Die britische Sinfonik ist erst in jüngster Zeit ins allgemeine Interesse gerückt. Ein Überblick über die sinfonische Entwicklung im Vereinigten Königreich seit den Anfängen im 18. Jahrhundert bis ins 20. Jahrhundert blieb aber bis heute ein Desideratum. Der hier vorgelegte Überblick zeigt, wie sich die Identität einer britischen Sinfonik über mehr als hundert Jahre entwickelte, geprägt durch Einflüsse vom europäischen Kontinent und von dem Bedürfnis, eigene Wege zu finden. Gegen Ende des 19. Jahrhunderts nahm das sinfonische Schaffen in Großbritannien stark zu, brachte jedoch erst mit Edward Elgar einen prominenten Vertreter von internationalem Rang hervor. Ein besonderer Schwerpunkt dieser Publikation liegt auf jenen

Werken, die zu einem gewissen Grade von anderen überschattet wurden, unveröffentlicht oder unaufgeführt blieben. Das Ergebnis ist das Bild einer vielgestaltigen sinfonischen Landschaft Großbritanniens, das die ästhetischen Perspektiven der einzelnen Komponisten wie auch ihre soziokulturellen Kontexte erhellt. Ein umfangreiches Verzeichnis aller bekannten Werke und eine ausführliche Bibliographie laden zu weiterer Erkundung des Sujets ein. Only in relatively recent times has any real attention been given to British symphonies. So a comprehensive survey, showing what exists and how the situation in the United Kingdom developed, from the beginnings in the 18th century until well into the 20th century, is long overdue. The preliminary survey presented here shows how a British symphonic identity gradually took shape over more than a century, through influences from abroad and, at home, enterprising attempts to find new ways of expression. By the end of the 19th century, British symphonists had produced an impressive body of work, yet only with the appearance of Elgar's two symphonies in the following decade did this flourishing school find a champion of international renown. In this publication, light is shone on those works that have to some extent been overshadowed, as well as on those that have remained unpublished or unperformed. The result is a multi-faceted panorama of British

symphonism, offering many insights into the composers' thinking and their socio-cultural contexts. A comprehensive catalogue of all known works and an extensive bibliography invite readers to delve further into the subject.

Piano Concerto No. 3 in C Minor, Opus 37

Piano Duo/Duet (2 Pianos, 4 Hands)

Alfred Music
A Piano Duet for 2 pianos, 4 hands, composed by Ludwig van Beethoven.

An update and revised guide by the host of National Public Radio's Performance Today recommends the best recordings of the three hundred most important classical works, and provides background information on each composer. Original.

Between early 1806 and early 1807, Ludwig van Beethoven completed a remarkable series of instrumental works. But critics have struggled to reconcile the music of this banner year with Beethoven's "heroic style," the paradigm through which his middle-period works have typically been understood. Drawing on theories of mediation and a wealth of primary sources, *Beethoven 1806* explores the specific contexts in which the music of this year was conceived, composed, and heard. As author Mark Ferraguto argues, understanding this music depends on appreciating the relationships that it both creates and reflects. Not only did Beethoven depend on patrons, performers, publishers, critics, and audiences to earn a living, but he also tailored his compositions to suit particular sensibilities, proclivities, and technologies.

An invaluable guide for lovers of classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.

The groundbreaking analytical techniques of Heinrich Schenker have had a powerful impact on the English-speaking musical world, and their importance, a century after he embarked on his major projects, is greater than ever. A central work in the Schenkerian canon, *Der Tonwille*, introduced the use of voice-leading graphs that remains a critical tool for many music theorists today. This volume, the first of a two-volume English translation of Schenker's complete original text, makes these important contributions available to English readers for the first time. In the first five "issues" that make up *Der Tonwille*, Schenker analyzes piano sonatas by Haydn, Mozart, and Beethoven, as well as shorter works including preludes by Bach and various classical keyboard pieces. The volume also includes the first two installments of a large-scale study of Beethoven's Fifth Symphony which, in common with many of the other essays offered here, is comprised of a detailed analysis of the score, a commentary on the sketches and autograph and related textual problems, remarks on performance, and a critique of the literature on the symphony. Most significantly, the essays in this volume are the first that consistently embrace the

concept of "Urfinie" by coordinating an explanatory text with a "graph of the Urfinie" for each work discussed. It also contains the most extensive expression of Schenker's outspoken philosophical, political, and artistic beliefs, providing an important cultural perspective from which to view his theoretical work. Under the leadership of William Drabkin, a team of well-regarded musicologists has produced this skilled and lucid translation of Schenker's influential writings, an essential resource for English-reading musicologists and music theorists.

Kenneth A. Christensen's THE TOSCANINI MYSTIQUE, is the first full length biography about the legendary Italian conductor's life and career in almost thirty-five years.

Maestro Toscanini had a frigid and extremely unhappy childhood, along with a severe musical education at the Parma Conservatory. This unglamorized account of a gifted teenager's professional conducting debut at Rio de Janerio's Teatro Imperial, is told as it really happened. Toscanini was married to a ballerina, Carla De Martini, who bore him four children, but also had an illegitimate son with a gifted soprano, who was born retarded. Toscanini's vulgar mistreatment of nearly all the singers and musicians who performed under his direction was legendary, and is examined with unusual insight about his uncanny memory and talent for musical recreation. The recollection of many famous artists including Caruso, Debussy, Kreisler, Puccini, Stravinsky, Verdi, and Wagner's descendants are quoted alongside his confrontations with Hitler, Mussolini and the Sicilian mafia. But the Maestro also was the most generous of all musicians, donating both his time and talents to many worthwhile charities, for which he received no financial compensation. The life of this great conductor is presented as

the struggles of a musical and theatrical reformer, who was a major historical figure that just happened to be one of the greatest musicians who ever lived. Mr. Christensen has painstakingly wrote his narrative, using all the previous biographies and magazine articles on his life, the scripts of two video documentaries and the liner notes for the most widely available re-releases of his recordings. He rewrote and clarified the awkward original Italian translations for non-specialist readers and has supplied new English translations for the numerous operatic titles and other musical works as well as all the foreign language newspapers, magazines and theatres mentioned in the text. In addition, he has provided professional critiques on the most widely available Toscanini recordings from RCA Victor's 'Arturo Toscanini Collection', and historic reissues of Toscanini's NBC radio broadcast concerts. Here was a man, who had the nerve to stand up to world dictators and fought hard to prevent the Western world's supreme musical masterpieces from being abused and mistreated, but without taking any credit for laboriously recreating all these composers' inspiration. He enjoyed to play practical jokes on his family and friends, but this humorous side is known only through letters, because Toscanini never published any autobiography or memoirs about his art. Toscanini gave the world premieres of 14 operas, including Leoncavallo's Pagliacci, and three by Puccini, including La Boheme, La Fanciulla del West and Turandot. Toscanini served as musical director: the Teatro Regio in Turino (1895-98), La Scala in Milano (1898-1908), New York's Metropolitan Opera (1908-1915), barely missed dying upon the Lusitania, becoming musical director of La Scala again (1920-1929), the New York Philharmonic (1926-1936), and the NBC Symphony Orchestra (1937-1954). In between, he also guest conducted at the Bayreuth, Salzburg and Lucerne Festivals and conducted the inaugural

concerts of the Palestine Symphony. Toscanini then recorded his most important repertory with the BBC Symphony and the Philadelphia Orchestra, the New York Philharmonic and NBC Symphony Orchestras, alongside the Robert Shaw Chorale and such esteemed soloists as Jascha Heifetz, Rudolf Serkin, plus, his own son-in-law Vladimir Horowitz. His seven operatic recordings featured Jan Peerce, Helen Traubel, Richard Tucker, Giuseppe di Stefano, Rose Bampton, Cesare Siepi, Herva Nelli, Licia Albanese, Robert Merrill, Jussi Bjoerling, Lauritz Melchior, and many other gifted singers and musicians of the past, whose names alone are too much to mention.

Born in 1885 in Porto, Portugal, to a middle-class musical family, Guilhermina Suggia began playing cello at the age of five. A child prodigy, she was already a seasoned performer when she won a scholarship to study with Julius Klengel in Leipzig at the age of sixteen. Suggia lived in Paris with fellow cellist Pablo Casals for several years before World War I, in a professional and personal partnership that was as stormy as it was unconventional. When they separated Suggia moved to London, where she built a spectacularly successful solo career. Suggia's virtuosity and musicianship, along with the magnificent style and stage presence famously captured in Augustus John's portrait, made her one of the most sought-after concert artists of her day. In 1927 she married Dr Josasimiro Carteado Mena and settled down to a comfortable life divided between Portugal and England. Throughout the 1930s, Suggia remained one of the most respected musicians in Europe. She partnered

on stage with many famous instrumentalists and conductors and completed numerous BBC broadcasts. The war years kept her at home in Portugal, where she focused on teaching, but she returned to England directly after the war and resumed performing. When Suggia died in 1950, her will provided for the establishment of several scholarship funds for young cellists, including England's prestigious Suggia Gift. Mercier's study of Suggia's letters and other writings reveal an intelligent, warm and generous character; an artist who was enormously dedicated, knowledgeable and self-disciplined. Suggia was one of the first women to make a career of playing the cello at a time when prejudice against women playing this traditionally 'masculine' instrument was still strong. A role model for many other musicians, she was herself a fearless pioneer.
