*Carnival and National Identity in the Poetry of Afrocubanismo* Thomas F. Anderson, 2017-04-03 "Traces the ways that Cuban poets dealt with issues of national identity, reflected in their views of Afrocubanismo, often in response to historical changes in public and official opinions on the most visual manifestation of Afro-Cuban culture: carnival."—Choice "Uncovers a wealth of literary texts, primarily poems, that chart the impact of las comparsas, Afro-Cuban festival dances, on mainstream Cuban life. . . . Investigates the ways in which the relationship between racial and ethnic divisions, and between castes and classes, created a literary movement full to the brim with emotional and sensational resonances."—Wasafiri "Underscores the sociopolitical and historical contexts of these poems which have shaped the literary production and message of the Afrocubanismo movement. . . . A tour de force."—Callaloo "Successfully plumbs the position of the Afro-Cuban performer and

brings into sharp relief the way politicians historically sought to affect all elements of Cuban culture.”—New West Indian Guide Carnival and National Identity in the Poetry of Afro-Cubanismo offers thought-provoking new readings of poems by seminal Cuban poets, demonstrating how their writings affected the development of a recognizable Afro-Cuban identity. Thomas Anderson examines the long-running debate between the proponents of Afro-Cuban cultural manifestations and the predominantly white Cuban intelligentsia, who viewed these traditions as “backward” and counter to the interests of the young Republic. Including analyses of the work of Felipe Pichardo Moya, Alejo Carpentier, Nicolás Guillén, Emilio Ballagas, José Zacarías Tallet, Felix B. Cagnet, Marcelino Arozarena, and Alfonso Camín, this rigorous, interdisciplinary volume offers a fresh look at the canon of Afro-Cubanismo and offers surprising insights into Cuban culture during the early years of the Republic.

Spinoza's Ethics ,2011-04-11 Against the background of religious wars and in full knowledge of the relevance of the new exact sciences of the the seventeenth-century, Spinoza developed one of the most ambitious projects in the history of philosophy: his Ethics written in geometrical style. It is a book that deals with ontology, epistemology, human emotions, as well as with freedom and bondage of individuals and societies, in one continuous line of argument. At the same time, the book combines the highest standards of conceptual and argumentative clarity with a wisdom that is saturated with the experience of life. Even today it sets a standard for enlightened theoretical and practical reasoning. This collective commentary discusses all five parts of Spinoza's Ethics. In the introduction, historical consequences of the Ethics are elucidated, as well as its continued philosophical relevance.

**Open Veins of Latin America** Eduardo Galeano,1997 [In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

**Closing of the American Mind** Allan Bloom,2008-06-30 The brilliant, controversial, bestselling critique of American culture that “hits with the approximate force and effect of electroshock therapy” (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published The Closing of the American Mind, an appraisal of contemporary America that “hits with the approximate force and effect of electroshock therapy” (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this

twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom's argument caused such a furor at publication and why our culture so deeply resists its truths today.

From Puritanism to Postmodernism Richard Ruland, Malcolm Bradbury, 2016-04-14 Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

**The World Republic of Letters** Pascale Casanova, 2004 The world of letters has always seemed a matter more of metaphor than of global reality. In this book, Pascale Casanova shows us the state of world literature behind the stylistic refinements--a world of letters relatively independent from economic and political realms, and in which language systems, aesthetic orders, and genres struggle for dominance. Rejecting facile talk of globalization, with its suggestion of a happy literary melting pot, Casanova exposes an emerging regime of inequality in the world of letters, where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts. Inspired by the writings of Fernand Braudel and Pierre Bourdieu, this ambitious book develops the first systematic model for understanding the production, circulation, and valuing of literature worldwide. Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters--the literary equivalent of the meridian at Greenwich. She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power. Within her overarching theory, Casanova locates three main periods in the genesis of world literature--Latin, French, and German--and closely examines three towering figures in the world republic of letters--Kafka, Joyce, and Faulkner. Her work provides a rich and surprising view of the political struggles of our modern world--one framed by sites of publication, circulation, translation, and efforts at literary annexation.

**The Skill in Means**, 1994 This rare sutra, ancient but timely, has long been treated with circumspection because of its liberal attitude toward sexuality and other ethical concerns. One of the original statements of the early Mahayana School, it is here collated from Chinese and Tibetan translations, and from passages that remain in the original Sanskrit. Originally part of a larger sutra on the six perfections that included the well-known perfection of Wisdom sutra, the Skill in Means sutra

explicates the other five perfections of the bodhisattva. The translator has traced its source to verses of the Ratnagunasamcaya-gatha that have no counterpart in the Perfection of Wisdom. The Skill in Means is also found as part of the Ratnakuta collection of sutras, under the title The Question of Jnanottara. In Part One, this Sutra establishes the liberal, even anti-monastic observance of Bodhisattva ethics, especially in matters of sexual involvement, introducing `skill in means` into the fabric of Buddhist ethical life. Parts Two and Three constitute a reinterpretation of the life of the Buddha, demonstrating his motivation by `skill in means`; this is a primary source for the Buddhology of the Mahayana. The older and newer versions are translated side by side; extant Sanskrit passages are included. An introduction places the text in historical and literary perspective. There are copious notes, indexes and a bibliography.

Rebirth Mark Tatz, Jody Kent, 1977 For the first time ever, Westerners can enjoy one of the traditional Tibetan pastimes- the game of Rebirth. This authentic Tibetan board game depicts the Buddhist map of the universe in a scheme of 104 squares. Each square represents a stage of enlightenment and, with each roll of the die, one progresses toward nirvana, afloat among gods of delight, or descends to one of many hellish states, such as that of the realm of hungry ghosts with necks the size of a pin, bellies as big as hills, and in whose mouths food turns to fire. Rebirth was invented in the thirteenth century by the great Sanskrit scholar Sakya pandita Kunga Gyaltzen (Whose Banner Is Total Joy); it came to be regarded as an educational game, teaching children the Buddhist religious philosophy while providing entertainment for adults and a means of determining present states of consciousness and future patterns of rebirth. The modern reader may use the game as either an instructive pastime, or as a form of divination similar to that offered by the I Ching. This version is presented with an introduction, complete instructions for playing the game, commentary for each of the 104 squares, and a full-color poster-size tanka gameboard which-drawn in accord with ritual iconography-may be used for worship and meditation. --

*When Love was Reels* José B. Gonzalez, 2017 My parents crossed when I started losing / teeth. My memory of them is broken, chipped / away. Expressing his longing not to be forgotten like so many abandoned children in his native country, José B. González writes about a young boy's life in this moving collection of narrative poems that uses iconic Latin American and Latino films as a guiding motif. In each poem, famous movie and TV scenes featuring icons like Pedro Infante and Cantinflas and modern stars such as Elizabeth Peña, Edward James Olmos and Esai Morales are juxtaposed with important moments in the boy's life. In the first section, Scenes from the Golden Age, the boy watches classic Latin American films from the '30s, '40s and '50s at the cinema with his grandmother in El Salvador. In a 1948 film, he notes the difference between a maid, who stands straight like the board on which she irons the family's clothes, and his grandmother, who drags each leg like a broken broom, her shoulders heavy, like a stack of irons. He imagines how once she must have been strong, raising her

son, urging him to resist the hungry promises of dreams. In the second section, *Scenes from El Norte*, he moves to New York, where the screens / will not be black and white. There his uncle leaves him in the apartment to watch TV and learn English. The boy writes to his grandmother, but doesn't tell her how / I swallow my screams / how I watch alone. Later, he and his friends use spray cans to tag Brooklyn buildings, and that paint saves them, keeping them from / believing / in blades, / guns and / knives. Providing a tribute as well as a criticism of the way that film and television portray Latino lives, the collection is also notable for shedding light on the lives of so many youth raised by grandmothers in Latin America as the generation in-between went in search of the American Dream. These poems hauntingly illuminate Salvadoran immigration to the United States.

*The Oxford Book of Latin American Poetry* Cecilia Vicuña, Ernesto Livon-Grosman, 2009 The most inclusive single-volume anthology of Latin American poetry in translation ever produced.

Bolívar Marie Arana, 2014-04-08 An authoritative portrait of the Latin-American warrior-statesman draws on a wealth of primary documents to set his life against a backdrop of the explosive tensions of 19th-century South America, providing coverage of such topics as his role in the 1813 campaign for Colombian and Venezuelan independence, his legendary love affairs and his achievements as a strategist, abolitionist and diplomat.

**Che** Spain Rodriguez, 2017-10-17 The classic graphic biography of Che Guevara—the most iconic revolutionary of the twentieth century This dramatic and extensively researched book breathes new life into the story of Ernesto “Che” Guevara. It portrays his revolutionary struggle through the appropriate medium of the underground political comic—one of the most prominent countercultural art forms since the 1960s. Spain Rodriguez’s powerful artwork illuminates Che’s life and the experiences that shaped him: his motorcycle journey through Latin America, his rise to prominence as a leader in Fidel Castro’s revolutionary movement, his travels in Africa, the desperate mission in Bolivia that led to his death, and his extraordinary legacy.
