach, it compares different systems of crime and justice in terms of their differences from, and similarities to, the laws and institutions of modern criminal justice, focusing on the United States as a standard of comparison. By examining different criminal justice systems in terms of their local peculiarities and understanding their change and continuity, readers will gain a well-rounded international perspective of the world's varying systems of criminal justice. Key Features: -Explores the rise of modern criminology and the criminal justice system in the nineteenth century. It is critical for students to understand the history of modern systems to fully comprehend the varying nature of today's main legal systems, focusing on the United States as a standard of comparison. -Employs a topical approach to examine the criminal justice systems in varying countries in Europe, Asia, Africa, and Latin America, including comparative views on law enforcement, judicial systems, corrections, due process of law, and search and seizures. -Includes discussions on comparative processes of criminalization and decriminalization on such issues as domestic violence, child abuse, homosexuality, and sexual harassment. -Discusses new global crimes and their impact on modern and traditional criminal justice systems, including human smuggling, global sex trade, global illegal drug trade, illegal trafficking of conventional military weapons, money laundering, cybercrime, and global terrorism. -Discussion

questions ensure that student's grasp the core theoretical concepts.

**Comparative Criminal Justice** Francis Pakes, 2017-08-16 This book offers an accessible introduction to comparative criminal justice and examines and reflects on the ways different countries and jurisdictions deal with the main stages in the criminal justice process, from policing to sentencing. This popular bestseller has been fully updated and expanded for the third edition. This textbook provides the reader with: a comparative perspective on criminal justice and its main components; a knowledge of methodology for comparative research and analysis; an understanding of the emerging concepts in comparative criminal justice, such as security, surveillance, retribution and rehabilitation; a discussion of global trends such as the global drop in crime, the punitive turn, penal populism, privatization, international policing and international criminal tribunals. The new edition has been fully updated to keep abreast with this growing field of study and research, including increased coverage of the challenge of globalization and its role and influence on criminal justice systems around the world. Topics such as state crime, genocide and the international criminal court have also grown in prominence since the publication of the last edition and are given increased coverage. This book will be perfect reading for advanced undergraduates and postgraduates taking courses in comparative criminal justice and those who are engaged in the study of global responses to crime. New features such as lists of further reading, study questions and boxed case studies help bring comparative criminal justice alive for students and instructors alike.

**Law and Justice around the World** Mikaila Mariel Lemonik Arthur, 2020-02-25 Law and Justice around the World is designed to introduce students to comparative law and justice, including cross-national variations in legal and justice systems as well as global and international justice. The book draws students into critical discussions of justice around the world today by: taking a broad perspective on law and justice rather than limiting its focus to criminal justice systems examining topics of global concern, including governance, elections, environmental regulations, migration and refugee status, family law, and others focusing on a diverse set of global examples, from Europe, North America, East Asia, and especially the global south, and comparing the United States law and justice system to these other nations continuing to cover core topics such as crime, law enforcement, criminal courts, and punishment including chapter goals to define learning outcomes sharing case studies to help students apply concepts to real life issues Instructor resources include discussion questions; suggested readings, films, and web resources; a test bank; and chapter-by-chapter PowerPoint slides with full-color maps and graphics. By widening the comparative lens to include nations that are often completely ignored in research and teaching, the book paints a more realistic portrait of the different ways in which countries define and pursue justice in a globalized, interconnected world.

**Marketing Global Justice** Christine Schwöbel-Patel, 2021-05-06 A political economy analysis that explains international criminal law's hegemonic status in the understanding of global justice.

Comparative Criminal Justice Systems Harry R. Dammer, Jay S. Albanese, 2010-09-16 Exploring historical, political, economic, social, and cultural influences, bestseller *COMPARATIVE CRIMINAL JUSTICE SYSTEMS*, International Edition presents a comprehensive--and intriguing--analysis and comparison of the world's diverse criminal justice systems.

**Comparative Criminal Justice and Globalization** David Nelken, 2016-05-23 In this exciting and topical collection, leading scholars discuss the implications of globalisation for the fields of comparative criminology and criminal justice. How far does it still make sense to distinguish nation states, for example in comparing prison rates? Is globalisation best treated as an inevitable trend or as an interactive process? How can globalisation's effects on space and borders be conceptualised? How does it help to create norms and exceptions? The editor, David Nelken, is a Distinguished Scholar of the American Sociological Association, a recipient of the Sellin-Glueck award of the American Society of Criminology, and an Academician of the Academy of Social Sciences, UK. He teaches a course on Comparative Criminal Justice as Visiting Professor in Criminology at Oxford University's Centre of Criminology.

**Handbook of Transnational Crime and Justice** Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the *Handbook of Transnational Crime and Justice*, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand-alone topic, making this handbook an important textbook and reference tool for students and

practitioners alike.

**Comparative Criminology in Asia** Jianhong Liu, Max Travers, Lennon Y.C. Chang, 2017-07-15 This edited volume presents the diversity of comparative criminology research in Asia, and the complex theoretical and methodological issues involved in conducting comparative research. With contributors both from the West and the East exploring these questions, the Editors have created a balanced resource, as well as set an agenda for future research. The increasing pace of globalization means that researchers should be armed with an understanding of how criminal justice systems work across the world. In the past, comparative research largely compared Western countries to each other, or involved researchers from a Western perspective examining an Asian country, with models and theories developed in the West considered to have universal applications. This work aims to correct that gap, by providing a critical examination of comparative research, presenting quantitative and qualitative research data, and asking new questions that challenge prevailing research norms and provide an agenda for future research. This work will be of interest for researchers across the field of Criminology, particularly those with an interest in International and Comparative Research, research on or about Asia, and related disciplines such as Sociology, Demography, and Social Policy. "This fine collection that goes to the rich distinctiveness of Asian criminology. The editors have brought together a wonderful collection of authors mainly from the region. The distinctiveness of values and relational practices in Asia are recurrent themes that are well developed in this book and help us to make sense of patterns of crime and criminal justice in Asia." John Braithwaite, Australian National University "What theoretical, methodological, and practical issues must we confront in conducting cross-cultural studies encompassing Western and Asian countries? Comparative Criminology in Asia discusses these issues and presents exemplary comparative research. The introductory chapter and the introduction to each part by the co-editors are lucid and highly educational. This collection must be required reading for every serious scholar and aspiring graduate student in Asian countries so that criminological and criminal justice studies will be brought to a much higher level of sophistication." Setsuo Miyazawa, UC Hastings "Can there be - and should there be -- a distinctive Asian criminology? What would this involve? The answer depends on what one thinks of the universalistic explanatory claims of Western criminology. Will these claims become self-fulfilling as these societies add to colonial influences a more deliberate borrowing of criminal justice models and established ways of pursuing discipline of criminology? Or will a more critical spirit prevail? This welcome edited collection by Liu, Travers and Chang provides an excellent starting point for reflecting on these and other questions. Rather than attempting to provide descriptions of the variety of similarities and differences in this region (though there are some fascinating case studies of these) the focus is even more on exploring the theoretical approaches and methodologies used in comparing institutional and cultural differences by Asian criminologists and others." David Nelken, King's College, London "Criminologists can no longer ignore the impact of globalization on the pattern and amount of crime as we experienced

recently, nor can we ignore the global change of criminal justice policies to deal with crime. There is, therefore, a desperate need to collect data on how crime and criminal justice are influenced by globalization across Asian countries. On the other hand, there are debates on the issue of culture-specific vs. pan-culture theories of crime. This collection addresses both issues in an interesting way. Its publication is timely and welcome.” Chuen-Jim Sheu, National Taipei University

**Comparative Criminal Justice** Francis Pakes, 2012-07-26 This book aims to meet the need for an accessible introductory text on comparative criminal justice, examining the ways different countries and jurisdictions deal with the main stages and elements in the criminal justice process, from policing through to sentencing. Examples are taken from all over the world, with a particular focus on Europe, the UK, the United States and Australasia. The main aims of the book are to provide the reader with: a comparative perspective on criminal justice and its main components an understanding of the increasing globalization of justice and standards of the administration of justice a knowledge of methodology for comparative research and analysis an understanding of the most important concepts in criminal justice (such as inquisitorial and adversarial trial systems, policing styles, crime control versus due process, retribution versus rehabilitation etc) discussion of global trends such as the rise of imprisonment, penal populism, diversion, international policing and international tribunals an insight into what the essential ingredients of doing justice might be. This fully updated and expanded new edition of *Comparative Criminal Justice* takes into account the considerable advances in comparative criminal justice research since the first edition in 2004. Each chapter has been thoroughly updated and in addition, there is a new chapter on establishing the rate of crime in a comparative context. The rate of development in international policing and international development has been such that there is now an individual chapter devoted to each; and throughout the book, the role of globalization, changing both the local and the global in criminal justice arrangements, orientations and discourses, has now been given the prominence it deserves.

Race, Crime and Criminal Justice A. Kalunta-Crumpton, 2010-03-31 This book provides a focused and critical international overview of the intersections between race, crime perpetration and victimization, and criminal justice policy and practice responses to crime perpetration and crime victimization.

*Criminal Justice Ethics* Cyndi Banks, 2018-12-31 *Criminal Justice Ethics* examines the criminal justice system through an ethical lens by identifying ethical issues in practice and theory, exploring ethical dilemmas, and offering suggestions for resolving ethical issues and dilemmas faced by criminal justice professionals. Bestselling author Cyndi Banks draws readers into a unique discussion of ethical issues by first exploring moral dilemmas faced by professionals in the criminal justice system and then examining the major theoretical foundations of ethics. This distinct and unique organization allows students to understand real-life ethical issues before grappling with philosophical approaches to the resolution of these issues. The Fifth Edition includes updated discussions around ethical issues in policing, corrections, the changing technological

environment and its influence on courtrooms, mass imprisonment, and the ethical implications of current criminal justice policies. Included with Your Text Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning.

Transnational and Comparative Criminology James Sheptycki, Ali Wardak, 2012-09-10 This book examines the issues of crime and its control in the twenty-first century - an era of human history where people live in an increasingly interconnected and interdependent world - providing invaluable and first-hand readings for undergraduate and postgraduate students.

A Global Perspective on Young People as Offenders and Victims Dirk Enzmann, Janne Kivivuori, Ineke Haen Marshall, Majone Steketee, Mike Hough, Martin Killias, 2017-09-25 This Brief presents the first major release of findings from the Third International Self-Report Delinquency Study (ISRD3). ISRD is a major international research collaboration that now covers some 35 countries. It surveys young people aged 12 to 16 in their schools, asking about their experience of crime - both as offenders and as victims - and about their attitudes to crime and justice and about their home and school life. ISRD1 was carried out in 1991-1992 and ISRD2 in 2006-2008. ISRD findings presented here cover the 27 ISRD3 countries for which data are already available, with a total sample approaching 63,000 young people. For most of these countries, the samples are drawn from two major cities. This volume provides key findings on self-reported offending and on victimization. Chapter 1 set the scene, and describes the background to ISRD3. Chapter 2 describes the methods used in the survey; respondents complete the ISRD questionnaire either in paper format or - increasingly - using a standardized internet program. Chapter 3 covers key findings on self-reported offending, including the important finding that preparedness to disclose offending varies according to cultural context. Chapter 4 presents findings on victimization, including important new findings on hate crime and the use of parental violence, as well as coverage of more conventional forms of crime. A final chapter summarizes the results and draws out their implications. This Brief will be of interest to researchers in criminology and criminal justice, as well as related fields such as sociology, public policy, and psychology. Due to the groundbreaking methodological analyses provided, this Brief is essential reading to all who conduct or use internationally comparative and global survey research.

**Victimology and Victim Rights** Tyrone Kirchengast, 2016-10-04 This book examines the international, regional and domestic human rights frameworks that establish victim rights as a central force in law and policy in the twenty-first century. Accessing substantial source material that sets out a normative framework of victim rights, this work argues that despite degrees of convergence, victim rights are interpreted on the domestic level, in accordance with the localised interests of victims and individual states. The transition of the victim from peripheral to central stakeholder of justice is demonstrated across various adversarial, inquisitorial and hybrid systems in an international context. Examining the standing of victims globally, this book provides a comparative analysis of the role of the victim in the International Criminal Court, the ad hoc

tribunals leading to the development of the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda, together with the Extraordinary Chambers of the Courts of Cambodia, Special Panels of East Timor (Timor Leste), and the Internationalised Panels in Kosovo. The instruments of the European Parliament and Council of Europe, with the rulings of the European Court of Justice, and the European Court of Human Rights, interpreting the European Convention of Human Rights, are examined. These instruments are further contextualised on the local, domestic level of the inquisitorial systems of Germany and France, and mixed systems of Sweden, Austria and the Netherlands, together with common law systems including, England and Wales, Ireland, Scotland, USA, Australia, Canada, New Zealand, India, South Africa, and the hybrid systems of Japan and Brazil. This book organises the authoritative instruments while advancing debate over the positioning of the victim in law and policy, as influenced by global trends in criminal justice, and will be of great interest to scholars of international law, criminal law, victimology and socio-legal studies.

**Criminology** Robert Wallace Winslow, Sheldon X. Zhang, 2008 Because of recent changes in communication, transportation, and commerce, crime has become a global phenomenon. *Criminology: A Global Perspective* was developed to address this new reality and broadens the discussion of crime and social control to the global arena. Relying on data extracted from both national and international sources, the book offers a comparative criminology website that compiles information on each country, its history, its crime statistics and more! The innovation continues with a manageable approach to theories—first covering general theories and then introducing new theories within the context of specific crimes. Realizing that crime is no longer contained by geographic boundaries, the book analyzes where crime is occurring and which theories are true universally, not just in the United States. True global perspective not found in competing books. *Comparative Criminology Website* offers a virtual tour of crime throughout the world. Manageable approach to theory includes three introductory chapters (ch. 3-5), followed by other theories presented within the context of crimes (ch. 6-15). An excellent book for those new to Criminology who are looking for criminal justice information about all of the countries of the world.
