Arguing about Political Philosophy Matt Zwolinski, 2014 This second edition of *Arguing About Political Philosophy* is the most complete, up-to-date, and interdisciplinary anthology of its kind. Its selections cover both classic philosophical sources such as Hobbes and Rousseau, and contemporary figures such as Robert Nozick and G.A. Cohen. But additional excerpts from economists, psychologists, novelists, and legal theorists help students from diverse intellectual backgrounds to connect with and appreciate the problems and distinctive methodology of political philosophy. This second edition also goes beyond any other anthology on the market in its coverage of traditionally under-represented views such as libertarianism, neo-socialism, feminism, and critical race theory. And it is one of the only anthologies to go beyond *A Theory of Justice* in its coverage of the political thought of John Rawls. The volume is divided into 3 parts - Foundational Concepts; Government, the Economy and Morality; and Applied Political Philosophy - covering core arguments and emerging debates in topics like: social contract theory, political economy, property rights, freedom, equality, immigration, global distributive justice. How to Win an Argument Marcus Tullius Cicero, 2017-10-31 Timeless techniques of effective public speaking from ancient Rome's greatest orator All of us are faced countless times with the challenge of persuading others, whether we're trying to win a trivial argument with a friend or convince our coworkers about an important decision. Instead of relying on untrained instinct—and often floundering or failing as a result—we'd win more arguments if we learned the timeless art of verbal persuasion, rhetoric. How to Win an Argument gathers the rhetorical wisdom of Cicero, ancient Rome's greatest orator, from across his works and combines it with passages from his legal and political speeches to show his powerful techniques in action. The result is an enlightening and entertaining practical introduction to the secrets of persuasive speaking and writing—including strategies that are just as effective in today's offices, schools, courts, and political debates as they were in the Roman forum. How to Win an Argument addresses proof based on rational argumentation, character, and emotion; the parts of a speech; the plain, middle, and grand styles; how to persuade no matter what audience or circumstances you face; and more. Cicero's words are presented in lively translations, with illuminating introductions; the book also features a brief biography of Cicero, a glossary, suggestions for further reading, and an appendix of the original Latin texts. Astonishingly relevant, this unique anthology of Cicero's rhetorical and oratorical wisdom will be enjoyed by anyone who ever needs to win arguments and influence people—in other words, all of us.

Exploring Literature Frank Madden, 2004 Exploring Literature invites students to connect with works of literature in light of their own experiences and, ultimately, put those connections into writing. With engaging selections, provocative themes,

and comprehensive coverage of the writing process, Madden's anthology is sure to capture the reader's imagination. Exploring Literature opens with five chapters dedicated to reading and writing about literature. An anthology follows, organized around five themes.
