

Core Statutes On Evidence 2017 18 Palgrave Core Statutes

A comparative and collaborative study of the foundational principles and concepts that underpin different domestic systems of criminal law.

Experience the new standard in Florida practice guides. The LexisNexis Practice Guide on Florida Civil Procedure: Trial and Post-Trial is part of a 5-volume series that gives you complete step-by-step guidance on civil litigation practice and procedure in Florida and quickly points you to LexisNexis resources that help you build your case. This volume concentrates on issues related to trial and post-trial and gives complete and current coverage on relevant topics, including such areas as: • Jury Selection • Verdicts • Costs & Attorney's Fees • Motion for New Trial • Appeals With its concise writing style, streamlined chapter format, abundance of checklists and forms, thousands of references to leading and related cases, cross references to relevant analytical content, and extensive and authoritative guidance from a consultative board of experienced Florida practitioners and judges, you'll find more of everything that makes a practice guide valuable and easy for you to use.

Constitutional principles are the foundation upon which substantive criminal law, criminal procedure law, and evidence laws rely. The concepts of due process, legality, specificity, notice, equality, and fairness are intrinsic to these three disciplines, and a firm understanding of their implications is necessary for a thorough comprehension of the

Criminal Litigation offers a comprehensive and practical guide to the areas of criminal litigation covered on the Legal Practice Course. Making effective use of realistic case studies backed up by online documentation, the text combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context. Written in an informal and accessible style, it covers all procedural and evidential issues that arise in criminal cases. The more complex areas of criminal litigation are examined using numerous diagrams, flowcharts, and examples, while potential changes in the law are highlighted by specially designed 'Looking Ahead' boxes. Chapters end with key points summaries and self-test questions, enabling students to quickly sum up what they have read and test their own knowledge. The comprehensive Online Resource Centre offers vital support to students throughout their course. Updates are freely accessible to enable students to keep up to date with developments in the field, while links to other useful websites and legislation encourage students to explore the subject area fully. Additional online chapters exploring the practice and dynamics of police station practice, regulatory crime, and sentencing in road traffic accidents are included for students interested in pursuing specialist areas of accreditation. An interactive timeline distinguishing between the three classifications of offences (summary-only, either-way and indictable-only) helps students to see how the whole criminal litigation process fits together and the issues that they need to bear in mind at particular points. Lecturers are able to access video clips of fictional but realistic court proceedings that follow the case studies included in the text; documentation supporting these case studies is also provided via the site. Additional videos cover the procedure at the police station and sentencing in the Crown Court.

The contemporary US legal culture is marked by ubiquitous battles among various groups attempting to seize control of the law and wield it against others in pursuit of their particular agenda. This battle takes place in administrative, legislative, and judicial arenas at both the state and federal levels. This book identifies the underlying source of these battles in the spread of the instrumental view of law - the idea that law is purely a means to an end - in a context of sharp disagreement over the social good. It traces the rise of the instrumental view of law in the course of the past two centuries, then demonstrates the pervasiveness of this view of law and its implications within the contemporary legal culture, and ends by showing the various ways in which seeing law in purely instrumental terms threatens to corrode the rule of law.

This two volume set (CCIS 727 and 728) constitutes the refereed proceedings of the Third International Conference of Pioneering Computer Scientists, Engineers and Educators, ICPCSEE 2017 (originally ICYCSEE) held in Changsha, China, in September 2017. The 112 revised full papers presented in these two volumes were carefully reviewed and selected from 987 submissions. The papers cover a wide range of topics related to Basic Theory and Techniques for Data Science including Mathematical Issues in Data Science, Computational Theory for Data Science, Big Data Management and Applications, Data Quality and Data Preparation, Evaluation and Measurement in Data Science, Data Visualization, Big Data Mining and Knowledge Management, Infrastructure for Data Science, Machine Learning for Data Science, Data Security and Privacy, Applications of Data Science, Case Study of Data Science, Multimedia Data Management and Analysis, Data-driven Scientific Research, Data-driven Bioinformatics, Data-driven Healthcare, Data-driven Management, Data-driven eGovernment, Data-driven Smart City/Planet, Data Marketing and Economics, Social Media and Recommendation Systems, Data-driven Security, Data-driven Business Model Innovation, Social and/or organizational impacts of Data Science.

Well-selected and authoritative, Macmillan Core Statutes provide the key materials needed by students in a format that is clear, compact and very easy to use. They are ideal for use in exams. New to this edition: - Extracts from the Domestic Abuse Act 2021 - Extracts from the Divorce, Separation and Dissolution Act 2020 - Updated Financial and Children Scheme Arbitration Rules 2021

Munday's Evidence provides students with a succinct yet thought-provoking introduction to all of the key areas covered on undergraduate law of evidence courses. Clear and engagingly written, this book sets out to demystify a traditionally intimidating area of law. Probing analysis of the issues, both perennial and topical, ensures that this text contains a thorough exploration of the 'core' of the subject. In addition to covering all the major topics within the law of evidence, this book examines key concepts such as relevance and the court's discretion to exclude technically admissible evidence. This edition has been carefully and comprehensively updated to include all vital new developments in the law of evidence, in particular extensive consideration of the full ramifications of the Criminal Justice Act 2003. This lively, sometimes critical, and often entertaining text offers clear guidance to any student who may find evidence a slightly forbidding subject, and enough analysis to challenge those who wish to explore further.

It's no mystery why Larry Siegel remains THE best-selling author in Criminal Justice. Professor Siegel is known for presenting real-life stories of crime, criminals and the hottest debates in the field, and CRIMINOLOGY: THE CORE, 7th Edition, doesn't disappoint. This four-color paperback is concise and affordable. Real-world material clarifies concepts and theories, equipping students with a solid foundation in modern criminology. Grounded in Siegel's signature style--cutting-edge theory plus meticulous research--the book covers all sides of an issue without taking a political or theoretical position and provides a broad view of the field's interdisciplinary nature. This edition includes the latest insights into political crime; terrorism (e.g., ISIS); white-collar, blue-collar and green-collar crime; cybercrime; transnational crime (e.g. human trafficking) and many other topics. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Elder Law in Context integrates cases, statutory materials, forms, policy and ethics to provide a well-rounded and comprehensive study of Elder Law. The book demonstrates that the law of any given practice area in reality isn't made up of discrete doctrinal areas but rather consists of interrelated and overlapping areas, and covers legal doctrine in contracts, agency, ethics, torts, constitutional law, administrative law, public law, criminal law and more, as they relate to Elder Law. This approach provides both an excellent and practical vehicle for learning Elder Law, but,

by reviewing core doctrine from earlier and more foundational law school courses, it helps to prepare upper level students for the bar exam. The book provides ample opportunities for students to apply lessons, through the various problems and exercises throughout.

Munday's Evidence is a concise yet stimulating introduction to the key areas of the law of evidence. Vibrant and engaging, the book demystifies a traditionally intimidating subject. Careful analysis of the issues, both historic and current, ensures that the text thoroughly explores the 'core' of the subject. Whether used as a primer, core text, or as a reintroduction to the subject, Evidence is the ideal companion for those keen to grasp the core principles and current law of evidence. Online Resources This book is accompanied by online resources, including: - Answer guidance to questions in the text - Useful weblinks - Legal updates

After 20 years, the return of a classic! The 10th edition of Weinstein, Abrams, Brewer and Medwed, Evidence-Cases and Materials (the authors of the previous edition were Weinstein, Mansfield, Abrams and Berger)-to be published in Spring 2017, in time for classes beginning in the Fall 2017 semester. This book enables teaching of the rules of evidence, with an in-depth understanding achieved by no other casebook. The authors extensively cover rationales for the rules and how they fit into our system of resolving civil disputes as well as handling criminal justice issues in both jury and non-jury contexts. Many books focus on teaching the rules only in a trial practice mode. In this era of fewer trials, the book's philosophic underpinning is that the best way to teach Evidence is to provide students with a full and in-depth understanding of each rule so as to prepare them to deal with any possible variation on the issues that can arise at the stages of fact-gathering and investigation, or deposition and discovery, or at the stages of trial, or on appeal. The new edition, while as comprehensive and rich in analysis and supporting materials as previous editions, also contains new explanatory material designed to further students' understanding of the issues. This edition blends the new with the old, representing the latest installment of a casebook with a lineage that dates back to the nineteenth century. The tenth edition retains much of the historical evolution of evidence law from its common law origins through the emergence of the Federal Rules of Evidence and analogous state approaches. In addition, this comprehensive casebook covers new developments in scientific evidence, and applies new insights from fields such as logic and probability.

Succinct but thorough and cutting edge, Siegel and Welsh's JUVENILE DELINQUENCY: THE CORE, 6th Edition presents theory, policy, relevant legal cases, and the latest research in a value-priced, student-friendly paperback. This brief text is acclaimed for its authority and balance as well as the authors' ability to completely engage students in the juvenile delinquency course. In around 500 pages, Siegel and Welsh help students understand the nature of delinquency, its causes and correlates, and current strategies being used to control or eliminate its occurrence. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Discover how the law of evidence operates within Scotland, and in the larger context of UK and European laws of evidence. The new edition has been updated to take account of case law developments since the last edition, plus the Double Jeopardy (Scotland) Act 2014, the Criminal Justice (Scotland) Act 2016 and changes made to the law on vulnerable witnesses by the Victims and Witnesses (Scotland) Act 2014. Helpful student features include Essential Facts and Essential Cases for each chapter.

Well-selected and authoritative, Macmillan Core Statutes provide the key materials needed by students in a format that is clear, compact and very easy to use. They are ideal for use in exams. This new edition of Core Statutes on Employment Law contains essential material up to June 2021.

This edition, the first since the Supreme Court's decision in Crawford v. Washington (2004), presents the material on confrontation and hearsay in a dramatically reorganized manner that emphasizes basic concepts and greatly reduces the time spent on a march through the hearsay exceptions. It also includes for the first time a chapter focusing on a topic made especially salient by recent developments, the treatment of observations by children. The book presents straightforward explanations and problems, many of them drawn from actual cases, designed to make assignments short and class preparation efficient for students and teachers.

This book deals with the prosecution of core crimes and constitutes the first comprehensive analysis of the horizontal and vertical systems of enforcement of international criminal law and of their inter-relationship. It provides a global jurisprudential exposition in assessing the grounds for refusal of surrender to the International Criminal Court and of extradition to another State. It also offers insights into legal perspectives which improve the prevailing enforcement regimes of various models of criminal justice, including hybrid criminal tribunals, special criminal courts, judicial panels and partnerships, and other budding sui generis judicial and/or prosecutorial institutions. The book espouses a human rights law-oriented critique to the enforcement of domestic, regional and international criminal justice and is aimed at legal practitioners (prosecutors, defence lawyers, magistrates and judges), jurists, criminal justice experts, penologists, legal researchers, human rights activists and law students. Christopher Soler lectures Maltese criminal law, international criminal law and public international law at the University of Malta. He obtained his Ph.D. from the University of Amsterdam in The Netherlands.

"Casebook for law students in a Wills, Trusts, and Estates course"--

Blackstone's Police Operational Handbook 2017: Law and Practice & Procedure Pack combines the Blackstone's Police Operational Handbook 2017: Law with the Blackstone's Police Operational Handbook: Practice & Procedure, Second Edition. Blackstone's Police Operational Handbook 2017: Law is a compact and portable resource, specifically designed to meet the reference needs of police officers whilst out on patrol. Core Statutes on Evidence 2017-18Core Statutes on Evidence 2019-20Macmillan International Higher EducationEvidenceCore Texts

The most important book on antitrust ever written. It shows how antitrust suits adversely affect the consumer by encouraging a costly form of protection for inefficient and uncompetitive small businesses.

Well-selected and authoritative, Macmillan Core Statutes provide the key materials needed by students in a format that is clear, compact and very easy to use. They are ideal for use in exams.

New to this edition: - Sentencing Act 2020 (the 'Sentencing Code') - Criminal Procedure Rules 2020 - Domestic Abuse Act 2021

The LexisNexis Practice Guide: Florida Criminal Practice and Procedure gives you step-by-step guidance on the many procedural issues and topics relevant to Florida criminal practice and quickly points you to LexisNexis resources that help you build your case. With its concise writing style, streamlined chapter format, abundance of checklists and forms, multitude of references to leading and related cases, cross references to relevant analytical content, and extensive and authoritative guidance from a consultative board of experienced Florida practitioners and judges, you'll find more of everything that makes a practice guide valuable and easy for you to use.

More than the Supreme Court's Bluebook. The Supreme Court's Style Guide contains the style preferences of the Supreme Court, used by its Reporter of Decisions when preparing the Court's official opinions and the published United States Reports. This guide has never before been made available to the public. Essential for any judge, court, or attorney, the Supreme Court's Style Guide is destined to become the authority in legal style.

In the United States and worldwide, the "labor question" has recrudesced. Old issues have resurged, sometimes in altered guise. New issues have emerged. Both test the twentieth century's solutions. This work explores the arc of labor law in the United States up to the changes that have reordered business and employment at the century's turn – the resurgence of old issues in new dress and the emergence of

new issues, of which the deployment of technologies – roboticization and computerization – has been the catalyst. It closes on the issues labor law is facing in the twenty-first century, including the imponderable of yet a new need to address the de-definition of citizenship. The author's thorough coverage of the relevant terrain draws on social and legal history, and also on the current wealth of economic studies across the range of such pressing issues as the following: – wages; – precarity of work; – employee representation; – health and safety; – job discrimination; – employee mobility; – privacy; – job displacement; – anti-retaliation; – wrongful dismissal; – accelerating use of automation, robotization, and computerization; – segmentation and polarization of the labor market; – – ssurization of jobs; – labor segmentation and polarization; – union implosion; and – privatization of law. At a critical moment when the various strands of all these issues are becoming intertwined, this hugely informative book elucidates how labor law stands today in the United States, and by extension in many other countries. This book provides a necessary background for comparative engagement with economic change. Because the developments it deals with are global, this is critical reading for policy makers, academics, students, and an enlightened public to put what is happening in larger historical context as seen from the paradigm neoliberal economy and its legal institutions.

Criminal Litigation offers a comprehensive and practical guide to the areas of criminal litigation covered on the Legal Practice Course. Making effective use of realistic case studies backed up by online documentation, the text combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context. Written in an informal and accessible style, it covers all procedural and evidential issues that arise in criminal cases. The more complex areas of criminal litigation are examined using numerous diagrams, flowcharts and examples, while potential changes in the law are highlighted by specially designed 'Looking Ahead' boxes. Chapters end with key points summaries and self-test questions, enabling students to quickly sum up what they have read and test their own knowledge. The comprehensive Online Resource Centre offers vital support to students throughout their course. Updates are freely accessible to enable students to keep up to date with developments in the field, while links to other useful websites and legislation encourage students to explore the subject area fully. Additional online chapters exploring the practice and dynamics of police station practice, regulatory crime, and sentencing in road traffic accidents are included for students interested in pursuing specialist areas of accreditation. An interactive timeline distinguishing between the three classifications of offences (summary-only, either-way and indictable-only) helps students to see how the whole criminal litigation process fits together and the issues that they need to bear in mind at particular points. Lecturers are able to access video clips of fictional but realistic court proceedings that follow the case studies included in the text; documentation supporting these case studies is also provided via the site. Choo's Evidence provides students with a lucid account of the core principles of the law of civil and criminal evidence in England and Wales, whilst also exploring the fundamental rationales that underlie the law as a whole. This clear and engaging text explores current debates and draws on different jurisdictions to achieve a fascinating mix of critical and thought-provoking analysis for students and practitioners alike. Where appropriate the author draws on comparative material and a variety of socio-legal, empirical, and non-legal material. Also, thorough footnoting and further reading lists provide valuable signposting to a wealth of additional sources.

If you need the short answer to a Section 1983 question, and you can't afford to waste time running down the wrong research path, turn to the Handbook of Section 1983 Litigation, 2017 Edition. This essential guide is designed as the practitioner's desk book. It provides quick and concise answers to issues that frequently arise in Section 1983 cases, from police misconduct to affirmative actions to gender and race discrimination. It is organized to help you quickly find the specific information you need whether you're counsel for the plaintiff or defendant. You will find a clear, concise statement of the law governing every aspect of a Section 1983 claim, extensive citation to legal authority, every major Supreme Court ruling on Section 1983, as well as key opinions in every circuit, and a detailed overview of case law. The Handbook of Section 1983 Litigation, 2017 Edition is written by David Lee, a practicing expert with 30 years of litigation experience. He has lectured on civil rights topics before thousands of litigators during his career, and argued four cases before the United States Supreme Court, as well as numerous cases before the Tenth Circuit Court of Appeals. This new updated 2017 Edition features coverage of recent important Section 1983 U.S. Supreme Court cases including: Mullenix v. Luna Reed v. Town of Gilbert Glossip v. Gross Walker v. Sons of Confederate Veterans Taylor v. Barks City and County of San Francisco v. Sheehan Rodriguez v. United States Kingsley v. Hendrickson City of Los Angeles v. Patel Armstrong v. Exceptional Child Center, Inc. Williams-Yulee v. Florida Bar Coleman v. Tollefson This is the one reference to keep at your fingertips at a hearing, trial, or deposition when dealing with Section 1983 cases.
