A haunted ex-con returns to his hometown: “Fans of hard-boiled pulp fiction will particularly enjoy this novel” (Booklist). Luce Lemay is out on parole three years after an awful tragedy sent him to prison. In his small Illinois town, he does his best to find hope: in a new job at the local Gas-N-Go; in his companion and fellow ex-con, Junior Breen, who spells out puzzling messages to the unquiet ghosts of his past; and finally, in the arms of the lovely but reckless Charlene. But sorrow and violence lie in his path, in this suspenseful exploration of a country bright with the far-off stars of forgiveness and dark with the still-looming shadow of the death penalty. “A wonderful accomplishment . . . The power is in the writing. Mr. Meno is a superb craftsman.” —Hubert Selby Jr., bestselling author of *Last Exit to Brooklyn* “The author moves the story along at a surprisingly fast and easy pace.” —Kirkus Reviews “Moving . . . Meno has a poet’s feel for small-town details, life in the joint and the trials an ex-con faces, and he’s a natural storyteller with a talent for characterization.” —Publishers Weekly

A lyrical and deeply affecting novel recounting the seven days a father spends on the road with his daughter after kidnapping her during a parental visit. Attending a New England summer camp, young Eric Schroder—a first-generation East German immigrant—adopts the last name Kennedy to more easily fit in, a fateful white lie that will set him on an improbable and ultimately tragic course. SCHRODER relates the story of Eric’s urgent escape years later to Lake Champlain, Vermont, with his six-year-old

daughter, Meadow, in an attempt to outrun the authorities amid a heated custody battle with his wife, who will soon discover that her husband is not who he says he is. From a correctional facility, Eric surveys the course of his life to understand-and maybe even explain-his behavior: the painful separation from his mother in childhood; a harrowing escape to America with his taciturn father; a romance that withered under a shadow of lies; and his proudest moments and greatest regrets as a flawed but loving father. Alternately lovesick and ecstatic, Amity Gage's deftly imagined novel offers a profound meditation on history and fatherhood, and the many identities we take on in our lives--those we are born with and those we construct for ourselves.

Provides a narrative of the 82nd Airborne Division, who spent more time in combat than any other American airborne unit during World War II, weaving together insightful analysis of the division's exploits with the voices of soldiers who served there.

In 1964 Kenneth Kaunda and his United National Independence Party (UNIP) government established the nation of Zambia in the former British colony of Northern Rhodesia. In parallel with many other newly independent countries in Africa this process of decolonisation created a wave of optimism regarding humanity's capacity to overcome oppression and poverty. Yet, as this study shows, in Zambia as in many other countries, the legacy of colonialism created obstacles that proved difficult to overcome. Within a short space of time democratisation and development was replaced by economic stagnation, political authoritarianism, corruption and ethnic and political conflict. To better understand this process, Dr Larmer explores UNIP's political ideology and the strategies it employed to retain a grip on government. He shows that despite the party's claim that it adhered to an authentically African model of consensual and communitarian

decision-making, it was never a truly nationally representative body. Whereas in long-established Western societies unevenness in support was accepted as a legitimate basis for party political difference, in Zambia this was regarded as a threat to the fragile bindings of the young nation state, and as such had to be denied and repressed. This led to the declaration of a one-party state, presented as the logical expression of UNIP supremacy but it was in fact a reflection of its weakening grip on power. Through case studies of opposition political and social movements rooted in these differences, the book demonstrates that UNIP's control of the new nation-state was partial, uneven and consistently prone to challenge. Alongside this, the study also re-examines Zambia's role in the regional liberation struggles, providing valuable new evidence of the country's complex relations with Apartheid-era South Africa and the relationship between internal and external opposition, shaped by the context of regional liberation movements and the Cold War. Drawing on extensive archival research and interviews, Dr Larmer offers a ground-breaking analysis of post-colonial political history which helps explain the challenges facing contemporary African polities.

Setting standards of performance is a ubiquitous task in education licensure, certification, and credentialling. It is found in elementary schooling, the professions, commercial applications, and governmental and private organizations. It is one of the most complex, controversial, and vexing issues facing specialists and policy makers today. This second edition solidifies *Setting Performance Standards* as the only book providing a comprehensive profile of both the issues and the "how-to" methods that define this thorny field. Four chapters have been removed; 11 chapters have been added; 2 chapters have major revisions; and all chapters have been updated. Comprehensive – Part I provides a conceptual

overview of standard setting and its overarching issues; Part II provides practical (how-to) information on the newest standard setting methods; Part III provides information and advice on persistent and potential challenges in standard setting. Practical – Part II (the heart of the book) reviews 16 of the newest standard setting methods, far more than any other book. Expertise – Most of the well-known authors from the 1st edition return, with authors of equal stature contributing new chapters.

In this book, Edith B. Gelles asserts that Abigail Adams' vivid, insightful letters are "the best account

that exists from the pre to the post-Revolutionary period in America of a woman's life and world."

Adams' spontaneous, witty letters serve dual purposes for the modern reader: it provides an intriguing first hand account of pivotal historical events and it shows how these events from the Boston Tea Party to the War of 1812 entered the private sphere. Included in the book is a chronology, notes and reference section and a selected bibliography. This book will be a must for all scholars of American literature, history and politics seeking to understand this literary figure.

Fausto Coppi, inarrivabile campione di ciclismo, è il personaggio più amato dello sport italiano di sempre. Gabriele Moroni, giornalista e scrittore, ha raccolto gli scritti autobiografici pubblicati negli anni dal Campionissimo su giornali, riviste, antologie e li ha allineati seguendo la cronologia della sua vita: una vita racchiusa in un breve arco temporale, intensa, gloriosa e insieme tormentata. Vittorie esaltanti, vissute sempre con riservatezza, pudore, modestia. Sconfitte che paiono disfatte, sprofondi, annichilimenti totali, salite sul calvario, ma dalle quali Coppi trova ogni volta la forza di riemergere. I grandi rivali in corsa, a cominciare dall'amico-nemico Gino Bartali, presente e costante come un'ombra, sua antitesi sportiva e umana. Gli affetti familiari. Serse, il fratello più piccolo, il compagno di allenamento e di stanza, il gregario più fedele, l'amico, il consigliere,

il confidente che gli viene strappato troppo presto. I sogni mai realizzati di un uomo che, giunto al culmine del successo e della notorietà, desidererebbe per sé una dimensione semplice, l'esistenza di un "gentleman farmer", essere solamente un anonimo "signor Fausto Coppi". L'amore dichiarato per la bicicletta, strumento di riscatto sociale per un figlio di contadini, un ex garzone di salumeria. Veicolo di fama e agiatezza. Fortuna e insieme condanna: la fortuna di averla incontrata, la condanna senza appello di non poterla lasciare. Fino alla morte. Coppi si racconta. Si termina il libro per accorgersi di averne letto l'autobiografia, dagli anni dell'infanzia nel piccolo borgo di Castellania a quelli della maturità. O forse qualcosa di più: avere ascoltato la sua voce.

Feminist Ecocriticism examines the interplay of women and nature as seen through literary theory and criticism, drawing on insights from such diverse fields as chaos theory and psychoanalysis, while examining genres ranging from nineteenth-century sentimental literature to contemporary science fiction. The book explores the central claim of ecofeminism that there is a connection between environmental degradation and the subordination of women with the goal of identifying and fostering liberatory alternatives. Feminist Ecocriticism analyzes the work of such diverse women writers as

Rachel Carson, Barbara Kingsolver, Ursula K. Le Guin, and Mary Shelley. By including chapters from a comparable number of women and men, this book dispels the notion that ecofeminism is relevant to and used by only female scholars. After uncovering the oppressive dichotomies of male/female and nature/culture that underlie contemporary environmental problems, Feminist Ecocriticism focuses specifically on emancipatory strategies employed by ecofeminist literary critics as antidotes, asking what our lives might be like as those strategies become increasingly successful in overcoming oppression. Thus, ecofeminism is not limited to the critique of literature, but also helps identify and articulate liberatory ideals that can be actualized in the real world, in the process transforming everyday life. Providing an alternative to rugged individualism, for example, ecofeminist literature promotes a more fulfilling sense of interrelationship with both community and the land. In the process of exploring literature from ecofeminist perspectives, the book reveals strategies of emancipation that have already begun to give rise to more hopeful ecological narratives. Feminist Ecocriticism provides a novel integration of two important strands of contemporary literary criticism that have often failed to make contact: feminist criticism and ecocriticism. The openness of both feminist criticism and ecocriticism to multiple, even

incompatible perspectives, without the insistence on unitary definitions of their fields, has given rise to a new hybrid discipline: feminist ecocriticism."

The Ancient Christian Commentary on Scripture is a unique twenty-eight-volume series encompassing all of Scripture and offering contemporary readers the opportunity to study for themselves the key writings of the early church fathers. Arranged by the books of the Bible, each portion of commentary allows the living voices of the church in its formative centuries to speak as they engage the sacred page of Scripture, rendered throughout the series in English in the ecumenically accepted Revised Standard Version of the Bible. The Ancient Christian Commentary on Scripture does what very few of today's students of the Bible could do for themselves. With the aid of computer technology, the vast array of writings from the church fathers - including much that is available only in the ancient languages - have been combed for their comment on Scripture. From these results, scholars with a deep knowledge of the fathers and a heart for the church have hand-selected material for each volume, shaping, annotating and introducing it to today's readers. Each portion of commentary has been chosen for its salient insight, its rhetorical power and its faithful representation of the consensual exegesis of the early church. The Ancient Christian Commentary on Scripture is an ecumenical project,

promoting a vital link of communication between today's varied Christian traditions and their common ancient ancestors in the faith. On this shared ground we listen as leading pastoral theologians of the church's first several centuries gather around the text of Scripture and offer their best theological, spiritual and pastoral insights. Today the historical-critical method of interpretation has nearly exhausted its claim on the biblical text and on the church. In its wake there is a wide-spread yearning among Christian individuals and communities for the wholesome, the deep and the enduring. The Ancient Christian Commentary on Scripture seeks not to replace those excellent commentaries that have been produced in the twentieth century. It supplements them, framing them with interpretive voices that have long sustained the church and only recently have fallen silent. It invites us to listen with appreciative ears and sympathetic minds as our ancient ancestors in the faith describe and interpret the scriptural vistas as they see them. The Ancient Christian Commentary on Scripture is a postcritical revival of the early commentary tradition known as the *glossa ordinaria*, a text artfully elaborated with ancient and authoritative reflections and insights. An uncommon companion for theological interpretation, spiritual reading, and wholesome teaching and preaching.

cinquemila chilometri, alla conclusione del Tour de France 1952, i cori e gli applausi del Parc des Princes sono tutti per la maglia gialla italiana, per il dominatore assoluto della corsa. Fausto Coppi ha prevalso a cronometro. Ha fatto il vuoto sulle asperità dell'Alpe d'Huez. Ha piegato gli avversari valicando in solitaria la Croix de Fer, il Galibier e il Monginevro. Ha continuato a vincere sui Pirenei, quando ormai aveva il Tour in pugno. Con l'aiuto della squadra nazionale, in cui figurano gli altri due Grandi del ciclismo italiano, Gino Bartali e Fiorenzo Magni, ha respinto gli attacchi di francesi, belgi e spagnoli, e quelli della sfortuna, complici incidenti, forature, cadute. Forse è l'apice della sua straordinaria carriera. Mario Fossati fu testimone quotidiano di quell'impresa. Inviato della Gazzetta dello Sport, osservò la Grande Boucle da una motocicletta al seguito della corsa, e di sera nelle sale da pranzo degli alberghi, raccogliendo le voci dei protagonisti e dei suiveurs. In queste pagine, il racconto del trionfo di Coppi è scandito giorno per giorno, come in una sceneggiatura cinematografica. Non vi compaiono solo vittorie, fughe e salite, ma anche la rivalità, poi sopita, con Bartali, le strategie perfette di Alfredo Binda, campione del passato e ora commissario tecnico, le gioie e le fatiche dei generosi gregari, le parole mai banali di Biagio Cavanna, massaggiatore cieco e mentore del fuoriclasse di Castellania. In Coppi il «giornalista

invisibile» Fossati, con stile elegante e potente come una pedalata del Campionissimo, fa rivivere il ciclismo eroico, lo sport per eccellenza in cui si rispecchiò un'epoca intera.

Abbiamo l'Italia di Coppiebartali come abbiamo quella di Vivaverdi. Conserviamo con nostalgia l'Italia di Pepponeedoncamillo, quel certo clima politico che scodellava tra mille travagli la nostra Repubblica. E poi l'Italia di Battistiebaglioni, Gimondiemerckx e Bearzotepertini. Fausto Coppi e Gino Bartali, quei due immensi campioni, rivali sulla pista ma amici nella vita, molto più di quanto la leggenda riporti, hanno incarnato lo spirito di un Paese e di un'epoca, e la loro storia li restituisce con l'immediatezza di un film. Tutti abbiamo un papà, un nonno, uno zio che ci ha raccontato l'Italia di Coppiebartali. Due atleti in cui tutto il Paese si è immedesimato fino a farne simboli tanto dei successi quanto dei traguardi mancati. Anche Massimo e Sara Doris hanno un papà di questa risma, che squaderna loro da sempre le sue memorie più care. Ennio ha però una particolarità tutta sua.

Raccontando la sua Italia di Coppi e di Bartali, fornisce anche un'impareggiabile documentazione in prima persona su un prototipo assoluto della nostra identità nazionale: l'italiano che affronta una guerra, cammina tra i ruderi, non perde l'entusiasmo, si volta le maniche, riparte da capo. L'italiano che ce la fa. Ennio Doris è uno dei pezzi

più pregiati di questa raccolta, perché la sua storia riassume in sé molte storie. È la parabola di un uomo partito dall'estrema provincia veneta che arriva ai vertici nazionali. Un uomo che si è fatto da solo, tutto d'un pezzo: conosciamo benissimo il genere, perché è molto italiano. Ed è il frutto migliore del Paese di Coppiebartali.

Le vite, le storie e i personaggi del velodromo più bello del mondo. Molto più di una pista. Il Vigorelli è stato per anni uno dei simboli della città di Milano, teatro di mille competizioni sportive e persino – ancora oggi – una location per le più svariate attività. Le sfide all'ultimo palmer fra Antonio Maspes e Sante Gaiardoni. Il segreto (qui rivelato) di una bici costruita da Faliero Masi. I record dell'ora (Ercole Baldini, Fausto Coppi, Francesco Moser), il pugilato di Duilio Loi, gli allenamenti di Sugar Ray Robinson, le riprese cinematografiche di Luchino Visconti per uno dei grandi capolavori del neorealismo, "Rocco e i suoi fratelli", e le atmosfere della palestra Ravasio. La prima volta dei Beatles in Italia e quella sciagurata idea di trasformare la pista in un cinodromo. Ma come l'Araba Fenice il "Vigo" è sopravvissuto e rinato a ogni accidente, persino ai bombardamenti. Gifted with a mind that continues to impress the elders in

his village, Ichmad Hamid struggles with the knowledge that he can do nothing to save his friends and family. Living on Occupied land, his entire village operates in constant fear of losing their homes, jobs and belongings. But more importantly, they fear losing each other. On Ichmad's twelfth birthday, that fear becomes reality. With his father imprisoned, his family's home and possessions confiscated, and his siblings quickly succumbing to hatred in the face of conflict. Ichmad begins an inspiring journey using his intellect to save his poor and dying family. In doing so he reclaims a love for others that was lost through a childhood rife with violence, and discovers a new hope for the future.

*Streisand: A Biography* is much more than the story of the world's greatest living performer, how she got there, and why she remains at the top after three decades, it is also, in Anne Edwards's sure hands, a compelling chronicle of a woman's fight to validate her appearance, her talent, and her right to love and be loved. Time and time again Streisand has demonstrated the ability to reinvent herself to keep pace with the continuing changes in musical taste. This updated edition of Edwards's pioneering biography chronicles her public life as a political activist as well as her private life as Mrs. James Brolin.

Apply statistics to your everyday life. Statistics and Data Analysis for Social Science helps students to build a strong foundational understanding of statistics by providing clarity around when and why statistics useful. Rather than focusing on the "how to" of statistics, author Eric J. Krieg simplifies the complexity of statistical

calculations by introducing only what is necessary to understanding each concept. Every chapter is written around and applied to a different social problem or issues—enabling students to broaden their imagination about the statistical "tools" that can be used to make sense of our world and, maybe, to make the world a better place. In addition to updating all the tables and examples with new data, the Second Edition has replaced the section on SPSS with three new sets of exercises at the end of each chapter: Chapter Exercises for students complete during their reading and bring questions to class, In-Class Exercises that focus on the areas that students struggled with during their reading, and Homework Exercises that can be assigned if students need extra practice with the concepts. Succinct and practical, this book will prove to be of great value to practitioners in the myriad instances where a law-related religious interest arises in Italy. Academics and researchers will appreciate its value as a thorough but concise treatment of the legal aspects of diversity and multiculturalism in which religion plays such an important part.

Protagonisti nell'ombra. Scudieri, accompagnatori preziosi dei primattori, spesso primattori anch'essi, mai avvezzi però alla prima pagina e al titolo a nove colonne. Presenze fondamentali, essenziali, al fianco dei campioni, le cui vittorie sono sovente il prodotto del lavoro degli insostituibili: spalle preziose su cui poggiarsi quando la fatica diventa terribile, sparring, compagni d'avventura. Inamovibili, silenziosi, operosi, fedeli e fidati. Una vasta specie con connotati precisi. E oltre un

secolo di opere risolutive: alcuni entrati con dolce prepotenza nella storia dello sport. Gunboat Smith, pugilatore all'inizio dell'altro secolo, si faceva prendere a pugni dal suo superiore: preparava il celebre Jack Johnson, l'odio dei bianchi d'America, alla conquista del mondo. E poi: Carrera e Milano, gli angeli di Coppi, Nobby Stiles il cattivo dell'Inghilterra che si prese la World Cup nel '66; Lodetti e Bonini che correvano per Rivera e Platini... Gli ultimi che diventano primi, e talvolta primi s'inventano davvero. È l'immutabile magia dello sport.

When Danny goes to school one quiet, snowy morning, the last thing he expects to find is a deserted school and his least favourite teacher. But that's exactly what he does find. And what starts as the worst day imaginable, ends as the most life-affirming and magical day of the year. An incredibly moving story about finding friendship in the most unexpected of places from Richard Curtis and Rebecca Cobb.

The fascinating story of an ancient riddle and what it reveals about the nature of time and space Three millennia ago, the Greek philosopher Zeno constructed a series of logical paradoxes to prove that motion is impossible. Today, these paradoxes remain on the cutting edge of our investigations into the fabric of space and time. Zeno's Paradox uses the motion paradox as a jumping-off point for an exploration of the twenty-five-hundred-year quest to uncover the true nature of the universe. From Galileo to Einstein to Stephen Hawking,

some of the greatest minds in history have tackled the problem and made spectacular breakthroughs, but through it all, the paradox of motion remains.

Sviatoslav Richter was a dazzling performer but an intensely private man. Though world famous and revered by classical music lovers everywhere, he guarded himself and his thoughts as carefully as his talent. Fascinated, author and filmmaker Bruno Monsaingeon tried vainly for years to interview the enigmatic pianist. Richter eventually yielded, granting Monsaingeon hours of taped conversation, unlimited access to his diaries and notebooks, and, ultimately, his friendship. This book is the product of that friendship. Richter reveals himself as a man and an artist. Unsentimentally and with his characteristic dry humor and intelligence, the musician describes his poignant childhood and spectacular career, including his tumultuous early days at the Moscow Conservatory and his triumphant 1960 tour of the United States. His laconic recounting of playing in the orchestra at Stalin's surreal, interminable state funeral is riveting. Most important for music lovers, Richter discusses his influences and views on musical interpretation. He describes his encounters with other great Russian performers and composers, including Prokofiev, Shostakovich, Oistrakh, and Gilels. Candid sections from his personal journals offer his sober and unguarded impressions of dozens of performances and recordings--both his own and those of other musicians. This volume offers readers the sizable pleasure of lingering in the thoughts and words of one of the most important pianists of the twentieth century. Unlike many other star performers, Richter was also an intellectual who had interesting things to say, particularly about the musician's proper role as interpreter of the composer's art. This alone makes the book worth reading. Sviatoslav Richter belongs on the shelves of

everyone with a classical music collection and will also appeal to lovers of autobiography and admirers of Russian musical culture.

This volume considers the significance of nation and gender in the context of post-1989 transitions in the former Soviet Union and Yugoslavia and in the context of post-partition India. The texts critique the ways in which narratives of nationhood and womanhood naturalize and essentialize difference and hierarchy. The authors explore uses of sexualized/gendered imagery in defining the space of the nation and sexualized/gendered metaphors of state fatherhood and motherhood in defining the distribution of power within that space.

Volume IV presents writings attributed to the "major" prophets: Isaiah, Jeremiah, Ezekiel, and Daniel. Dire prophecies of God's impending judgment are punctuated by portentous visions. Profound grief is accompanied by the promise of mercy and redemption, a promise illustrated best by Isaiah's visions of a new heaven and a new earth.

Moving and unsentimental story of inner reconstruction after a devastating lossShortlisted for the prestigious Premio Strega in Italy in 2014, this is the story of a broken family coming to terms, in the aftermath of the earthquake in L'Aquila in 2009, with the loss of one of them - a twin sister, a daughter, a mother - while living in temporary accommodation on the outskirts of the city. The terse and clean voice of the spiky, single, thirty-something female narrator wards off sentimentality while guiding us through the inner reconstruction undertaken by each character individually and by the family as a whole, letting us witness the extraordinary poetic power of love and the renewal of hope.

Most Japanese literary historians have suggested that the Meiji Period (1868-1912) was devoid of women writers but for the brilliant exception of Higuchi Ichiyo (1872-1896). Rebecca Copeland challenges this claim by examining in detail the lives and literary careers of three of Ichiyo's peers, each representative of the diversity and ingenuity of the period: Miyake Kaho (1868-1944), Wakamatsu Shizuko (1864-1896), and Shimizu Shikin (1868-1933). In a carefully researched introduction, Copeland establishes the context for the development of female literary expression. She follows this with chapters on each of the women under consideration. Miyake Kaho, often regarded as the first woman writer of modern Japan, offers readers a vision of the female vitality that is often overlooked when discussing the Meiji era. Wakamatsu Shizuko, the most prominent female translator of her time, had a direct impact on the development of a modern written language for Japanese prose fiction. Shimizu Shikin reminds readers of the struggle women endured in their efforts to balance their creative interests with their social roles. Interspersed throughout are excerpts from works under discussion, most never before translated, offering an invaluable window into this forgotten world of women's

The global world debates secularism, freedom of belief, faith-based norms, the state's arbitration of religious conflicts, and the place of the sacred in the public sphere. In facing these issues, Britain, India, and South Africa stand out as unique laboratories. They have greatly influenced the rest of the world. As single countries and together as a whole, the three have moved from the colonial clash of antagonistic religions (of your gods) to an era when it has become impossible to dissociate your god from my god. Today both belong to the same blurred reality of our gods. Through a narrative account of British, South African, and Indian court cases from 1857 to 2009, the author draws an unconventional history of the process leading from the encounter with the gods of the other to the forging of a postmodern, common, and global religion. Across ages, borders, faiths, and laws, the three countries have experienced the ambivalent interaction of society, politics, and beliefs. Hence the lesson the world might learn from them: our gods promise an idealized purity, but they can only become real in the everyday creation of mixed identities, hybrid deities, and shared fears and hopes.

The topic of 'emotion' is studied by many scholars not only for the variety of aspects involved, but also for its extreme importance in understanding what characterizes a specific culture at a given time. In this volume, the attempt at describing concepts of emotion in various cultures of East Asia, and at defining the relevant categories, results in proposing new tools for a wider interpretation of the cultures of those areas which are

deeply influenced by the Chinese cultural tradition.

The Tour de France may provide the most obvious fame and glory, but it is cycling's one-day tests that the professional riders really prize. Toughest, longest and dirtiest of all are the so-called 'Monuments', the five legendary races that are the sport's equivalent of golf's majors or the grand slams in tennis. Milan–Sanremo, the Tour of Flanders, Paris–Roubaix, Liège–Bastogne–Liège and the Tour of Lombardy date back more than a century, and each of them is an anomaly in modern-day sport, the cycling equivalent of the Monaco Grand Prix. Time has changed them to a degree, but they remain as brutally testing as they ever have been. They provide the sport's outstanding one-day performers – the likes of Philippe Gilbert, Fabian Cancellara, Mark Cavendish, Tom Boonen, Peter Sagan and Thor Hushovd – with a chance to measure themselves against each other and their predecessors in the most challenging tests in world cycling. From the bone-shattering bowler-hat cobbles of the Paris–Roubaix to the insanely steep hellingen in the Tour of Flanders, each race is as unique as the riders who push themselves through extreme exhaustion to win

them and enter their epic history. Over the course of a century, only Rik Van Looy, Eddy Merckx and Roger De Vlaeminck have won all five races. Yet victory in a single edition of a Monument guarantees a rider lasting fame. For some, that one victory has even more cachet than success in a grand tour. Each of the Monuments has a fascinating history, featuring tales of the finest and largest characters in the sport. In *The Monuments* Peter Cossins tells the tumultuous history of these extraordinary races and the riders they have immortalised.

An eminent historian recounts the Nazi rise to power from his unique perspective as a Jewish boy growing up in Munich with Adolf Hitler as his neighbor. Edgar Feuchtwanger came from a prominent German Jewish family: the only son of a respected editor, and the nephew of best-selling writer Lion Feuchtwanger. He was a carefree five-year-old, pampered by his parents and his nanny, when Adolf Hitler, the leader of the Nazi Party, moved into the building across the street in Munich. In 1933 his happy young life was shattered. Hitler had been named Chancellor. Edgar's parents, stripped of their rights as citizens, tried to protect him from increasingly degrading realities. In class, his teacher had him draw swastikas, and his schoolmates joined the Hitler Youth. From his window, Edgar bore witness to the turmoil surrounding the Night of the Long Knives, the Anschluss, and Kristallnacht. Jews were arrested; his father was imprisoned at Dachau. In 1939 Edgar was sent on his own to England, where he would make a new life, start a career and a family, and try to

forget the nightmare of his past—a past that came rushing back when he decided, at the age of eighty-eight, to tell the story of his buried childhood and his infamous neighbor.
