Ulrich Weisstein's collection of 21 essays offers a comparative study of Expressionism as a Modernist movement whose dynamic core lay in Germany and Austria-Hungary, but which transformed artistic practices in other European countries. The focus, Weisstein argues, “must be strictly and sharply aimed at a specific body of works and opinions—a relatively dense core surrounded by a less clearly defined fringe zone—indigenous to the German speaking countries.” The volume spans an “Expressionist” period extending from roughly 1910 to 1925. Weisstein himself contributes two introductory chapters on problems of definition and a thoughtful analysis of English Vorticism. An ample context is set by comparative essays concerned with international movements such as Futurism that had an impact on German Expressionist drama, prose, and poetry, together with essays on the adaptation of Expressionist forms in countries such as Poland, Russia, Hungary, South Slavic nations and the United States. These essays call attention to representative authors and artists, as well as to periodicals and artistic circles. Reviewers have praised not only the presentation of “literary links and interaction” among national cultures, but especially the “most rewarding” interdisciplinary essays on Dada and on Expressionist painting, music, and film.

Tempesta's stories explore complexities that are both profound and profoundly human, for example in cultural differences between life in the USA and in Italy. Most of his stories ask the reader to consider such questions as whether friendship possesses substance beyond illusion, and whether new life and new joy can emerge from surrender to aestheticized memories. Translating short stories is an arduous task but he succeeded in recreating in English, the emotional impact of his original stories in Italian. The importance of his writing lies in his capacity to generate dialogue. A reader must actively engage his texts, not to arbitrarily construct meaning, but to capture the abundance of subtlety and nuance that his work evokes. His prose (just like his poetry) does not ask to be received or decoded. Rather, it asks the reader to reflect on it and converse with it.

Methodological accounts of research interviews find that how researchers use this tool in their work varies widely: there are many “ways” of interviewing. This edited collection unpacks the interactional dynamics of qualitative research interviews from studies conducted in education, second language acquisition, applied linguistics and disability studies from scholars in the UK, USA, Italy, Portugal and Korea. These studies explore the interactional details of how the identities of researchers and their participants matter for the generation of interview data, as well as the kinds of discursive resources and social actions that occur in tandem with the production of data for research projects. Given the widespread use of qualitative interviews for social research, this book provides a robust contribution to what Tim Rapley has called the “social studies of interviewing.” This book is relevant to audiences across disciplines who use the interview as a primary research method.
