Now in its tenth edition, Contemporary Accounting: A Strategic Approach for Users is designed for one-semester introductory accounting courses at undergraduate or MBA level, for both accounting and non-accounting majors. The text has been updated throughout to strengthen the content for first-year students, and to integrate financial and management accounting. Associate Dean Phil Hancock (UWA) and Assistant Professor Peter Robinson (UWA) have worked together to add three new, online-only (MindTap) financial accounting chapters that bridge the gap between assumed and actual knowledge, and have redesigned the pedagogical features to make the text friendlier to first-year learners. It has also been appropriately updated for currency, including an extract from the Annual Report of Woolworths Limited for the year ending 30 June 2018 as an appendix. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap Jones and George are dedicated to the challenge of "Making It Real" for students. As a team, they are uniquely qualified to write about the organizational challenges facing today's managers. No other author team in the management discipline matches their combined research and text-writing experience. Essentials of Management concisely surveys current management theories and research. Through a variety of real world examples from small, medium, and large companies the reader learns how those ideas are used by practicing managers. The organization of this text follows the mainstream functional approach of planning, organizing, leading, and controlling; but the content is flexible and encourages instructors to use the organization they are most comfortable with. The themes of diversity, ethics, and information technology are clearly evident through in-text examples, photographs, "unboxed" stories, and the end-of-chapter material - all areas of importance that truly serve to bring to life the workplace realities that today's student will encounter in the course of a career.

Contemporary Selling is the only book on the market that combines full coverage of 21st century personal selling processes with a basic look at sales management practices in a way that students want to learn and instructors want to teach. The overarching theme of the book is enabling salespeople to build relationships successfully and to create value with customers. Johnston and Marshall have created a comprehensive, holistic source of information about the selling function in modern organizations that links the process of selling (what salespeople do) with the process of managing salespeople (what sales managers do). A strong focus on the modern tools of selling, such as customer relationship management (CRM), social media and technology-enabled selling, and sales analytics, means the book continues to set the standard for the most up-to-date and student-friendly selling book on the market today. Pedagogical features include: Mini-cases to help students understand and apply the principles they have learned in the classroom Ethical Dilemma and Global Connection boxes that simulate real-world challenges faced by salespeople and their managers Role Plays that enable students to learn by doing A companion website includes an instructor's manual, PowerPoints, and other tools to provide additional support for students and instructors.

This collection of fourteen essays by scholars from Canada, Europe, the United Kingdom, and the United States emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture, but also the ins and outs of everyday life. Taking the university classroom, broadly

construed, as a site of theoretical investigation, this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them. It also illuminates current pressures on higher education that find expression in the classroom. As a forum for these issues, these essays draw upon Deleuzian, feminist, Foucauldian, and psychoanalytic approaches, among others, recognizing not only that these approaches are often in conflict, but also that, collectively, they enhance our understanding of the classroom. Important questions posed here include whether, and if so how, we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students, teachers, and classrooms. Which theoretical and pedagogical innovations can help teachers and students to "get the job done" as well as to theorize "the job," to simultaneously practice education and imagine other forms and ends for education? How can theory help us to historicize, criticize, and re-draw the productive, but sometimes disabling, lines that "make" the classroom and its subjects? A site for lively theoretical debate about these and related pedagogical issues, this volume will prove useful for anyone wanting to reinterpret, reinvent, and reinvigorate the classroom.

Written by experts on global marketing, Contemporary Brand Management focuses on the essentials of Brand Management in today's global marketplace. The text succinctly covers a natural sequence of branding topics, from the building of a new brand, to brand extension and the creation of a global brand, to the management of a firm's brand portfolio. The authors uniquely explore global branding as a natural expansion strategy across markets and offer numerous international brands as examples throughout. Designed for shorter strategic branding courses (half-term or 6 weeks in length), this text is the ideal companion for upper-level, graduate, or executive-level students seeking a practical knowledge of brand management concepts and applications.

As David Kelly writes, "Catholic moral theology has not been completely constant over the centuries; it has learned and developed." In Contemporary Catholic Health Care Ethics he demonstrates how Catholic health care ethics can—and should—evolve similarly in response to the lightning speed of modern medical advances. Kelly draws on and analyzes the Catholic tradition of medical ethics—but he does not shy away from

criticizing it as well, giving health care professionals, hospital ethics committees, and students a fresh treatment of Catholic health care ethics emphasizing theology, methodology, and application. First discussing the Catholic understanding of the human person, Kelly proposes a Catholic Christian approach to the meaning of human life as it applies specifically to health care. He includes a brief history of the relationship between religion and medicine, and makes strong claims about how theology ought and ought not to be applied in health care ethics. Drawing from the terminology and approaches used by secular bioethics, he suggests how a Catholic perspective on health care can utilize certain secular moral-philosophical positions, even as they apply to the issues of birth control, and end-of life concerns. As practitioners, patients, and families face the difficult decision to continue or stop treatment for dying patients, Kelly compassionately, but practically, explores their concerns in light of American law and ethics. Finally, he provides measured insight on pain management, hospital ethics committees, stem cell research, genetic engineering, and allocation of health care resources. *Contemporary Catholic Health Care Ethics* is informed, challenging, articulate, and bold—bringing to the extremely important field of Catholic health care ethics a much-needed and welcome voice, unafraid to speak to the most difficult issues of the 21st century.

In the 18 chapters in this volume of *Contemporary Studies in Economic and Financial Analysis*, expert contributors gather together to examine the extent and characteristics of forensic accounting, a field which has been practiced for many years, but is still not internationally regulated yet.

The 11th edition of Contemporary Management by Jones and George continues to

provide students with the most current and up-to-date account of the changes taking place in the world of business management. In this revision, the focus is on making Principles of Management relevant and interesting to today's student. This new edition mirrors the changes taking place in management practices by incorporating recent developments in management theory, research, and by providing vivid, current examples of how managers of companies large and small have responded to these changes.

Contemporary Catholic Health Care Ethics, Second Edition, integrates theology, methodology, and practical application into a detailed and practical examination of the bioethical issues that confront students, scholars, and practitioners. Noted bioethicists Gerard Magill, Henk ten Have, and David F. Kelly contribute diverse backgrounds and experience that inform the richness of new material covered in this second edition. The book is organized into three sections: theology (basic issues underlying Catholic thought), methodology (how Catholic theology approaches moral issues, including birth control), and applications to current issues. New chapters discuss controversial end-of-life issues such as forgoing treatment, killing versus allowing patients to die, ways to handle decisions for incompetent patients, advance directives, and physician-assisted suicide. Unlike anthologies, the coherent text offers a consistent method in order to provide students, scholars, and practitioners with an understanding of ethical dilemmas as well as concrete examples to assist in the difficult decisions they must make on an everyday basis.
