

Conflict Resolution Lesson Plans

A modern fable with an urgent message for young environmentalists. Lynne Cherry journeyed deep into the rain forests of Brazil to write and illustrate this gorgeous picture book about a man who exhausts himself trying to chop down a giant kapok tree. While he sleeps, the forest's residents, including a child from the Yanomamo tribe, whisper in his ear about the importance of trees and how "all living things depend on one another" . . . and it works. Cherry's lovingly rendered colored pencil and watercolor drawings of all the "wondrous and rare animals" evoke the lush rain forests. Features stunning world maps bordered by detailed illustrations of fascinating rainforest creatures. An IRA Teacher's Choice (1991), ABA's Pick of the Lists, Reading Rainbow Review Book, NSTA-CBC Outstanding Trade Book for Children.

When Tyler is teased by the other boys, his good friend, Danae, encourages him to give the boys A Bug and a Wish. When Tyler finds a ladybug and a dandelion seed, he is convinced that this is what Danae means. As his friend helps him learn the true meaning of her advice, Tyler soon discovers the solution to his problem.

Written for teachers and parents, this book articulates a reproducible process with step-by-step strategies to promote cooperation and mutual respect between students and educators in the classroom.

The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration McGraw Hill Professional

Based on the view that making social concepts and feelings concrete would help children in primary grades to take turns, cooperate, and solve their problems respectfully, this curriculum uses a story about the Rainbow Kids, an imaginary community of children, to introduce children to social concepts and conflict resolution skills. The Rainbow Kids experience emotions that are conveyed by the weather around them. These simple "sunny" and "cloudy" metaphors turn abstract notions of behavior into physical expressions young children can easily comprehend. Part 1 of the curriculum guide describes the impetus for the program, discusses how the program works, summarizes the story, and details the procedures involved in presenting the program. Part 2 contains the seven lessons and two activities comprising the program; this part includes sample program materials in six appendices, and lists selected resources for elementary school teachers. Part 3 is a separate booklet for students containing "The Rainbow Kids" story. (Contains 15 references.) (KB)

Lesson plans for teachers of grades K-2 explain conflict and its causes, offer examples from literature, and suggest activities for resolving hypothetical conflicts

A 20-day social studies unit designed for Grade 6, including lesson plans, bulletin board designs, and plan book.

Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? Tools for Conflict Resolution is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict, and these tools are used each time conflict arises that soon students become proficient conflict managers. This book begins with a chapter, which introduces Peter

Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans, which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role- plays, skits, literature, songs, and co-operative learning activities are the primary instructional methods used to teach students conflict resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class.

Like all good friends, Matthew and Tilly have an occasional tiff, but their friendship prevails despite their differences.

After having a bad start to the morning, Otto struggles to have positive interactions with his friends at school. During the day, he learns that he's having these difficulties because he is doing things backwards compared to what a true friend would do. He's being a "Dneirf." With the help of a school counselor and some friends, Otto turns his day, and himself, in the right direction, becoming a true forward friend once again. This story is a fantastic resource to teach children that social conflict is normal and can and will occur within friendships due to backwards behavior, not necessarily bullying. Sometimes friends just need a little help to turn those backwards behaviors forward again. Be A Friend, Not a Dneirf!

From the largest and most successful school initiatives in social and emotional learning in the country-The Resolving Conflict Creatively Program, now active in more than 350 schools nationwide-comes a powerful, practical guide for teaching young people to empathize, mediate, negotiate, and create peace. The authors address everything from minor schoolyard conflicts to violent outbursts, and offer educators and parents proven strategies for enhancing children's emotional, social, and conflict resolution skills.

This widely used conflict resolution program is designed for use with upper elementary and middle school students. Through the conflict resolution strategies of mediation, negotiation, and group problem solving, students learn to recognize, manage, and resolve conflicts in peaceful, noncoercive ways. This guide includes 63 learning activities and step-by-step teaching procedures. It features an entire chapter on program development and implementation strategies. Additional appendices include assessment measures, mediation and negotiation simulations, and a variety of reproducible program forms.

A long time ago and far away--although it could be here, and it could be now--a boy threw a stone and injured a girl. For as long as anyone could remember, their families had been enemies, and their towns as well, so it was no surprise that something bad had happened. Hate had happened. Revenge had happened. And that inspired more hate and more calls for revenge. But this time, a young girl decided to try something different... Inspired by the original Garden of Forgiveness in Beirut, Lebanon, and the movement that has grown up around it, Lauren Thompson has created a timeless parable for all ages that shows readers a better way to resolve conflicts and emphasizes the importance of moving forward together.

Intended for school counselors to aid in the learning of developmental classroom guidance, *School Counseling Classroom Guidance: Prevention, Accountability, and Outcomes* by Jolie Ziomek-Daigle teaches the fundamentals, strategies, and research outcomes of classroom guidance programming for comprehensive, developmentally appropriate school counseling programs. The content of this book looks at the history and fundamentals of classroom guidance, how these activities meet CACREP and ASCA standards, how and why activities should be aligned to the larger academic curriculum and state/national teaching standards,

recommendations on how to develop and assess classroom guidance units, a sampling of units and lessons, techniques in managing the classroom, and outcome research and trends. *School Counseling Classroom Guidance: Prevention, Accountability, and Outcomes* is part of the Counseling and Professional Identity Series, which targets specific competencies identified by CACREP (Council for Accreditation of Counseling and Related Programs). Lesson Planning for Skills-Based Elementary Health Education is a highly practical resource for elementary health educators or general classroom teachers looking for innovative, tried-and-true ways to implement health education. The text offers effective skills-based learning activities, lessons, units, and assessments for your classroom that you can use as they are or with modifications to meet the needs of your students. You can use this text to build a completely new curriculum or to supplement your existing curriculum, providing a smooth transition from a content-based approach to a skills-based approach. The authors explain the rationale and foundation for making that transition, putting the lesson plans, activities, and assessments into context as you learn how to implement a skills-based approach. The 130 lessons and activities in *Lesson Planning for Skills-Based Elementary Health Education* have been created by the authors and experienced teachers broadly recognized for their expertise in skills-based health education; organized to map to the skills in the National Health Education Standards and align with a five-step skill-development model; designed to be adaptable to meet the needs of all students; and enhanced with student worksheets that are available in both English and Spanish. *Lesson Planning for Skills-Based Elementary Health Education* is an ideal companion to *The Essentials of Teaching Health Education*, a foundational text by Benes and Alperin that presents teaching and assessment strategies for planning and implementing a skills-based approach to teaching health education. Together, these two books can help you effectively teach skills-based health education from day one. *Lesson Planning for Skills-Based Elementary Health Education* offers a detailed, easy-to-use learning activity template and employs a teacher-friendly format that has been proven effective in the field. It comes with a web resource that provides digital versions of the book's many reproducible forms, available in both English and Spanish. (The web resource is included with all new print books and some ebooks. For ebook formats that don't provide access, the web resource is available separately.) The text is organized into two parts. Part I delves into key aspects of planning, implementing, and assessing a skills-based approach, offering you a strong foundation in the core concepts of the approach. Each of the part II chapters is devoted to a skill addressed in the National Health Education Standards, providing you with the following material: An overview of the skill Key considerations for teaching the skill A unit outline Assessments Lesson plans Learning activities

Lesson Planning for Skills-Based Elementary Health Education offers you all you need to put a skills-based approach into practice: the solid foundational information that explains the concepts and the resources, tools, and strategies to help you implement the lesson plans and activities that will aid your students in developing proficiency in the skills emphasized in the national standards.

Zelie Adebola remembers when the soil of Or sha hummed with magic. Burners ignited flames, Tiders beckoned waves, and Zelie s Reaper mother summoned forth souls. But everything changed the night magic disappeared. Under the orders of a ruthless king, maji were killed, leaving Zelie without a mother and her people without hope.

The delightful *Barnyard Buddies* engage everyone as they show how to solve a problem with caring and empathy. This award-winning, richly illustrated, anger management and conflict resolution guide, provides a Parent, Educator, and Mentor Guide, and music as well. "A must have in children's libraries and homes" (Reader's Favorite). Kids love it.

"Good lesson plans have an almost mysterious power; they declare that all information can be interesting, that every skill acquired broadens our potentials to make a better world, and that all impassioned activity leads to learning. Our best teachers have shown us over and over that life is not a struggle against boredom and compliance; it is a wonder to be apprehended. Every bit of SEL you can integrate into your planning will not only begin to heal the wounds of passivity, racism, and inequity, but also give students an experience today, in your classroom, of that better world." Jeffrey Benson draws from his 40-plus years of experience as a teacher and an administrator to provide explicit, step-by-step guidance on how to incorporate social and emotional learning (SEL) into K–12 lesson planning—without imposing a separate SEL curriculum. The book identifies SEL skills in three broad categories: skills for self, interpersonal skills, and skills as a community member. It offers research-based strategies for seamlessly integrating these skills into every section of lesson plans, from introducing a topic in a way that sparks students' interest, to accessing prior knowledge, providing direct instruction, allowing time for experimentation and discovery, using formative assessment, and closing a lesson in a purposeful rather than haphazard manner. In addition to practical advice on lesson planning that can lead to improved student motivation and achievement, Benson offers inspiration, urging both new and veteran teachers to seize every opportunity to develop caring, joyful communities of learners whose experiences and skills can contribute to a better, more equitable world both inside and outside the classroom.

Make workplace conflict resolution a game that EVERYBODY wins! Recent studies show that typical managers devote more than a quarter of their time to resolving coworker disputes. Let The Big Book of Conflict-Resolution Games help you to: Build trust Foster morale Improve processes Overcome diversity issues And more Dozens of physical and verbal activities help create a safe environment for teams to explore several common forms of conflict—and their resolution. Inexpensive, easy-to-implement, and proved effective at Fortune 500 corporations and mom-and-pop businesses alike, the exercises in The Big Book of Conflict-Resolution Games delivers everything you need to make your workplace more efficient, effective, and engaged.

Noting that elementary school students can learn to resolve basic everyday conflicts without resorting to verbal or physical aggression, this empathy-based program provides a foundation for resolving problems without the intervention of mediators or adults and for providing written documentation of the solution for parents, administrators, and teachers. The program is designed to be introduced to a class in three to four 30-minute lessons. Children learn to write or draw why they are upset, exchange papers and learn why the other person is upset, write or draw a possible solution, share solutions with the other person, and mark the other person's paper to indicate what they agree to do to help end the conflict. Chapters 1 and 2 of the book explain how the process works. Chapter 3 shows how to use the process in the

classroom. Chapter 4 illustrates how to set up basic conflict resolution centers that can be used in a variety of locations within a school. Chapters 5 and 6 tell how to use the process in group or individual counseling and at home. Included in this guide are lesson plans, reproducible worksheets, and posters that illustrate the conflict resolution process. Appended are samples showing how the technique works and answers to commonly asked questions. (KB)

"This may be the most exhilarating and revelatory history of our country. It is must reading for today's youth—as well as their elders." --Studs Terkel From the boys who sailed with Columbus to today's young activists, this unique book brings to life the contributions of young people throughout American history. Based on primary sources and including 160 authentic images, this handsome oversized volume highlights the fascinating stories of more than 70 young people from diverse cultures. Young readers will be hooked into history as they meet individuals their own age who were caught up in our country's most dramatic moments—Olaudah Equiano, kidnapped from his village in western Africa and forced into slavery, Anyokah, who helped her father create a written Cherokee language, Johnny Clem, the nine-year-old drummer boy who became a Civil War hero, and Jessica Govea, a teenager who risked joining Cesar Chavez's fight for a better life for farmworkers. Throughout, Philip Hoose's own lively, knowledgeable voice provides a rich historical context—making this not only a great reference—but a great read. The first U.S. history book of this scope to focus on the role young people have played in the making of our country, its compelling stories combine to tell our larger national story, one that prompts Howard Zinn, author of *A People's History of the United States*, to comment, "This is an extraordinary book—wonderfully readable, inspiring to young and old alike, and unique." *We Were There, Too!* is a 2001 National Book Award Finalist for Young People's Literature.

This elementary curriculum is based on the nationally recognized Resolving Conflict Creatively Program on conflict resolution and social and emotional learning. The book contains 16 lessons per grade level focused on five themes: Making Connections, Emotional Literacy, Caring and Effective Communication, Cultural Competence and Social Responsibility, and Conflict Management and Responsible Decision-Making. Each lesson also includes connection to children's literature and a listing of major curriculum standards that are addressed in the lesson. The lessons in this volume are specifically geared for students in K-2 classrooms.

After Katie gets caught teasing a schoolmate, she's told to meet with Mrs. Petrowski, the school counselor, so she can make right her wrong and learn to be a better friend. Bothered at first, it doesn't take long before Katie realizes that bullying has hurt not only the people around her, but her, too. Told from the unusual point of view of the bullier rather than the bullied, *Confessions of a Former Bully* provides kids with real life tools they can use to identify and stop relational aggression.

She was a perfect baby, and she had a perfect name. *Chrysanthemum*.

Chrysanthemum loved her name—until she started school. A terrific read-aloud for the classroom and libraries!

Examines the theoretical underpinnings of how students learn to write from reading other writers; describes various kinds of inquiry designed to help teachers and students learn how to learn from writers; and includes thoughts from the author on writing and teaching, as well as a selection of resource materials.

Every time a heart-wrenching display of violence in the schools or an appalling act of childhood aggression achieves its '15 minutes of fame' in the media, we all shake our heads in dismay, despair over what should have been done and feel deeply grateful that it happened somewhere else. But, of course, there's no guarantee. These things can and do happen anywhere. And it is not what we do after, but what we can do before that matters. Teaching our children, in the early grades, about resolving conflicts is an urgently needed step in that direction.

Clear, simple language and realistic illustrations teach children the process of peaceful conflict resolution.

With her new backpack and light-up shoes, Faizah knows the first day of school is going to be special. It's the start of a brand new year and, best of all, it's her older sister Asiya's first day of hijab--a hijab of beautiful blue fabric, like the ocean waving to the sky. But not everyone sees hijab as beautiful, and in the face of hurtful, confusing words, Faizah will find new ways to be strong. Paired with Hatem Aly's beautiful, whimsical art, Olympic medalist Ibtihaj

Muhammad and Morris Award finalist S.K. Ali bring readers an uplifting, universal story of new experiences, the unbreakable bond between siblings, and of being proud of who you are.

The Butter Battle Book, Dr. Seuss's classic cautionary tale, introduces readers to the important lesson of respecting differences. The Yooks and Zooks share a love of buttered bread, but animosity brews between the two groups because they prefer to enjoy the tasty treat differently. The timeless and topical rhyming text is an ideal way to teach young children about the issues of tolerance and respect. Whether in the home or in the classroom, The Butter Battle Book is a must-have for readers of all ages.

Making Things Right is designed to be used in several ways: 1. To train students to become mediators and peacemakers in their classroom and at home and as peer mediators for their school. 2. To train students to understand and participate in a restorative justice/discipline structure in the classroom based on the book Discipline That Restores: Strategies to Create Respect, Cooperation, and Responsibility in the Classroom by Ron and Roxanne Claassen. 3. To train parents who want to understand and use a constructive conflict management strategy in their families. Making Things Right is divided into three sections. The first section consists of the lesson plans for each of thirty-two activities. The second section is called Projections and Handouts (larger print makes them easier to read when projected). The third section consists of the Student Folder Items. The time listed for each activity is an approximation and provided to help the teacher determine how they want to combine or use individual activities to fit their time frames. Making Things Right is designed to be used both for whole-class trainings in which lessons are taught on a daily basis spread over several days for one to two weeks, and for two-day student mediator training seminars. Our preference is to use the lessons with the entire class so all have the skills and strategies to be peaceful problem solvers. It is especially helpful for educating students about the theory, skills and strategies used in Discipline That Restores, also by Ron and Roxanne Claassen. Discipline That Restores gives teachers and administrators the knowledge and skills for implementing restorative justice discipline in the classroom and school. It is important for students to have as much knowledge of this structure and process as their teachers and school administrators so all are better able to constructively resolve conflicts together. Lessons are designed to help students learn and become equipped to understand and implement conflict and peacemaking theory, skills and strategies. Students will learn some theory and be encouraged to develop their own theories for why we are interested in learning about new strategies for problem solving, and they will participate in lessons that will teach a specific process to use for problem solving and peacemaking as individuals in relationship with others and as mediators. Making Things Right provides activities that build student understanding of the mediation process and gives students a chance to practice the process through roleplay. This training will enable students to develop practical skills that will help them respond constructively to conflicts in many areas of their own lives as well as help others. Punishment for misbehavior causes resentment to grow, and what appears as evil intent is a consequence of that resentment. Punishment damages relationship at least a little and sometimes a lot. We have discovered that the most effective way to respond to misbehavior is to gain the cooperation of each person involved - it is rare that misbehavior involves only one person -then to sit down with them and help them

solve the problem. Responding this way transforms an otherwise destructive event into a teaching and learning situation for everyone involved and builds relationship.

Personal experience has shown that students, kindergarten and above, can understand and respond constructively; students grade four and above can readily understand and use these concepts in their own interpersonal conflicts and as mediators. Roxanne used this curriculum for many years with her 8th grade students and with parents. Many have used this curriculum to train high school students. All teachers make some adaptations to best use it with their audience.
