** ACCORDING TO BUSINESS INSIDER: "Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education." ** This is the book version of the popular Udemy.com course called "An Entire MBA in 1 Course." From the Author of "101 Crucial Lessons They Don't Teach You in Business School," which Forbes magazine calls "1 of 6 books that all entrepreneurs need to read right now." This book will teach you everything you need to know about business....from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University.

Think of this book as a "greatest hits" business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized "boring theoretical concepts" in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at www.udemy.com/user/chris-haroun/. CompTIA Network+ N10-006 Practice Test Questions (Get Certified Get Ahead) includes over 300 realistic practice test questions and a comprehensive list of relevant acronyms. Combined, these study materials will help you take and pass the Network+ exam the first time you take it. If you want to test your readiness for the Network+ exam and reinforce the important material, this book is for you. All practice test questions include in-depth explanations to help you understand why the correct answers are correct, and why the incorrect answers are incorrect. Master the material and no matter how CompTIA words the questions, you'll be able to answer them correctly. The book is organized in five chapters matched to the five Network+ domains. Each chapter includes two sections: 1. Practice mode section. Includes practice test questions without answers. This section presents the questions, but does not give you the answers. You can use this to test yourself to see if you know why the correct answers are correct, and why the incorrect answers are incorrect. 2. Review mode section. Includes practice test questions with answers. This section includes the same questions in the practice mode section, but it combines the questions, answers, and explanations so you can use it as a last minute review for any of the domains. The introduction includes details on the exam to give you an idea of what to expect. Additionally, all of the relevant acronyms are spelled out and defined in the appendix.
